Creation Myths of the World David A. Leeming, 2009-12-18 The most comprehensive resource available on creation myths from around the world their narratives themes motifs similarities and differences and what they reveal about their cultures of origin ABC CLIO's breakthrough reference work on creation beliefs from around the world returns in a richly updated and expanded new edition From the Garden of Eden to the female creators of Acoma Indians to the rival creators of the Basonge tribe in the Congo *Creation Myths of the World An Encyclopedia Second Edition* examines how different cultures explain the origins of their existence Expanded into two volumes the new edition of *Creation Myths of the World* begins with introductory essays on the five basic types of creation stories analyzing their nature and significance Following are over 200 creation myths each introduced with a brief discussion of its culture of origin At the core of the new edition is its enhanced focus on creation mythology as a global human phenomenon with greatly expanded coverage of recurring motifs comparative themes the influence of geography the social impact of myths and more *Myth* David Adams Leeming, 2002 This text explores classic works such as the Song of Songs to reveal the cultural energies that ancient mythmakers sought to corral in their creations Leeming suggests that myth and factual knowledge do not negate but complement each other *Untying the Gordian Knot* Timothy E. Eastman, 2020-12-10 In *Untying the Gordian Knot Process Reality and Context* Timothy E Eastman proposes a new creative synthesis the Logoi framework which is radically inclusive and incorporates both actuality and potentiality to show how the fundamental notions of process logic and relations woven with triads of input output context and quantum logical distinctions can resolve a baker's dozen of age old philosophic problems Further Eastman leverages a century of advances in quantum physics and the Relational Realism interpretation pioneered by Michael Epperson and Elias Zafiris and augmented by the independent research of Ruth Kastner and Hans Primas to resolve long standing issues in understanding quantum physics Adding to this Eastman makes use of advances in information and complex systems semiotics and process philosophy to show how multiple levels of context combined with relations including potential relations both local and local global can provide a grounding for causation emergence and physical law Finally the Logoi framework goes beyond standard ways of knowing that of context independence science and context focus arts humanities to demonstrate the inevitable role of ultimate context meaning spiritual dimension as part of a transformative ecological vision which is urgently needed in these times of human and environmental crises *Cosmogenesis* Brian Thomas Swimme, 2023-12-12 From the host and cocreator of PBS's *Journey of the Universe* a fresh look at how the rich collision between science and spirituality has influenced contemporary consciousness The understanding that the universe has been expanding since its fiery beginning 14 billion years ago and has developed into stars galaxies life and human consciousness is one of the most significant in human history It is taught throughout the world and has become our common creation story for

nearly every culture In terms of the universe s development we humans are not only economic religious or political beings At the most fundamental level we are cosmological beings Cosmogenesis is one of the greatest discoveries in human history and it continues to have a profound impact on humanity And yet most science books do not explore the effects it has had on our individual minds In *Cosmogenesis* Brian Thomas Swimme narrates the same cosmological events that we agree are fact but offers a feature unlike all other writings on this topic He tells the story of the universe while simultaneously telling the story of the storyteller Swimme describes how the impact of this new story deconstructed his mind then reassembled it offering us a glimpse into how cosmogenesis has transformed our understanding of both the universe and the evolution of human consciousness itself

Indian Ethics Purushottama Bilimoria, Joseph Prabhu, Renuka Sharma, 2017-03-02 Indian ethics is one of the great traditions of moral thought in world philosophy whose insights have influenced thinkers in early Greece Europe Asia and the New World This is the first such systematic study of the spectrum of moral reflections from India engaging a critical cross cultural perspective and attending to modern secular sensibilities The volume explores the scope and limits of Indian ethical thinking reflecting on the interpretation and application of its teachings and practices in the comparative and contemporary contexts The chapters chart orthodox and heterodox debates from early classical Hindu texts to Buddhist Jaina Yoga and Gandhian ethics The range of issues includes life values and virtues karma and dharma evil and suffering renunciation and enlightenment and extends to questions of human rights and justice ecology and animal ethics nonviolence and democracy Ramifications for rethinking ethics in a postmodern and global era are also explored *Indian Ethics* offers an invaluable resource for students of philosophy religion human sciences and cultural studies and to those interested in South Asian responses to moral dilemmas in the postcolonial era

The Reenchantment of Science David Ray Griffin, 1988-05-06 This book describes the move from modern mechanistic science to a post modern organismic science David Ray Griffin gives voice to a revisionary postmodernism based on the work of Whitehead and Hartshorne that contrasts with the relativistic nihilistic postmodernism of Heidegger Derrida and Wittgenstein The book brings together some of today s most creative thinking about science Griffin s introductory essay summarizes the way in which the mechanistic view led to the disenchantment of science and the various reasons for the reversal of this process in our time The essays on physics cosmology biology ecology psychosomatic medicine and parapsychology bring out the various dimensions of the reenchantment of science the replacement of modern dualism and reductionism with an ecological organismic paradigm the priority of internal relations to external the causal power of experience the presence of experience purpose and intrinsic value throughout nature influence at a distance the laws of nature as habits the presence of a divine whole in all the parts and the history of the universe as a self creative meaningful story This book gives a powerful voice to this emerging movement s proposals for a postmodern science spirituality and world order

The Resurgence of the Real Charlene Spretnak, 2012-09-10 In this insightful beautifully written work one of America s most important feminist ecological thinkers

reflects on the roots of modernity in Renaissance humanism the Reformation the Scientific Revolution and the Enlightenment Spretnak argues that an ecological postmodern ethos is emerging in the 1990s the creative cosmos and the complex sense of place Both a sharp critique and a graceful performance of the art of the possible The Resurgence of the Real changes the way we think about living in the modern world **The Palgrave Handbook of Social Creativity Research** Izabela

Lebuda,Vlad Petre Glăveanu,2018-10-30 This Handbook brings together an international cast of experts to explore the social nature and context of creativity studies focusing on methodology as a key component in advancing the social study of creativity Two decades on from the pioneering work of Alfonso Montuori and Ronald E Purser the authors present a timely appraisal of past and present work in social creativity studies and look ahead to future developments within this field The authors collectively offer a rigorous examination of the methodological and empirical issues and techniques involved in studying social creativity They examine the phenomenon as a form of communication and interaction within collaborative relationships contending that creativity happens not within a vacuum but instead from a nexus of personal social and contextual influences This comprehensive work is organized in three parts focusing first on the various methodological approaches applicable to the social in creativity studies It secondly turns to empirical findings and approaches relating to the social nature of creativity In the book s final part the authors offer reflections on the state of social research into creativity pinpointing areas requiring further methodological scrutiny and empirical verification and areas that may inspire further theoretical or applied work Combining classic ideas with cutting edge emerging methods this work provides a vital methodological toolbox for investigators within social creativity *The Dismantling of Public Education and How to Stop It*

Elaine B. Johnson,2003-11-19 Today many public schools especially rural and inner city areas are so fraught with violence so impersonal and so poorly funded that they drive students away rather than inspire them to learn Most people do not realize that the school system they knew when they were growing up is now in the process of being supplanted with alternative approaches to education Nor do they understand the grave consequences for their children who face the demise of America s one system of public education for all Author Elaine Johnson examines the state of education in the twenty first century using science rather than business as a more reliable and positive guide for education The application of scientific principles of interrelatedness self organization and differentiation to leadership and teaching transforms schools into places that improve school performance Chapters describe practical approaches to teaching math science and foreign languages The Dismantling of Public Education analyzes The influence on education of the business model calling for growth Competition Measurable targets Accountability This book also discusses the effects on young people of immense high schools charter schools and statewide standardized achievement tests **Will Pope Francis or a Successor Call a Vatican III Council?** John

Raymaker,Gerald Grudzen,2020-06-30 In 2008 the authors wrote Steps toward Vatican III which explored developments occurring in the Catholic Church including its teachings on social justice interreligious dialogue and Small Christian

Communities This update of Steps explores how Pope Francis has developed such themes in original ways in his encyclicals and in his use of synodal consultations For example in his Encyclical Laudato Si the pope seeks to lead us into the mysteries of the universe of creatures and the harmony of creation It helps us reflect on the universal communion of nature Calling for a global ecological policy and a cooperative approach the pope warns us that unless we respect nature the entire planet and humanity will face drastic consequences In his meetings with economists and entrepreneurs the pope has proposed a pact for renewing the economy to counteract the asocial aspects of modern business practices He has discussed some of the most complex problems in today's world from safeguarding the environment to courageously committing oneself to rethink the economic paradigms of our time Young people in particular have responded with enthusiasm to Pope Francis initiatives The book notes how some traditional Catholics have opposed the pope but it argues that in fact the pope is more traditional than his critics for he insists on going back to Jesus' own teachings The new ongoing crises such as the breakdown and rise of new ideologies terrorism massive advances in the sciences and in technology as well as fundamental shifts in gender relations are further factors considered in the book Indeed the world is now radically different from the world of the early 1960s when Vatican II Council was held Due to these many radical changes the book suggests the need for a Vatican III which would consolidate the Church's global outreach on every continent

The Elixir of Air Charles C. Finn, 2005-02-23 Addiction of one kind or another touches us all Given its destructive course it would seem an unequivocal curse to be lamented The thrust of *The Elixir of Air* however is that it need not be Addiction can in fact be a hidden blessing for what it forces us to face and change in our lives for the spirit journey it rudely launches us on Which is not to glamorize the searing pain experienced by addicts and their loved ones Addiction's gathering force is such that only searing pain can stop us in our tracks long enough to make possible a life transformation We are in the presence here of the great mystery of death required for rebirth Addressing addiction brings us to holy ground

Contextual Teaching and Learning Elaine B. Johnson, 2002 Contextual teaching and learning CTL is a system for teaching that is grounded in brain research Brain research indicates that we learn best when we see meaning in new tasks and material and we discover meaning when we are able to connect new information with our existing knowledge and experiences Students learn best according to neuroscience when they can connect the content of academic lessons with the context of their own daily lives Johnson discusses the elements of the brain compatible contextual teaching and learning system making meaningful connections investing school work with significance self regulated learning collaboration critical and creating thinking nurturing the individual reaching high standards and using authentic assessment Drawing on the practices of teachers in kindergarten through university Johnson provides numerous examples of how to use each part of the CTL system

Revisioning Environmental Ethics Daniel A. Kealey, 1990-07-05 Using the psychohistorical schema of Jean Gebser Kealey analyzes the positions of environmental ethicists and concludes that the first four of Gebser's structures of consciousness are inadequate to meet the present crisis Drawing on Plotinus

Aurobindo and Max Scheler Kealey outlines an adequate fully integral ecological ethic **Spiritual Intelligence and the Neuroplastic Brain** Charles W. Mark Ph. D., Charles W. Mark, 2010 Our brains are getting wired differently in the world of digital technology information revolution and in the inter cultural world of global society Think of the new vocabulary Global brain collective intelligence global village and cyberspace That should tell us something about the neural rewiring that is taking place inside of our brains whether or not we are aware of it The fact that the human brain changes throughout a person's life in response to intellectual stimulation physical exercise exposure to new cultural environments learning opportunities and challenges is a revolutionary discovery Till twenty years ago neuroscientists believed in the conventional theory that the brain's ability at making new neural connections stopped before a child entered adolescence That is the old dogma There is a Second Copernican Revolution taking place inside of our brains writes the author quoting Carl Zimmer Some experts are suggesting that we are already living in what Richard Restack calls the neurosociety Ray Kurzweil the futurist is predicting that by 2045 A D human beings will be living in an era of singularity when non biological machines invented by human brains and human ingenuity are going to outsmart human intelligence billions of times What is going to be the fate of the human spirit human spirituality the feeling of connection to a force and power that is greater than us God our ability to use spiritual imagination and our intelligence Are we progressively moving away from religion and community based spirituality into the spirituality of different strokes for different folks In his groundbreaking book *Spiritual Intelligence and The Neuroplastic Brain A Contextual Interpretation of Modern History* Charles W Mark takes the reader on a journey through modern history and shows the glimpse of what is to come <http://www.spiritualityintelligence.com> *Posthuman Legal Subjectivity* Jana Norman, 2021-08-12 This book provides a reimagining of how Western law and legal theory structures the human earth relationship As a complement to contemporary efforts to establish rights of nature and non human legal personhood this book focuses on the other subject in the human earth relationship the human Critical ecological feminism exposes the dualistic nature of the ideal human legal subject as a key driver in the dynamic of instrumentalism that characterises the human earth relationship in Western culture This book draws on conceptual fields associated with the new sciences including new materialism posthuman critical theory and Big History to demonstrate that the naturalised hierarchy of humans over nature in the Western social imaginary is anything but natural It then sets about constructing a counternarrative The proposed Cosmic Person as alternative non dualised human legal subject forges a pathway for transforming the Western cultural understanding of the human earth relationship from mastery and control to ideal co habitation Finally the book details a case study highlighting the practical application of the proposed reconceptualisation of the human legal subject to contemporary environmental issues This original and important analysis of the legal status of the human in the Anthropocene will be of great interest to those working in legal theory jurisprudence environmental law and the environmental humanities as well as those with relevant interests in gender studies cultural studies feminist theory

critical theory and philosophy **Albert Schweitzer Reverence for Life The Adventure of Being True to Yourself** Walt Martin, Magda Ott, 2017-07-12 Acclaim for this book His Holiness The Dalai Lama exceptionally important Dr Albert Schweitzer's philosophy focusing on reverence for life and campaign against nuclear weapons that naturally flows from it remain sources of great inspiration today Dr Jane Goodall DBE founder Jane Goodall Institute UN Messenger of Peace Turn to this beautiful book for inspiration for hope for renewed faith in your own ability to make a difference for people animals and the human community I can't think of a better way to spend time than this wonderful book Mikhail Gorbachev The book Albert Schweitzer Reverence for Life can not be more timely It is not just a tribute to one of mankind's Giants of Human Spirit it is also a tocsin that appeals to our conscience Earth Jurisprudence Peter D. Burdon, 2014-09-19 The idea of human dominion over nature has become entrenched by the dominant rights based interpretation of private property Accordingly nature is not attributed any inherent value and becomes merely the matter of a human property relationship Earth Jurisprudence Private Property and the Environment explores how an alternative conception of property might be instead grounded in the ecocentric concept of an Earth community Recognising that human beings are deeply interconnected with and dependent on nature this concept is proposed as a standard and measure for human law This book argues that the anthropocentric institution of private property needs to be reconceived drawing on international case law indigenous views of property and the land use practices of agrarian communities Peter Burdon considers how private property can be reformulated in a way that fosters duties towards nature Using the theory of earth jurisprudence as a guide he outlines an alternative ecocentric description of private property as a relationship between and among members of the Earth community This book will appeal to those researching in law justice and ecology as well as anyone pursuing an interest more particularly in earth jurisprudence **Integral Ecology** Sean Esbjörn-Hargens, Michael E. Zimmerman, 2009 Dozens of real life applications and examples of this framework currently in use are examined including three in depth cases studies work with marine fisheries in Hawai'i strategies of eco activists to protect Canada's Great Bear Rainforest and a study of community development in El Salvador In addition eighteen personal practices of transformation are provided for you to increase your own integral ecological awareness Jacket

Embracing the Beat of Term: An Psychological Symphony within **The Universe Is A Green Dragon A Cosmic Creation Story**

In a global consumed by screens and the ceaseless chatter of instantaneous communication, the melodic splendor and emotional symphony produced by the published word usually disappear into the back ground, eclipsed by the relentless noise and distractions that permeate our lives. However, set within the pages of **The Universe Is A Green Dragon A Cosmic Creation Story** a marvelous literary value filled with organic thoughts, lies an immersive symphony waiting to be embraced. Constructed by a wonderful musician of language, this interesting masterpiece conducts visitors on a psychological journey, well unraveling the hidden melodies and profound influence resonating within each cautiously constructed phrase. Within the depths with this touching assessment, we can examine the book is key harmonies, analyze its enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
