The Dynamics of Gender and Life Stephen Pirie,2023-03-03 The central concept within the ebook *The Dynamics of Gender and Life* is the universe as a self organizing system SOS wherein everything and everyone is engaged in an ongoing dynamic cyclical interactive dance between unity and individuality feminine and masculine wave and particle togetherness and separateness Yin and Yang possibility and actuality The exploration of this interactive possibility actuality feminine masculine dance yields valuable and useful insights into creativity identity politics personality structure belief systems intuition gender spirituality neuroplasticity peak states health well being and more Some reviews I liked Stephen's generalized summaries of what it all meant as I went along e.g. We and each part within creation are an active pivot point a doorway an active creative portal through which the creative potential and power of the quantum vacuum the implicate order the ground of being flows and creates We are the delivery vehicles and directors of where and how that energy is congealed into actuality Beautifully expressed These occasional boosts in his explication keeps the reader in touch with the overall context of what he is saying and sustains an emotional connection with the content All in all a wonderful piece of work which I earnestly hope will reach a vast multitude of readers Professor Emeritus Frank Juszczuk Western New Mexico University More reviews at <https://beliefinstitute.com/reviews>
