Protection of Pregnant and Parenting College Students Catherine L. Riley, Alexis Hutchinson, Carley Dix, 2022-05-17 This book explores the discrepancies among what protections Title IX provides to pregnant and parenting students what colleges communicate and what pregnant and parenting students actually experience To actually protect pregnant and parenting students the authors argue that a school must provide multifaceted support that is effectively communicated to an entire campus community including students who are parenting who are pregnant and who may become pregnant The first part of the book portrays the realities of pregnancy and parenting in college The chapters illuminate related Title IX applications population demographics how unplanned pregnancies in college occur and physical and mental health challenges that these students often experience The authors then discuss what compliance with Title IX legally entails and why meeting it is often an afterthought In the second half of the book the authors use mixed methods research to map the compliance landscapes of three schools in the southeast as examples a large state school a mid size private university and a

small private college Offering eye opening interviews with pregnant and parenting students interdisciplinary research and proposals for multifaceted support and communication on college campuses this volume will engage students scholars and activists with an interest in higher education administration educational policy reproductive health bioethics gender studies and rhetoric *From the Hips* Rebecca Odes, Ceridwen Morris, 2007-05-22 Drawing on the experiences of hundreds of real parents and the expertise of doctors midwives and other birth and baby pros this indispensable resource is filled with the most accurate and up to date information about having and caring for a baby including Decisions Decisions A judgment free breakdown of every major choice including prenatal testing natural vs medical childbirth circumcision breast or bottle feeding and work life options The Endless No What not to eat take and do when you re pregnant get the real facts behind the prohibitions I Want My Life Back Anxiety regret ambivalence and other rarely discussed postpartum emotions Parents and partners A look beyond the one size fits all approach to family with strategies for minimizing perfect parent pressure and managing your real life relationships through the changes Sorting Through the Voices A user friendly guide to the dueling gurus trendy techniques and conflicting theories that confuse new parents A forward thinking book that includes a wide range of voices and approaches From the Hips reflects the many ways of being pregnant and parenting without suggesting that there is one right way Leading Psychoeducational Groups for Children and Adolescents Janice L.

Transition-Age Youth Mental Health Care Vivien Chan, Jennifer Derenne, 2021-03-10 Over the course of the last two decades improved practices in child and adolescent mental healthcare have led to a decreased environment of stigma which also led to an increased identification and treatment of mental health disorders in children and youth Considering that treatment and outcomes are improved with early intervention this is good news However the success gained in the field of child and adolescent psychiatry leads to a new challenge transitioning from adolescent care to adult care It has been known for some time that children adult and geriatric patients all have unique needs where it comes to mental healthcare yet limited work has been done where it comes to the shifting of the lifespan Where it comes to the child adult transition defined as those in their late teens and early mid 20s there can be multiple barriers in seeking mental healthcare that stem from age appropriate developmental approaches as well as include systems of care needs Apart from increasing childhood intervention the problem is exacerbated by the changing social dynamics more youths are attending college rather than diving straight into the workforce but for various reasons these youths can be more dependent on their parents more than previous generations Technology has improved the daily lives of many but it has also created a new layer of complications in the

mental health world The quality and amount of access to care between those with a certain level of privilege and those who do not have this privilege is sharp creating more complicating factors for people in this age range Such societal change has unfolded so rapidly that training programs have not had an opportunity to catch up which has created a crisis for care Efforts to modernize the approach to this unique age group are still young and so no resource exists for any clinicians at any phase in their career This book aims to serve as the first concise guide to fill this gap in the literature The book will be edited by two leading figures in transition age youth both of whom are at institutions that have been at the forefront of this clinical work and research This proposed mid sized guide is therefore intended to be a collaborative effort written primarily by child and adolescent psychiatrists and also with adult psychiatrists The aim is to discuss the developmental presentation of many common mental health diagnoses and topics in chapters with each chapter containing clinically relevant bullet points and or salient features that receiving providers who are generally adult trained should keep in mind when continuing mental health treatment from the child and adolescent system Chapters will cover a wide range of challenges that are unique to transition age youths including their unique developmental needs anxiety mood and personality disorders at the interface of this development trauma and adjustment disorders special populations and a wide range of other topics Each chapter will begin with a clinical pearl about each topic before delving into the specifics
