Tobacco In Colonial Virginia The Sovereign Remedy:

Tobacco in Colonial Virginia Melvin Herndon, 2016-07-17 The Sovereign Remedy Tobacco was probably first brought to the shores of England from Florida by Sir John Hawkins in 1565 Englishmen were growing it by the 1570 s and after the return of the daring Sir Francis Drake to England with a large quantity of tobacco captured in the West Indies in 1586 the use of tobacco in England was increased substantially By 1604 its consumption had become so extensive as to lead to the publication of King James Counter Blast condemning the use of tobacco nevertheless six years later the amount brought into Great Britain was valued at 60 000 Some of the colonists were probably acquainted with tobacco before they landed at Jamestown and found the Indians cultivating and using it under the name of uppowoc or apooke However it was not until 1612 that its cultivation began among the English settlers even in small patches Previously their attention had been centered entirely on products that could be used for food Captain John Smith wrote that none of the native crops were planted at first not even tobacco The story of tobacco in Virginia begins with the ingenious John Rolfe He was one of the many Englishmen who had come to enjoy the fragrant aroma and taste of the imported Spanish tobacco and upon his arrival at Jamestown in May 1610 Rolfe found that tobacco could be obtained only by buying it from the Indians or by cultivating it There seems to have been no spontaneous growth then as now Owing to the frequent unfriendly atmosphere between the colonists and the Indians Rolfe probably decided to grow a small patch for his own use He also had a desire to find some profitable commodity that could be sold in England and thus promote the success and prosperity of the settlers and the London Company Driven by these two motives John Rolfe became the first colonist to successfully grow tobacco the plant that was to wield such a tremendous influence on the history of Virginia The history of tobacco is the history of Jamestown and of Virginia No one staple or resource ever played a more significant role in the history of any state or nation The growth of the Virginia Colony as it extended beyond the limits of Jamestown was governed and hastened by the quest for additional virgin soil in which to grow this golden weed For years the extension into the interior meant the expansion of tobacco production Without tobacco the development of Virginia might have been retarded 200 years Tobacco was the life and soul of the colony yet a primitive but significant form of diversified farming existed from the very beginning especially among the small farmers Even with the development of the large plantations in the eighteenth century there were quite a number of small landowners interspersed among the big planters in the Tidewater area and they were most numerous in the Piedmont section They usually possessed few slaves if any and raised mostly grains vegetables and stock which they could easily sell to neighboring tobacco planters The negligible food imports by the colony indicates that a regular system of farming existed Nor was tobacco the sole product of the large tobacco plantations This is indicated by the fact that practically all of the accounts of the product of one man s labor were recorded as so many pounds or acres of tobacco plus provisions And had the plantations not been generally self sufficient the frequently extremely low prevailing tobacco prices would have made the agricultural economy even less

Billings, 2010-03-01 Sir William Berkeley 1605 1677 influenced colonial Virginia more than any other man of his era diversifying Virginia's trade with international markets serving as a model for the planter aristocracy and helping to establish American self rule An Oxford educated playwright soldier and diplomat Berkeley won appointment as governor of Virginia in 1641 after a decade in the court of King Charles I Between his arrival in Jamestown and his death Berkeley became Virginia's leading politician and planter indelibly stamping his ambitions accomplishments and ultimately his failures upon the colony In this masterly biography Warren M Billings offers the first full scale treatment of Berkeley's life revealing the extent to which Berkeley shaped early Virginia and linking his career to the wider context of seventeenth century Anglo American history **The Old Dominion in the Seventeenth Century** Warren M. their uneasy relations with English agents George Washington Thomas Jefferson and their contemporaries lived in a world that was dominated by questions of debt from across an ocean but also one that stressed personal autonomy T H Breen s study of this tobacco culture focuses on how elite planters gave meaning to existence He examines the value laden relationships found in both the fields and marketplaces that led from tobacco to politics from agrarian experience to political protest and finally to a break with the political and economic system that they believed threatened both personal independence and honor The Old Dominion in the Seventeenth Century (Volume 2 of 2) (EasyRead Large Bold Edition) ,
