remembered the parks as and we tried to change expectations in that way Typically in the past the little changes that come about in parks are politically motivated to get a big bang in the short term for the next election And our parks were suffering from that So when we invited the community to dream large we changed the expectations and also changed the expectations of what the public sector was looking to do

Evaluating a Multi-hospital Quality Improvement Strategy to Implement Clinical Guidelines for Radiographic Contrast Agents John B. Hernandez,1998 a Considerable resources are being devoted to development of evidence based clinical practice guidelines that are designed to improve the quality and value of medical care and to promote the responsible proliferation of new medical technologies Unfortunately the development and dissemination of guidelines typically is insufficient to influence practice behavior Until successful implementation strategies can be developed that take into account the organizational context of medical practice the goals underlying development of scientifically valid guidelines will not be achieved This report provides results from a randomized controlled trial and qualitative evaluation of a quality improvement strategy to implement clinical guidelines for radiographic contrast agents The strategy involved training hospital representatives in quality improvement methods to implement the guidelines in their own hospitals using a step by step guideline implementation protocol and other tailored resources Overall the strategy was unsuccessful in improving adherence to the guidelines in the intervention group A comparative case study was conducted to examine the impact of key organizational factors on adherence and to identify successful strategies for overcoming barriers to adherence Intra organizational financial incentives were found to be particularly important in predicting the extent of guideline adherence Specific recommendations for managers policymakers and researchers are presented
