**IMPORTANT:** Read entire instructions before starting the installation.

### SAFETY CONSIDERATIONS

Read and follow manufacturer instructions carefully. Follow all local electrical codes during installation. All wiring must conform to local and national electrical codes. Improper wiring or installation may damage the thermostat.

**Recognize safety information.** This is the safety alert symbol. When the safety alert symbol is present on equipment or in the instruction manual, be alert to the potential for personal injury.

Understand the signal words DANGER, WARNING, and CAUTION. These words are used with the safety alert symbol. DANGER identifies the most serious hazards which will result in serious personal injury or death. WARNING signifies a hazard which could result in personal injury or death. CAUTION is used to identify unsafe practices which would result in minor personal injury or property damage.

### GENERAL

Totaline® 7-day, programmable thermostats are wall-mounted, low-voltage thermostats which maintain room temperature by controlling the operation of an HVAC (heating, ventilation, and air-conditioning) system. Separate heating and cooling set points and auto-changeover capability allow occupied and unoccupied programming for energy savings.

All programmable thermostats allow up to 4 time/temperature settings to be programmed per 24-hr period. Each thermostat stores programs for 7 independent days. Batteries are not required. During power interruption, the internal memory stores current schedules for an unlimited time while the clock continues to run for at least 72 hours.

### INSTALLATION CONSIDERATIONS

**Models** — There are 3 different models. Ensure the proper thermostat is selected for the intended application. Refer to Fig. 1 for thermostat dimensions. Select from the following models:

1. P274-1100 (air conditioner [AC]) — 1-stage cool, 1-stage heat for air-conditioning systems only
2. P274-1200 (heat pump [HP]) — 1-stage cool, 2-stage heat for either heat pump or air conditioner systems with 2-stage heat
3. P274-1300 (2-speed) — 2-stage cool, 2-stage heat for 2-speed AC systems, or 2-stage cool, 3-stage heat for 2-speed HP systems, or 1-stage cool, 4-stage heat for 1-speed HP with special 3-stage electric heat

**Outdoor Temperature Sensing** — All programmable thermostats can be equipped with an optional outdoor temperature sensor, part no. TSTAE0XSEN04-05. If this option is to be installed, place thermostat installation so that 2 wires can be run from the thermostat to an outdoor location. Refer to the installation instructions provided with the outdoor temperature sensor for necessary connections.
