Tourism And Transport Modes Networks And Flows Aspects Of Tourism Texts:

Tourism and Transport David Duval,Gui Lohmann,2011-04-30 Part of the Contemporary Review Series Contemporary Tourism Reviews will provide you with critical state of the art surveys of all of the major areas of tourism study to people who are coming to a topic for the first time Written by leading thinkers and academics in the field they provide flexible current and topical information as an instant download

Cycling and Motorcycling Tourism Anna Scuttari,2019-06-01 This book explores the understanding description and measurement of the physical sensory social and emotional features of motorcycle and bicycle journey experiences in tourism Novel insights are presented from an original case study of these forms of tourism in the Sella Pass a panoramic road close to the Dolomites UNESCO World Heritage Site A comprehensive mixed methods strategy was employed for this research with concurrent use of quantitative and qualitative methods including documentation and secondary data analysis mobile video ethnography and emotion measurement The aim was to create a holistic knowledge of the features of journey experiences and a new definition of the mobility space as a perceptual space The book is significant in that it is among the first studies to explore the concept of journey experiences and to develop an interdisciplinary theoretical foundation of mobility spaces It offers a comprehensive understanding and a benchmarking of the features of motorcycling and cycling journey experiences a deeper market knowledge on motorcycling and cycling tourists and a set of tools techniques and recommendations for future research on tourist experiences

Tourism and Transport David Timothy Duval,2007 This book investigates the complex relationship between transport provision and tourism While focusing on the various modes and types of transport available it also discusses the form and extent of transport networks that tie destinations together and the regulatory environments that dictate transport flows on an international scale The environmental implications for transport including climate change and emissions also features

Tourism Recreation Research ,2009

The Routledge Handbook of Tourism Geographies Julie Wilson,2012-03-15 Geographical analysis of tourism spaces and places is advancing fast In terms of human geography the various recent academic turns have led to fresh examination of existing debates and have advanced new theoretical ideas in geography that are more salient than ever for tourism studies The Routledge Handbook of Tourism Geographies seeks to examine such recent developments by providing a state of the art review of the field documenting advances in research and evaluating different perspectives approaches techniques and contexts The Routledge Handbook of Tourism Geographies considers recent disciplinary developments including post disciplinarily in geography in relation to the study of tourism It also analyzes the fledgling relationships of the new mobilities paradigm critical tourism studies and cultural political economy to tourism spaces and places as well as acknowledging a spatial turn in poststructuralist social sciences more generally In addition it evaluates how postcolonial feminist sensory performative and queer perspectives have diversified research in the tourism geographies field Spatial analysis time geography placemaking and landscape concerns are addressed and issues such as transport

environmental discourses and development are also analyzed Finally the volume s contributions highlight key areas for advancing research and map out the dimensions of future trajectories in tourism geographies in different theoretical and thematic contexts Written by leading scholars in the tourism geographies field this text will provide an invaluable resource for all those with an interest in tourism geographies encouraging dialogue across disciplinary boundaries and areas of study
