Tourism Laurajane Smith, Emma Waterton, Steve Watson, 2012-07-26 This book is a response to the burgeoning interest in cultural tourism and the associated need for a coherently theorized approach for understanding the practices that such an interest creates Cultural tourism has become an important and popular aspect of contemporary tourism studies as well as

providing a rich seam of upscale product development opportunities in the industry as a whole. Much of the related literature however focuses upon describing and categorizing cultural tourism from a supply side perspective. This has prompted the taxonomizing of cultural tourists on the basis of their level of involvement and interest in cultural tourism products and or their economic worth as a sought after market segment. There have been few recent attempts at a rigorous re theorization of the issues beyond conventional representational theories. This book aims to fill that void. This groundbreaking volume provides a theoretical and empirical account of what it means to be a cultural or heritage tourist. It achieves this by exploring the interactions of people with places, spaces, intangible heritage and ways of life, not as linear alignments but as seductive moments of encounter, engagement, performance and meaning making which are constitutive of cultural experience in its broadest sense. The book further explores encounters in cultural tourism as events that capture and constitute important social relations involving power and authority, self consciousness and social position, gender and space, history and the present. It also explores the consequences these insights have for our understanding of culture and heritage and its management in the context of tourist activity. In capturing the cultural moment, this book provides a better understanding of the motivations on site activities, meaning constructions and other cultural work done by both tourists and tourist operators. The volume confronts and explores the cultural, political and economical interrelations between culture, heritage and the tourism industry. In so doing it also investigates how this co mingling of identity, representation and social life may be better apprehended with the wider shift in critical thought towards notions of affect and performativity. The book is a fundamental and influential contribution to research in this field. It will be of significant value to students, academics and researchers interested in this broad topic area.

Tourism Supply Chain Management Haiyan Song, 2012-03-12

Fierce global competition in the tourism industry is now focused on integral parts of supply chains rather than on individual firms. The highly competitive environment has forced tourism firms to look for ways to enhance their competitive advantage. Tourism products are often viewed by consumers as a value added chain of different service components and identifying ways to effectively manage the interrelated tourism business operations will enable tourism firms to better meet customer needs and accomplish business goals, thus maintaining competitive advantage over their equally efficient rivals. This significant and timely volume is the first to apply supply chain management theories and practices in the context of tourism. By doing so, the book offers insight into the relationships between tourism enterprises, how coordination across organizations can be effectively achieved and how business performance can be improved. It provides comprehensive and systematic coverage of modern supply chain management concepts and methodologies applied to the tourism and hospitality industries. The text covers key issues and principles including marketing and product development, demand forecasting, supplier selection and management, distribution channels, capacity management, customer relationship management, tourism supply chain competition and coordination and e tourism. The book combines essential theory and comparative international examples.

based on primary research to show challenges and opportunities of effective tourism supply chain management This text is essential for final year undergraduate and postgraduate students studying Tourism Management Tourism Planning and Tourism Economics Knowledge Networks and Tourism Michelle McLeod,Roger Vaughan,2014-11-20 The receipt of knowledge is a key ingredient by which the tourism sector can adjust and adapt to its dynamic environment However although its importance has long been recognised the fragmentation within the sector largely as a result of it being comprised of small and medium sized businesses makes understanding knowledge management challenging This book applies knowledge management and social network theories to the business of tourism to shed light on successful operations of tourism knowledge networks It contributes specifically to understanding a network perspective of the tourism sector the information needs of tourism businesses social network dynamics of tourism business operation knowledge flows within the tourism sector and the transformation of the tourism sector through knowledge networks Social Network Analysis is applied to fully explore the growth and maintenance of tourism knowledge networks and the relationships between tourism sector stakeholders in relation to their knowledge requirements Knowledge Networks and Tourism will be valuable reading for all those interested in successful operations of tourism knowledge networks Tourism Art and Souvenirs David Hume,2013-10-01 This book examines the relationship between art and tourism through the study of the material culture of tourism tourist art and souvenirs It thoroughly examines how to categorise the material culture of tourism within the discourses of contemporary art and cultural anthropology and demonstrates that tourist art is a unique expression of place and genuine artistic style The first investigation to consider the activity of souvenirs from both indigenous and settler tourist sites it brings a unique addition to the existing dated research in the area Working initially from Graburn s definition of tourist art as the art of one culture made specifically for the consumption of another Tourism Art and Souvenirs sheds light on important aspects of the souvenir that have not been widely discussed The most recent research is used to consider how the souvenir is designed and consumed consumer expectations and influence on the character of the souvenir how the souvenir maker is consumed by the tradition of heritage and how products become successful as souvenirs The title also investigates the language involved in the representation of place and the recording of experience through the souvenir developing a method that expresses the descriptive data of individual souvenir artefacts graphically so the patterns of language may be analysed Enhancing the understanding of material culture in tourism and therefore adding to future tourism development this volume will be of interest to upper level students researchers and academics in tourism culture heritage and sustainability *Future Tourism* James Leigh,Craig Webster,Stanislav Ivanov,2013 The book draws on the views of leading thinkers in Tourism and considers a broad range of issues from multidisciplinary perspectives facing Tourism industry for the first time in one volume dwindling energy new technology security like war and terrorism political economy sustainability and human resources By critically reviewing these social and economic challenges in a global scale
