The Charlie Hebdo Affair and Comparative Journalistic Cultures Lyombe Eko, 2019-11-14 The Charlie Hebdo terrorist attack of January 7 2015 shook French journalism to the core and reverberated around the world triggering a cascade of responses from journalists media outlets cartoonists and caricaturists from diverse geographies of freedom of expression and journalistic cultures. This book is a multifaceted case study that describes and explains sameness and difference in diverse journalistic conceptualizations of the Charlie Hebdo affair from a comparative international perspective. It explores how different journalistic traditions cultures worldviews and styles conceptualized and reacted to the clash between freedom of expression and respect for religious sentiments in the context of terrorism where those sentiments are imposed on the media and secular societies through intimidation coercion and violence. The book analyzes the political and cultural clashes between the core human right of freedom of expression and right of respect for religious sentiments which is situated on the outer periphery of the human right of freedom of religion. It also examines how media outlets editors and cartoonists from different politico cultural contexts and journalistic cultures in Africa Asia Europe the Middle East and North and South America addressed the delicate issue of Mohammed cartoons in general and the problem of republication of the controversial Charlie Hebdo Je Suis Charlie Mohammed cartoon in particular.

After Charlie Hebdo Gavan Titley, Des Freedman, Gholam Khiabany, Aurélien Mondon, 2017-11-15 As the world looked on in horror at the Paris terror attacks of January and November 2015 France found itself at the centre of a war that has split across nations and continents. The attacks set in motion a steady creep towards ever more repressive state surveillance and have fuelled the resurgence of the far right across Europe and beyond while leaving the left dangerously divided. These developments raise profound questions about a number of issues central to contemporary debates including the nature of national identity the limits to freedom of speech and the role of both traditional and social media. *After Charlie Hebdo* brings together an international range of scholars to assess the social and political impact of the Paris attacks in Europe and beyond. Cutting through the hysteria that has characterised so much of the initial commentary it seeks to place these events in their wider global context untangling the complex symbolic web woven around Charlie Hebdo to pose the fundamental question how best to combat racism in our supposedly post racial age.
