The 45 revised full papers and 29 revised short papers presented together with 3 invited contributions were carefully reviewed and selected from 198 submissions. The papers are organized in topical sections on Web information modeling, payment and security, information extraction, advanced applications, performance issues, linkage analysis and document clustering, Web caching and content analysis, XML query processing, Web search and personalization, workflow management and enterprise information systems, business processes, deep Web and dynamic content, Web information systems design, ontologies and applications, multimedia, user interfaces and languages and peer to peer and grid systems. *Advances in Information Systems* Tatyana Yakhno, 2004-10-19 This volume contains the proceedings of the 3rd International Conference on Advances in Information Systems ADVIS held in Izmir Turkey 20-22 October 2004. This was the third conference dedicated to the memory of Prof. Esen Ozkarahan. We are very proud to continue this tradition and keep the memory of this outstanding scientist. The third conference covered many of the topics of the second one: databases and data warehouses, information systems development and management, formation retrieval, distributed and parallel data processing and evolutionary algorithms. Besides them, some of the hot topics related to information systems were included in the scope of this conference, such as data mining and knowledge discovery, Web information systems development, information privacy and security, multimedia information systems and network management. This year we received 203 submissions from which the Program Committee selected 61 papers for presentation at the conference. The success of the conference was dependent upon the hard work of a large number of people. We gratefully acknowledge the contribution of the members of the Program Committee who did their best to review all submitted papers. We also thank all the specialists who helped us in reviewing the papers. We appreciated the constant support and help from the Rector of Dokuz Eylul University Prof. Dr. Emin Alici. I would like to express my personal gratitude to Natalya Cheremnykh and Olga Drobyshovich for their help in producing the camera-ready version of these proceedings. *Oceans 2003*, 2003 **Bibliographic Guide to Maps and Atlases 2001** G.
