Social Media for Communication and Instruction in Academic Libraries Joe, Jennifer, Knight, Elisabeth, 2019-03-01 The subject of the use of social media has renewed interest because of the impact that it had on the last U S presidential election and the impact that social media networks will have on subsequent elections As guides in the information world it is thus important that librarians be well versed in social media This has called attention to the relevance and urgency of incorporating social media use into the academic library both as a marketing tool and as an instruction tool Social Media for Communication and Instruction in Academic Libraries is an essential reference source that offers guidance in using social media in academic libraries and in instruction with a special emphasis on assessment and evidence based practice Featuring research on topics such as digital libraries marketing and web analytics this book is ideally designed for librarians administrators educators managers information technology specialists professionals researchers and students

Media/Society David Croteau, William Hoynes, 2018-08-02 Providing a framework for understanding the relationship between media and society this updated Sixth Edition of Media Society helps you develop the skills you need to critically evaluate both conventional wisdom and your own assumptions about the social role of the media

Authors David Croteau and William Hoynes retain the book's basic sociological framework but now include additional discussions of new studies and up to date material on today's rapidly changing media landscape. Now featuring streamlined content and a more engaging narrative, this edition offers expanded discussions of the new media world including digitization, the internet, the spread of mobile media devices, the role of user-generated content, the potential social impact of new media on society, and new media's effect on traditional media outlets.

Elementary Forms of Social Relations Theodore D. Kemper, 2016-10-04. *Elementary Forms of Social Relations* introduces the reader to social life as a perpetual quest by individuals to gain attention, respect, and regard, status accompanied by an effort to marshal defensive and offensive means, power to overcome the reluctance of others to grant status. This work is based on empirical evidence from many research settings showing that status and power are the main relational modes and that to understand our own and others' social behaviour we need to understand how status and power operate in relational conduct. The status, power, and reference group approach is applied to enumerate the relatively few ways in which social interaction can occur. Chapters compare the analytic value of the concept of the self with the value of reference groups that create the self. Threads of investigation include considering the fallacy of abandoning reference groups as sources of cultural information in favour of approaches derived from cognitive neuroscience; examining a multi-person conversation from a status, power, and reference group stance as against a view of the same conversation based on principles of Conversation Analysis; and asserting the universality of personal status, power, interests even among national leaders to name a few. By applying the author's main theory to a range of specific cases, the author reaffirms the importance of the social to our understanding of a variety of phenomena including the self, cultural transmission, the conduct of leaders, and economic activity. This book provides readers with transparent instances of the theory in action and thus will appeal to scholars across the social sciences with interests in theory and social interaction.

Visual Ethics Paul Martin Lester, 2018-01-19. *Visual Ethics* addresses the need for critical thinking and ethical behavior among professionals responsible for visual messages in photography and photojournalism, film, and digital media. From the author of *Photojournalism: An Ethical Approach* published more than 20 years ago, this book goes beyond photojournalism ethics. It discusses crucial contemporary concerns including persuasion, stereotyping, global perspectives, graphic design decisions, multimedia production, social media, and more. Written for an ever-growing discipline, author Paul Martin Lester gives serious ethical consideration to the complex field of visual communication.
