Zimbabwe Since The Unity Government:

Zimbabwe since the Unity Government Stephen Chan, Ranka Primorac, 2013-09-13 Zimbabwe has moved from a condition of restricted expression to one of many contradictory expressions Politics has lost none of its compromises and conflicts but it has been amplified by an explosion of voices For the first time a genuine debate is possible among many actors insiders and outsiders and the question marks over Zimbabwe and its future are no longer in terms of a narrow choice between one party and another one outlook or another Compromise government has meant complexity of debate This does not preclude disillusionment within debate but it does include vigour and imagination in debate This book includes essays from renowned scholars governmental and diplomatic figures and prioritises contributions by Zimbabweans themselves The essays provide a blend of academic and practitioner observation and judgement which no other volume has done This book was published as a special issue of The Round Table

Zimbabwe's International Relations Julia Gallagher, 2017-06-29 Zimbabwe is a state that has undergone significant ruptures in its domestic and international politics in recent years This book explores how Zimbabwean citizens have under difficult circumstances reconstructed ideas of their state by imagining the wider world Unlike other work on international relations which tends to focus on the state level this book is based on the accounts of ordinary people Drawing on interviews with more than two hundred Zimbabweans collected over three years Gallagher explores how citizens draw on emotional responses to the international to find and construct different others While this unique and compelling read will appeal to those researching Zimbabwe Gallagher's wider conclusions will interest those studying and advancing the broader theoretical debates of international relations

South Africa and the World Mills Soko, 2021-09-27 Over the past 20 years the global political economy has experienced its most profound shifts since the onset of the industrial revolution In South Africa and the World Mills Soko reflects on some of the salient issues that have pervaded public discourse during this time analysing them within the context of the contemporary South African political economy and of the country's position in the world Arranged thematically the essays were all written during a defining period in recent history a period that has witnessed among others the accession of China to the WTO the 9 11 terrorist attacks on the US the invention of the iPad the birth of Facebook the 2008 9 global financial crisis Brexit and the global coronavirus pandemic which began at the end of 2019 The turbulent multipolar world demands visionary political and economic leadership supported by institutions well attuned to contemporary conditions Such leadership is in short supply Nor is the existing institutional architecture sufficiently equipped to deal with a complex array of economic social environmental technological and demographic challenges Mills Soko highlights what has not worked in terms of politics leadership foreign policy the economy the African development trajectory corporate ethics international trade global governance and the thread which underlies all these issues the importance of strong decisive and accountable leadership He counters his criticism with what has worked and offers views on how some of the problems that have constrained progress in South Africa and the world can

be solved A central message emerges from his writings leadership and governance matter whether in the national or international context It is a message that permeates all the chapters in the book And it goes to the heart of what South Africa has gone through over the past two decades and where it is today **Kanyenze: Zimbabwe: The Link Between Politics and**, 2023-03-20 In this accessible and authoritative book Godfrey Kanyenze provides a comprehensive and far reaching analysis of the socio economic development in Zimbabwe in light of the expanding authoritarianism and the ongoing destruction of democratic institutions during the four decades after independence Kanyenze describes the various phases of the socio economic development starting with 1980 when the people of Zimbabwe saw their hard won independence and new democracy as a promise for a **Power in Contemporary Zimbabwe** Erasmus Masitera, Fortune Sibanda, 2018-04-20 In recent years the Zimbabwe crisis rendered the country and its citizens to be a typical case of failed states the world over Zimbabwean society was and is still confronted with different challenges which include political economic and social problems Attempts to overcome these challenges have thrown light on the power that rests within individuals and or groups to change and even revolutionize their localities communities states and ultimately the world at large Through experience individuals and groups have promoted ideas that have aided in changing mentalities attitudes and behaviors in societies at different levels This book brings together contributors from various academic disciplines to reflect on and theorize the contours of power including the intrinsic and or extrinsic models of power which pertain to individuals communities and or groups in order to transform society Reflections are on various groups such as political movements environmental movements religious groups advocacy groups gender groups to mention but a few as they struggle against marginalization discrimination exploitation and other forms of oppression showing their agency or compliance **Zimbabwe** Paul Murray, 2016-09-05 Zimbabwe Travel Guide Travel tips and holiday advice including Harare hotels and restaurants Victoria Falls highlights national parks safaris and reserves Also features suggested itineraries and routes wildlife tracking Hwange National Park Lake Kariba Mana Pools Gonarezhou National Park ancient history in Great Zimbabwe and Khami **The Development of the Zimbabwe National Defense College, 2004-2012** Max John Chinyanganya, 2024-01-05 This book interrogates the often controversial civil military relations debate in Zimbabwe The study argues that theoretically Civil Military Relations CMR describes the relationship between civil society as a whole and the military organization or organizations established to protect it More narrowly it describes the relationship between the civil authority of a given society and its military institutions Studies of civil military relations often rest on a normative assumption that civilian control of the military is preferable to military control of the state This text demonstrates the complexity of relationship between military institutions and civic societies particularly in developing countries The methodology employed here is a mixture of internationally recognised scholarly works supplemented by extensive interviews arising from international benchmarking with similar institutions worldwide This coherent and accessible book brings the history of civil military relations up to date

exploring a variety of perspectives and newly emerging practices in developing countries whose experience in this field is relatively new in both theory and practice

Democratization in Africa: Challenges and Prospects Gordon Crawford, Gabrielle Lynch, 2013-09-13 It is two decades since the third wave of democratization began to roll across sub Saharan Africa in the early 1990s This book provides a very timely investigation into the progress and setbacks over that period the challenges that remain and the prospects for future democratization in Africa It commences with an overall assessment of the lack of progress made from 1990 to 2010 exploring positive developments with reasons for caution Based on original research subsequent contributions examine various themes through country case studies inclusive of the routinisation of elections accompanied by democratic rollback and the rise of hybrid regimes the tenacity of presidential powers the dilemmas of power sharing ethnic voting and rise of a violent politics of belonging the role of donors and the ambiguities of democracy promotion Overall the book concludes that steps forward remain greater than reversals and that typically though not universally sub Saharan African countries are more democratic today than in the late 1980s Nonetheless the book also calls for more meaningful processes of democratization that aim not only at securing civil and political rights but also socio economic rights and the physical security of African citizens This book was originally published as a special issue of Democratization

Zimbabwe H. Besada, 2011-01-03 Formerly one of Africa's most promising economies Zimbabwe has begun a process of economic reconstruction after decades of political turmoil and economic mismanagement The advent of a national unity government in February 2009 launched a new but still tentative era of political stability The government has a daunting political and economic agenda Top priorities include restoring the rule of law demonstrating fiscal responsibility and putting in place macroeconomic and structural reforms to win the confidence of domestic and international investors An optimistic time frame for its socio economic recovery is now estimated to be at least ten years Zimbabwe Picking Up the Pieces chronicles the steps that led to the downturn of the Zimbabwean state and economy before assessing what can be done to resuscitate a once thriving society Leading experts from and on the region explore the country's options on key governance issues from strengthening institutions to addressing food security to promoting private sector development to mobilizing donor country assistance This collection offers a unique glimpse into a fragile state and the severe costs Zimbabweans have and will have to endure if there is to be any hope of recovery

Zimbabwe: The Blame Game Tendai R. Mwanaka, 2013 The Blame Game is a cycle of creative non fiction pieces pulling the readers through the politics of

modern day Zimbabwe Like in any game there are players in this game opposing each other The game is told through the eyes of one of the players thus it is subjective It centres on truthfully trying to find who to blame for Zimbabwe s problems and how to undo all these problems Finding who to blame should be the beginning for the search of solutions It encourages talking to each other maybe about the wrongs we have done to each other and genuinely trying to embrace and forgive each other In trying to undo the problems in Zimbabwe it also offers insight or solutions on a larger platform Africa particularly South Africa that it might learn from other African countries that have imploded before it how to solve its own problems

The Security Governance of Regional Organizations Emil J. Kirchner, Roberto Dominguez, 2013-06-17 The Security Governance of Regional Organizations assesses the effectiveness of regional organizations as regional or global security providers and examines how policy preferences resources capabilities institutional mechanisms and economic and political cohesion link with collective action behaviour in four security policy functions It investigates how regional organizations meet the new security threats or respond to strategic geopolitical changes and what adaptations they make in the process Divided into three parts and using a common analytical framework the book explains the changing security agenda in ten key regional organizations each organizational chapter identifies the nature of threats within the region examines the historical development and the degree of institutionalization assesses the level of governance explores the context of interaction investigates the compliance with the norms of the system of governance This collection contributes to the ongoing reconceptualization of security and definition of security governance and explores whether regional security governance processes are unique or similar and whether some organizational experiences can be seen as models for others to follow It combines a coherent theoretical framework with strong comparative case studies making it ideal reading for all students of security studies

Joshua Mqabuko Nkomo of Zimbabwe Sabelo J. Ndlovu-Gatsheni, 2017-08-17 This book is a pioneering study of Joshua Mqabuko Nkomo a Zimbabwean nationalist whose crucial role in the country s anti colonial struggle has largely gone unrecognized These essays trace his early influence on Zimbabwean nationalism in the late 1950s and his leadership in the armed liberation movement and postcolonial national building processes as well as his denigration by the winners of the 1980 elections Mugabe s Zimbabwe African National Union Patriotic Front The Nkomo that emerges is complex and contested the embodiment of Zimbabwe s tortured trajectory from colony to independent postcolonial state This is an essential corrective to the standard history of twentieth century Zimbabwe and an invaluable resource for scholars of African nationalist liberation movements and nation building

Zimbabwe Philip Barclay, 2011-06-20 A fascinating travelogue and political expose of the scarred country of Zimbabwe With a new postscript for the paperback edition

Daily Graphic Ransford Tetteh, 2010-03-05 **Close Elections and Political Succession in the African Union** Carl W. Dundas, 2012-03-16 This book is about the problems encountered frequently in the Member States of the African Union with the impact of close elections on political succession at the political party leadership level and at the level of head of state

and government Evidence can be seen with respect to the national elections and their aftermath in 2007 08 and in Zimbabwe elections of 2008 The book analyses the reasons why close elections have had negative impact on some States of the Union and not others A contrast in this regard was made in the book between close elections in Ghana 2008 09 and Zambia 2008 where close elections did not trigger violence with Kenya 2007 which experienced serious post election violence and Zimbabwe 2008 which witnessed widespread pre polling intimidation and violence The book also looks at the incidence of unconstitutional change of government and its impact on political succession It also considers the impact of close elections on illegal political succession and on failed States in the African Union

Quality in Higher Education as a Tool for Human Development Patience Mukwambo, 2019-04-11 Whilst many studies have explored how quality in higher education is conceptualised in the Global North less attention has been paid to quality in higher education in Africa and the Global South This book uses the human development and capabilities approach to demonstrate how quality in teaching and learning contributes to a range of benefits such as improved wellbeing economic outcomes political engagement and human capital formation amongst graduates The book interrogates the various dimensions of quality as well as factors that impact on the realisation of quality in universities and society at large Recognising that measures of quality are context and stakeholder specific the book uses the Zimbabwean context as a Global South case study It evaluates how quality is conceptualised and operationalised in Zimbabwean universities and how that impacts on teaching and learning policy and practice The book also demonstrates the need for economic resources for individuals and universities and emphasises the importance of a social and educational environment conducive to critical learning and post university opportunities This book will be of interest to researchers across Education African and Development Studies as well as to policymakers and practitioners with an interest in quality assurance and the promotion of teaching and learning in universities in the Global South

The Hard Road to Reform Brian Raftopolos, 2013-02-17 The defeat of ZANU PF in the 2008 parliamentary election marked the end of one party rule in Zimbabwe The Global Political Agreement signed later that resulted in a Government of National Unity and the former ruling party was for the first time faced with the reality of sharing power The Hard Road to Reform presents a penetrating analysis of developments since the GNU was established reviewing recent political history from a range of perspectives political economic social and historical and featuring the best work of Zimbabwe s young scholars As Brian Raftopolos writes in his introduction the book is an attempt to analyse and assess both the hopes and frustrations of the last four years and to confront the harsh challenges that lie ahead

Regime Change and Succession Politics in Africa Maurice Nyamanga Amutabi, Shadrack Wanjala Nasong'o, 2013 Bringing together scholars from a wide array of disciplines including anthropology economics history sociology and political science this volume addresses the problems of the regime change and state failure in Africa in the context of the global economy but from a specifically African perspective arguing that the underdevelopment of the African economy is linked to the underdevelopment of the continents nation states
