Elizabeth K. Kracht,2020-02-04 An Indispensable Guide for All Writers in All Genres The bad news even really good manuscripts have weak spots that are enough to garner rejections from agents and publishers The good news most of these problems are easy to fix once the writer sees and understands them After several years of evaluating manuscripts literary agent Elizabeth Kracht noticed that many submissions had similar problems so she began to make a list of the pitfalls The Author s Checklist offers her short easy to implement bites of advice illustrated by inspiring and cautionary real world examples Most aspiring authors yearn for a friend in book publishing The Author s Checklist is just that *Russian Deception* Rick Martin,2017-02-28 On that one fateful day June 7 2015 the headlines read Lufthansa Airlines flight number KB101 downed by Ukrainian separatists This time a German airliner was en route from Stockholm Sweden to Ankara Turkey That is when the Russian separatists using ground to air Russian missiles targeted her Bad boys with big Russian toys can be dangerous In this case several satellite based weather systems were tracking flight KB101 when three missile tracks from separatist held Ukraine zeroed in on her Germany started to roll tanks into Ukraine All this really pissed off the kings men running the Kremlin So somehow somewhere somebody ordered the super secret Reeba submarine to launch a warning shot across the bow of America Reeba was ordered to sneak out of her sunken hideaway near the Fort Lauderdale inlet and launch a nuclear tipped cruise missile off the coast of Washington DC and that is where my involvement began This Reeba plan was brilliant thought Ivan in 2007 Make sure they do not rediscover their balls But a little nuclear explosion in view of the White House where nobody died This was perfect This was not treason This would get those goddamn German tanks out of Ukraine So Ivan pulled the trigger on Reeba Within twenty four hours Reeba had crewed up leaving only Polina and those married couples with children They would continue to live as sleeper cells gathering intelligence Polina could drive that speedboat and detonate the nuclear device planted near the Fort Lauderdale inlet if hot war started Captain Nikolay of the Reeba was put on wartime alert This was no drill Reebas crew dropped the hull panel to release Reeba on the inland side of the tanker 600 feet below the ocean surface next to Fort Lauderdale The Virginia class sonar systems heard a wide range of electromagnetic signals in addition to the audible sound frequencies of a torpedo tube hatch opening Thus the electronics aboard Reeba suddenly came to life We had a target location already in the computer We fired two MK48 torpedoes One targeted the bubble from the missile it broke the oceans surface and exploded This explosion damaged the guidance system in the cruise missile And so as this cruise missile flew it now started going through other embedded targets all over Americaincluding Chicago New York Washington DC and Houston Texas The erratic motions of the cruise missile became world news very quickly It was not the Kremlins idea to kill American women and children with US Navy antimissile defense systems But thats what happened In fact we learned later that the missiles incoming threat detection system was to trigger

the nuke harmlessly a hundred miles off the East Coast if it was not going to reach ground zero on the Washington DC shoreline The best laid plans of mice and men can backfire when reckless leaders play with weapons of mass destruction Apparently Reeba had ten knots over our top speed and of course there was the entire Atlantic Ocean to hide in I had a target resolution on Reeba for her four thousand mile cross ocean voyage I shared my target resolution of coordinates depth speed and direction with every US Navy vessel in the Atlantic Ocean The sonar exec was caught accidentally talking to the control room They launched a fish at us It is honing in at high speed We are a sitting duck If that is an ASTOR type nuclear torpedo then all of us within ten miles will be vaporized or vibrated to death God be with us all Its time to pray Heavenly Signs II Mel Gable,2013-03 What happens when we die Do we live on in some other realm or do we return to the dust of the earth Man has searched for answers to the age old question of what will happen to him God has given us the signs in the heavens and modern technology has given us the tools to unlock the mysteries In Matthew 24 30 Christ states and then the sign of the Son of Man will appear in the sky Do you know what the sign is in the sky Explore with the author Mel Gable deep into space and learn how to look for the signs and their significance Point by point Mel Gable lays the groundwork and explains the Rapture and its timing through the movement of the constellations planets and stars in God s Grand Design The magnificent light tunnel and light cone which you see on the cover play a major role between the heavens and the earth What is it As you read the book plan to be surprised amazed and stunned by God s Grand Design for the Rapture during the End Times
