The Uncanny Reader Stories From The Shadows:

The Uncanny Reader Marjorie Sandor, 2015-02-24 From the deeply unsettling to the possibly supernatural these thirty one border crossing stories from around the world explore the uncanny in literature and delve into our increasingly unstable sense of self home and planet The Uncanny Reader Stories from the Shadows opens with The Sand man E T A Hoffmann's 1817 tale of doppelgangers and automatons a tale that inspired generations of writers and thinkers to come Stories by 19th and 20th century masters of the uncanny including Edgar Allan Poe Franz Kafka and Shirley Jackson form a foundation for sixteen award winning contemporary authors established and new whose work blurs the boundaries between the familiar and the unknown These writers come from Egypt France Germany Japan Poland Russia Scotland England Sweden the United States Uruguay and Zambia although their birthplaces are not always the terrains they plumb in their stories nor do they confine themselves to their own eras Contemporary authors include Chris Adrian Aimee Bender Kate Bernheimer Jean Christophe Duchon Doris Mansoura Ez Eldin Jonathon Carroll John Herdman Kelly Link Steven Millhauser Joyce Carol Oates Yoko Ogawa Dean Paschal Karen Russell Namwali Serpell Steve Stern and Karen Tidbeck **Uncanny Shadows: A Collection of Eerie and Unnerving Tales** Jared Stevenson, 2017-10-16 Dread of the unknown fills us with both unease and curiosity We laugh nervously at tales of haunted houses and phantoms yet something looms There is a shadow behind life that creeps through its walls and knocks and we know it is a fear of the unknown that makes each heart beat faster Life is uncanny We are equally attracted to and repulsed by what scares us The unknown will persist thanks to literature and that is where the ghosts will always live This collection presents twenty nine eerie narratives drenched in an otherworldly fog Ghosts stalk these pages and the ominous specter of Death peers out with an amused grin Separated into two parts this collection contains both ghastly stories of death and bizarre tales of the unknown These tales were all chosen for their uncanny aesthetics and their compelling narratives Marvel at the literary and haunting expertise of classic writers like Nathaniel Hawthorne Ambrose Bierce Bram Stoker and more *Queen of Spades* Michael Shou-Yung Shum, 2017-10-10 *Queen of Spades* revamps the classic Pushkin fable of the same name transplanted to a mysterious Seattle area casino populated by a pit boss with six months to live a dealer obsessing over the mysterious methods of an elderly customer known as the Countess and a recovering gambler who finds herself trapped in a cultish twelve step program With a breathtaking climax that rivals the best Hong Kong gambling movies Michael Shou Yung Shum's debut novel delivers the thrilling highs and lows that come when we cede control of our futures to the roll of the dice and the turn of a card *Clapperton* John Herdman, 2020-11-11 The absurd the grotesque Thomas Clapperton hypochondriac egomaniac Scotsman misanthrope misogynist menagerie keeper has a date His romantic rendezvous is with the girl across the road Trudy Otter Although Trudy only has an incestuous eye for her brother Rex The most dysfunctional of all beings rub against each other in the desperate search for human happiness in John Herdman's gothic miserere Clapperton Also in this volume The Devil and Dr Tuberoze

The equally unbalanced Dr Marcus Tuberoze battles legless infantry of demons until he finally confronts the devil himself embodied in the family dog of his blessed colleagues A tale of transgressive madness from the master of the Scottish Gothic John Herdman Two tales of the mania derangement and the psychopathy peculiar to the Caledonian Antisyzygy Brace yourself for hilarity ridicule and an exquisite dose of oddity ALSO IN THIS EDITION Complete Herdman Bibliography spanning six decades of creative output Perhaps in the very combination of opposites what either of the two Thomases of Norwich and Cromarty might have been willing to call the Caledonian antisyzygy we have a reflection of the contrasts which the Scot shows at every turn we need not be surprised to find that in their literature the Scots present two aspects which appear contradictory Ozymoron was ever the bravest figure and we must not forget that disorderly order is order after all G GREGORY SMITH Scottish Literature Character and Influence I was struck by Herdman's wry philosophical bent his acute sense of place and perception and anguish at the plight of the human condition But despite the pitch darkness and seriousness of his themes Herdman is an appealing writer with a clipped laconic and lugubrious wit capable of swiftly etching a scene goodness knows why John Herdman is not much better known than he is Alan Taylor The Sunday Herald Herdman's writing is a feat of great wit and invention Scotland on Sunday It is a tribute to Herdman's writing that he evokes so many writers without ever seeming to imitate them the quality of Herdman's fantastic imaginings commands respect Christopher Whyte John Herdman skilfully treads a vertiginous edge between satiric comedy and high seriousness The Scotsman

Environmental Humanities and the Uncanny Rod Giblett, 2019-04-12 Sigmund Freud's essay The Uncanny is celebrating a century since publication It is arguably his greatest and most fruitful contribution to the study of culture and the environment Environmental Humanities and the Uncanny brings into the open neglected aspects of the uncanny in this famous essay in its centenary year and in the work of those before and after him such as Friedrich Schelling Walter Benjamin E T A Hoffmann and Bram Stoker This book does so by focussing on religion especially at a time and for a world in which some sectors of the monotheisms are in aggressive and sometimes violent contention against those of other monotheisms and even against other sectors within their own monotheism The chapter on Schelling's uncanny argues that monotheisms come out of polytheism and makes the plea for polytheism central to the whole book It enables rethinking the relationships between mythology and monotheistic and polytheistic religions in a culturally and politically liberatory and progressive way Succeeding chapters consider the uncanny cyborg the uncanny and the fictional and the uncanny and the Commonwealth concluding with a chapter on Taoism as a polytheistic religion Building on the author's previous work in Environmental Humanities and Theologies in bringing together theories of religion and the environment this book will be of great interest to students and scholars of the environmental humanities ecocultural studies and religion *Perspectives on Retranslation* Özlem Berk Albachten, Şehnaz Tahir Gürçağlar, 2018-10-03 Perspectives on Retranslation Ideology Paratexts Methods explores retranslation from a variety of aspects and reflects methodological and theoretical developments in the field
