Hagakure Yamamoto Tsunetomo, 2012-05-15 A foremost scholar of samurai texts approaches this martial arts classic as a meditation on the Zen concept of death of the ego offering a fresh translation unlike any other Discover what it takes to be a samurai with the 18th century martial arts treatise that delves into minds of legendary Japanese warriors Living and dying with bravery and honor is at the heart of *Hagakure* a series of texts written by an eighteenth century samurai Yamamoto Tsunetomo It is a window into the samurai mind illuminating the concept of bushido the Way of the Warrior which dictated how samurai were expected to behave conduct themselves live and die While *Hagakure* was for many years a secret text known only to the warrior vassals of the Nabeshima clan to which the author belonged it later came to be recognized as a classic exposition of samurai thought The original *Hagakure* consists of over 1 300 short texts that Tsunetomo dictated to a younger samurai over a seven year period William Scott Wilson has selected and translated here three hundred of the most representative of those texts to create an accessible distillation of this guide for samurai No other translator has so thoroughly and eruditely rendered this text into English For this edition Wilson has added a new introduction that casts *Hagakure* in a different light than ever before Tsunetomo refers to bushido as the Way of death a description that has held a

morbid fascination for readers over the years But in Tsunetomo's time bushido was a nuanced concept that related heavily to the Zen concept of muga the death of the ego Wilson's revised introduction gives the historical and philosophical background for that more metaphorical reading of Hagakure and through this lens the classic takes on a fresh and nuanced appeal

Harris, Mahinda Deegalle, Christina A. Kilby, 2023-09-20 What guidance can Buddhism provide to those involved in armed conflict and to belligerents who must perhaps kill or be killed or defend their families communities or countries from attack How moreover does Buddhism compare with international humanitarian law IHL otherwise known as the law of armed conflict which protects non combatants and restricts the means and methods of warfare to limit the suffering it causes Despite the prevalence of armed conflict in parts of the Buddhist world few contemporary studies have addressed these questions While there is a wealth of material on Buddhist conflict prevention and resolution remarkably little attention has been paid to what Buddhism says about the actual conduct of war IHL is also still relatively little known in the Buddhist world and might not therefore influence the behaviour of belligerents who self identify as Buddhists and are perhaps more likely to be guided by Buddhist principles This ground breaking volume is part of an International Committee of the Red Cross project which seeks to fill this gap by exploring correspondences between Buddhist and IHL principles and by identifying Buddhist resources to improve compliance with IHL and equivalent Buddhist or humanitarian norms This book will be of much interest to students and researchers of International Law Buddhism Ethics as well as War and Conflict studies The chapters in this book were originally published as a special issue of Contemporary Buddhism The Open Access version of this book available at <https://www.taylorfrancis.com/books/oa-edit/10.4324/9781003439820/buddhism-international-humanitarian-law-andrew-bartles-smith-kate-crosby-peter-harvey-asanga-tilakaratne-daniel-ratheiser-noel-maurer-trew-stefania-travagnin-elizabeth-harris-mahinda-deegalle-christina-kilby> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license A version of the open access title is also available on the OAPEN platform <https://library.oapen.org/handle/20.500.12657/75921>
