Interest in International Arbitration Matthew Secomb, 2019-01-22 Interest plays a vital and increasing role in international arbitration proceedings with almost every case having an element of interest involved However until now the topic has received very little attention meaning that arbitrators have had very little concrete foundation on which to judge decisions on interest

awards This book is the first authoritative guidance to address this providing a uniform approach to the awarding of interest in international arbitration Interest in International Arbitration aligns arbitrators decisions with standard commercial practice offering a practical and logical approach to how interest should be awarded It sets out traditional approaches that arbitrators have followed in the past such as using conflict of law to apply a statutory rate from a given law or awarding instead a subjectively reasonable rate and examines how these inconsistent approaches have resulted in a variety of awards and decisions The author uses this analysis as a basis for a uniform approach to the issue granting compound interest at appropriate rates unless constrained by truly mandatory law The author sets out the calculation method explores the benefits and limitations and presents a thorough argument for the movement toward a uniform approach to interest awards **Good**

Faith in International Commercial Arbitration Georgios Martsekis,2025-05-06 This book demystifies the effectiveness of good faith in international commercial arbitration law In the growing universe of international commercial arbitration it is more pressing than ever to discuss the role of good faith and challenge residual conservative skepticism regarding its usefulness The book employs principles standards and concepts which are normatively ingrained in good faith These include the principle of pacta sunt servanda the estoppel doctrine the transnational standard of cooperation and fair dealing among merchants It also discusses the pertinence of good faith to corrective justice proportionality prohibition of discrimination and unconscionability international public policy and due process among other concepts This granular approach demonstrates how good faith is integrated into the practice of international commercial arbitration The book sheds light on the technical functions of the principle in parties substantive protection contractual interpretation and arbitral procedure with an ultimate view to reinforcing the soundness and persuasive value of arbitral decision making Throughout the book establishes a uniform and enforceable conceptualization of good faith in transnational disputes The book will be of interest to practitioners and researchers in the fields of commercial law arbitration transnational disputes and international law General Reports

range of areas it covers each topic from a comparative perspective Cet ouvrage en examinant des sujets d'une importance vitale pour les juristes contemporains traite des convergences de la doctrine juridique malgré les barrières juridictionnelles culturelles et politiques ainsi que des divergences dues à ces barrières critiquées par des universitaires de tous les continents ses 26 chapitres présentent une analyse comparative de sujets juridiques majeurs du 21^e siècle Dans un monde technologiquement avancé bien que chaque pays analysé dans cet ouvrage demeure autonome en tant qu'état souverain l'ensemble des systèmes disparates présente néanmoins des stratégies comparables pour traiter des questions juridiques complexes En outre plusieurs chapitres montrent comment en plus de la production normative et de la résolution des différends juridiques la panoplie croissante de différents types d'instruments juridiques et de résolution non juridique des différends devient de plus en plus centrale dans la sphère juridique Cet ouvrage est un ajout essentiel à la bibliothèque de tout universitaire souhaitant se tenir au courant des principales tendances du droit contemporain Il couvre un vaste domaine de sujets traités d'un point de vue comparatif et représente l'état actuel du droit dans chaque domaine

"Soft Law" in International Commercial Arbitration Felix Dasser, 2021-05-25 Soft law is a current buzzword and considered a panacea for all kinds of issues that arise in international commercial arbitration Very little research has however been done on the dogmatic underpinnings of the concept and its actual legal relevance This course follows the development of the so called soft law from its origins in public international law to commercial arbitration where it is used today as a label for various instruments and phenomena covering both procedural aspects and the applicable substantive law model laws arbitration rules guidelines the UNIDROIT Principles the lex mercatoria and others It presents three particularly well known sets of guidelines by the International Bar Association and discusses the pros and cons of soft law instruments and their potential normativity The analysis suggests that soft law instruments are typically less well recognised in practice than is generally assumed The author explains what such instruments can achieve and what minimum requirements they have to fulfil to at least aspire to some legitimacy He argues ultimately that soft law instruments can be very useful tools but they do not carry any normativity

Good Faith in International Investment Arbitration Emily Sipiorski, 2019 Written by a leading legal researcher this book offers a comprehensive study of the principle a frequently invoked but rarely analysed aspect of investment arbitration It is a thorough and expansive study that considers the application of good faith by arbitral tribunals and parties in international investment disputes encompassing both procedural and substantive aspects of good faith Expertly negotiating a complex principle this book diligently follows the arbitral process from jurisdiction through merits and to cost decisions identifying the various applications of good faith in investment disputes The author offers detailed analyses of the role of good faith in defining nationality and investor as well as in pre dispute admissibility requirements The study then delves into the ways the principle guides parties arguments and informs tribunals decisions regarding evidence substantive protections and costs It further addresses the role of good faith in the behaviour of arbitrators and other actors

This is a guide for anyone wishing to understand this important principle that has accompanied the developing system of international investment law *Revue de Droit Uniforme* ,2000 **The Law and Policy of New Eurasian**

Regionalization Anna Aseeva,Jędrzej Górski,2021-01-25 The Law and Policy of New Eurasian Regionalization Economic Integration Trade and Investment in the Post Soviet and Greater Eurasian Space edited by Anna Aseeva and J drzej G rski makes several unique contributions to the literature First and foremost most of the current literature is in either economics or politics with only a secondary focus on legal and institutional matters Secondly and consequently the book is accessible and relevant to readers both inside and outside the boundaries of the Eurasian area not only geographical boundaries but also legal geopolitical geoeconomic cultural and indeed disciplinary boundaries Drawing on international transnational and comparative legal scholarship this rich volume offers the insights by a plethora of leading international scholars in economics institutional theory area studies international relations global political economy political science and sociology The contributors come from four corners of the globe including Asia Europe and North America **CISG Methodology** André Janssen,Olaf Meyer,2009-04-27 The CISG is now being applied extensively both by international arbitral tribunals and by domestic courts of its more than 70 contracting states But do they also apply it in the same manner Although Article 7 of the CISG underscores the need to promote uniformity in its application it gives little guidance as to how to achieve this goal Each judge and arbitrator is influenced by the legal methodology of his home jurisdiction Therefore it is somewhat of a paradox that whilst the number of contracting states is constantly increasing so too is the threat of variation in application In this book the most important issues of the CISG s methodology are analysed by leading experts from five continents Whereas some authors provide a thorough analysis of the central topics of interpretation others enter almost uncharted territories
