Love and Therapy Divine Charura, Stephen Paul, 2018-03-29 Sigmund Freud noted the importance of love in the healing of

the human psyche So many of life's distresses have their origins in lack of love disruption of love or trauma People naturally seek love in their lives to feel complete Is therapy a substitute for love Or is it love by another name This important book looks at the place of love in therapy and whether it is the curative factor The authors continually stress however that within psychotherapy both ethical and professional boundaries should govern this Love at all times in order for it to be experienced as healing and therapeutic This book offers explorations of the complexity of love from different modalities psychoanalytic humanistic person centred psychosexual family and systemic transpersonal existential and transcultural The discussions challenge therapists and other allied professionals to think about their practice ethics and boundaries **The**

Practitioner's Path in Speech-Language Pathology Wendy Paper-Bernstein, 2017-11-01 The Practitioner's Path in Speech Language Pathology The Art of School Based Practice bridges the gap between theory and practice evidence based practice and practice based evidence and the science and artistry of speech language pathology This book takes a critical look at areas related to wellness professional development and growth that can impact the personal self along with the professional self It examines each area through an overview of inter disciplinary research in addition to personal narratives illustrating key principles and strategies and offers the reader a professionally balanced perspective The first section of the book helps us understand the importance of building a foundation for our clinical path through a discussion about scientific and evidence based principles different types of knowledge systems and development of wisdom The second section of the book helps us understand the importance of supporting our foundation through an introduction to reflection counsel and care balance and harmony growth and detachment The third section of the book includes chapters that serve as pillars of practice organizational frameworks materials and activities measuring progress best practices and the importance of community The fourth and final section of the book highlights shared vision clinical expertise emotional intelligence leadership trends the scholarship of teaching and learning and research dissemination This book challenges us to consider our own perceptions about the explicit nature of professional practice and facilitates the development of four attitudes that can have a profound impact on both clinical success and professional satisfaction a scientific attitude a therapeutic attitude a professional attitude and a leadership attitude It contains a blend of clinical evidence and research practitioner views common sense philosophical stances and historical overviews The Practitioner's Path in Speech Language Pathology is designed for students and practitioners who are actively involved with the process of knowledge acquisition and targets issues we encounter along our path to becoming reflective practitioners as they relate to the excellence behind and scholarship within teaching and learning

Interdisciplinary Applications of the Person-Centered Approach Jeffrey H. D. Cornelius-White, Renate Motschnig-Pitrik, Michael Lux, 2013-06-04 This book examines the scientific contribution and increasing relevance of the Person Centered Approach PCA in psychotherapy The direction taken in the book is to provide readers with a multidisciplinary and multi perspective view as well as practical applications Beyond the more conventional psychotherapy

applications client centered experimental emotion focused child centered motivational interviewing existential filial etc others have evolved including peace and conflict resolution work encounter and T groups nonviolent communication parent effectiveness training person centered planning for people with disabilities relationship enhancement methods learner centered education technology enhanced learning environments human relations leadership training etc Simultaneously scientific disciplines were influenced by this perspective in less obvious ways Hence the major contribution of this book is to identify and characterize the key bridges so far only partly recognized between the PCA and several other disciplines Based on the results of the bridge building endeavor the editors will propose an initial formulation of the PCA as a meta theory It is intended as a generic framework to solve complex social problems and to stimulate further research and development concerning the human species in relationship to its environment
