Kenneth M. Wells,2015-06-29 This outline of Korea s civilisation is a cultural history that examines the ways the Korean people over the past two millennia understood the world and viewed their place in society In the traditional era the interaction between several broad religious and philosophical traditions and social institutions state interests and at times external pressures provides the framework of the story In the modern era the chief concern is with the rapid and momentous cultural changes that have occurred over the past one and a half centuries in the idea and spread of education the rise in influence of students the development of mass culture the redefinition of gender and the continuing importance of religion
