Parody in the Age of Remix Ragnhild Brøvig, 2023-06-27 The art of mashup music its roots in parody and its social and legal implications Parody needn't recognize copyright but does an algorithm recognize parody The ever increasing popularity of remix culture and mashup music where parody is invariably at play presents a conundrum for internet platforms with their extensive automatic algorithmic policing of content Taking a wide ranging look at mashup music the creative and technical considerations that go into making it the experience of play humor enlightenment and beauty it affords and the social and legal issues it presents Parody in the Age of Remix offers a pointed critique of how society balances the act of regulating art with the act of preserving it In several jurisdictions national and international parody is exempted from copyright laws Ragnhild Brøvig contends that mashups should be understood as a form of parody and thus be protected from removal from hosting platforms Nonetheless current copyright related content moderation regimes relying on algorithmic detection and automated decision making frequently eliminate what might otherwise be deemed gray area content to the detriment of human listeners and especially artists Given the inaccuracy of takedowns Parody in the Age of Remix makes a persuasive argument in favor of greater protection for remix creativity in the future but it also suggests that the content moderation challenges facing mashup producers and other remixers are symptomatic of larger societal issues
