Organizational Learning from Performance Feedback Henrich R. Greve, 2003-06-26 Revisiting Cyert and March s classic 1963 Behavioral Theory of the Firm Henrich Greve offers an intriguing analysis of how firms evolve in response to feedback about their own performance Based on ideas from organizational theory social psychology and economics he explains how managers set goals evaluate performance and determine strategic changes Drawing on a range of studies including the author s own analysis of the Japanese shipbuilding industry he reports on how theory fits evidence on organizational change of risk taking research and development expenses innovativeness investment in assets and in market strategy The findings suggest that high performing organizations quickly reduce their rates of change but low performing organizations only slowly increase those rates Analysis of performance feedback is an important direction for research and this book provides valuable insights in how organizational learning interacts with other influences on

organizational behaviour such as competitive rivalry and institutional influences
