Travel and Wonder in the Early Modern World Jaska Kainulainen, 2025-08-18 This collection of chapters explores wonder in the context of early modern travel and travel writing offering multifaceted and novel interpretations of the problematic relationship between a traveller and their unfamiliar environment through various geographical chronological and thematic lenses Exploring representations descriptions and uses of the unfamiliar the contributors discuss and elucidate rhetorical epistemological religious colonial materialistic and emotional aspects of wonder in the early modern world They study European travellers and their texts as well as descriptions of wonder within the Muslim world and reactions to the unfamiliar reported by Muslim travellers in Europe The collection ranges from travellers descriptions of wonder to an analysis of wonders that have travelled With its focus on wonder in the context of early modern travel this volume fills a significant gap in research shedding new light on the history of intercultural encounters and on the processes of learning about the world and our place in it The book is aimed at both academic and non academic readers for experts who study early modern history and travel writing and for lay readers who are curious about the history of travel and about past conceptions of the world and foreign cultures

Rhetoric and Wonder in English Travel Writing, 1560-1613 Jonathan P.A. Sell, 2020-07-24 *Rhetoric and Wonder in English Travel Writing 1560-1613* shows how rhetorical invention elocution and ethos combined to create plausible representations by generating intellectual and emotional significances which meaningful in consensual terms were consensually true However some traveller writers betrayed an unease with such representation rooted as it was in a metaphorical epistemology out of kilter with an increasingly empiricist age This book throws new light onto the episteme shift that ushered in modernity with its distrust of metaphor in particular

and rhetoric's wordish descriptions in general. In response to the empirical desiderata of scientific rationalism, traveller writers textually or physically made their own bodies available as evidence of their encounters with wonder, thus transforming themselves into wonderful objects. The irony is that far from dispensing with rhetoric, they merely put the accent on its more dramatic arts of gesture and action. The body's evidence could still be doctored, but its illusory truths were better able to satisfy the empirical demand for ocular proof. The author's main purposes here are to complement and sometimes counter recent work on early modern travel literature by concentrating on its use of rhetoric to communicate meaning and to suggest how familiarity with the workings of rhetoric and its communicative and epistemological premises may enhance readings of early modern English literature generally.

Butcher's Road Lee Thomas, 2014. 1932. Fortune and celebrity are years behind Butch Cardinal. Once a world-class wrestler, Cardinal now serves as hired muscle for a second-rate Chicago mobster. While collecting a parcel from a gangland lowlife, Cardinal witnesses the man's murder. Though wounded, he escapes the killers and flees into the night carrying the package. In it is a necklace with a metal pendant bent and scratched; the thing looks like a piece of junk, but the trinket is the reason a man died. It's the reason a lot of people will die. Finding shelter with another shamed wrestler in New Orleans, Cardinal embarks on a search for answers that will reveal a world of metallic charms and weapons, all forged with unimaginable powers. Alone and outgunned, Cardinal must stand against the Chicago mobs, a brilliant and insane hitman, the police, and a mysterious order intent on retrieving their relic.

A Study in Starlets Gini Koch, 2015-09-11. Sherlock Holmes and her new partner Dr. John Watson are settling in as roommates and consulting detectives in their new home in Los Angeles when notorious reality starlet Irene Adler comes to call, asking for their help solving an extraordinary and embarrassing theft. As a thoroughly smitten Watson closes the door on Adler's back, TV producers Joey Jackson and Tony Antonelli call on the pair. Their partner Cliff Camden has disappeared without a trace on the eve of filming for the new show; rumour has it he's taken off with their money. The LAPD aren't interested, and Watson has nothing but contempt for the three, but Holmes takes the case. As they pick their way amongst the grumbling crew, the neurotic actors, and the low-level sleaze that permeates the city, it starts to become clear the two cases are connected when a murder turns everything on its head.

A Study in Starlets is the second of three new novellas following on from the stories in **Two Hundred and Twenty-One Baker Streets**. Includes the story **All the Single Ladies**.

The Power of Media Glen Mehn, 2016-04-01. 1968. A time of change: the Black Panthers, the Stonewall riots, student protests, women's liberation. Newly famous Sherlock Holmes, the detective over the bakery on Avenue B, is much in demand. Amid the steady stream of cases, Holmes becomes caught up in a string of seemingly innocuous stories. His landlady, the hardworking baker Mrs. Hendrix, is worried that her nephew has fallen in with a bad crowd. Madame Ondine, a notorious drag queen from Andy Warhol's Factory, has apparently quit drugs and cleaned up his act. Dr. Bill, a mathematician and physicist, thinks his academic rivals are somehow stealing his notes. The New Left is a turbulent, passionate, occasionally dangerous place at the best of times, but
