Crime in Progress Glenn Simpson, Peter Fritsch, 2019-11-26 1 NEW YORK TIMES BESTSELLER I've read kind of all the books on this subject and this is the one you want to read Rachel Maddow Before Ukraine before impeachment This is the never before told inside story of the high stakes four year long investigation into Donald Trump's Russia ties culminating in the Steele dossier and sparking the Mueller report from the founders of political opposition research company Fusion GPS Fusion GPS was founded in 2010 by Glenn Simpson and Peter Fritsch two former reporters at The Wall Street Journal who decided to abandon the struggling news business and use their reporting skills to conduct open source investigations for businesses and law firms and opposition research for political candidates In the fall of 2015 they were hired to look into the finances of Donald Trump What began as a march through a mind boggling trove of lawsuits bankruptcies and sketchy overseas projects soon took a darker turn The deeper Fusion dug the more it began to notice names that Simpson and Fritsch had come across during their days covering

Russian corruption and the clearer it became that the focus of Fusion's research going forward would be Trump's entanglements with Russia. To help them make sense of what they were seeing, Simpson and Fritsch engaged the services of a former British intelligence agent and Russia expert named Christopher Steele. He would produce a series of memos which collectively became known as the Steele dossier that raised deeply alarming questions about the nature of Trump's ties to a hostile foreign power. Those memos made their way to U.S. intelligence agencies and then to President Barack Obama and President-elect Trump. On January 10, 2017, the Steele dossier broke into public view and the Trump Russia story reached escape velocity. At the time, Fusion GPS was just a ten-person consulting firm tucked away above a Starbucks near Dupont Circle, but it would soon be thrust into the center of the biggest news story on the planet, a story that would lead to accusations of witch hunts, a relentless campaign of persecution by congressional Republicans, bizarre conspiracy theories, lawsuits by Russian oligarchs, and the Mueller report. In *Crime in Progress*, Simpson and Fritsch tell their story for the first time, a tale of the high-stakes pursuit of one of the biggest, most important stories of our time, no matter the costs.

What We Mean by the American Dream Doron Taussig, 2021-04-15 Doron Taussig invites us to question the American Dream. Did you earn what you have? Did everyone else? The American Dream is built on the idea that Americans end up roughly where we deserve to be in our working lives based on our efforts and abilities. In other words, the United States is supposed to be a meritocracy. When Americans think and talk about our lives, we grapple with this idea, asking how a person got to where he or she is and whether he or she earned it. In *What We Mean by the American Dream*, Taussig tries to find out how we answer those questions. Weaving together interviews with Americans from many walks of life, as well as stories told in the U.S. media about prominent figures from politics, sports, and business, *What We Mean by the American Dream* investigates how we think about whether an individual deserves an opportunity, job termination, paycheck, or fortune. Taussig looks into the fabric of American life to explore how various people, including dairy farmers, police officers, dancers, teachers, computer technicians, students, store clerks, the unemployed, homemakers, and even drug dealers, got to where they are today and whether they earned it or not. Taussig's frank assessment of the state of the U.S. workforce and its dreams allows him to truly and meaningfully ask the question that underpins so many of our political debates and personal frustrations: Did you earn it? By doing so, he sheds new light on what we mean by and how we can deliver on the American Dream of today.
