Kim Trevathan

The Ultimate Canoe Challenge 28 000 Miles Through North America:

The Ultimate Canoe Challenge Brand Frenz, Verlen Kruger, 2004-12 Verlen Kruger and his partner Steve Landick wanted to take a canoe trip that would surpass all others and they did Paddling their canoes or carrying them on the connecting land passages they toured North America from the Arctic Ocean to Baja California from New Orleans to the coast of Maine crossing the USA from south to north and west to east They mastered wild storms on the ocean often paddled 75 100 miles or more in a day shot through deadly rapids going downstream and paddled up several major rivers reaching the climax by going up the Grand Canyon Again and again they were warned It can t be done or You ll never make it but each time they rose to the challenge and kept going finally completing a canoe trip of 28 000 miles that lasted three and a half years and was appropriately named The Ultimate Canoe Challenge This is the story as Verlen lived it *Sea Kayaking* Philip

Woodhouse, 2013-12-16 In *Sea Kayaking* comprehensive guide for those who travel the open waters in the Southern Hemisphere Philip Woodhouse Australian paddler and Royal Australian Air Force veteran shares his years of experience technical training and military teaching skills What began as a personal reference was soon developed as a training manual recommended by the Victorian Sea Kayak Club to its members and East Coast Kayaking to their patrons and Australian Canoeing students *Sea Kayaking* covers boat design kit requirements paddling skills health and well being meteorology the ocean environment navigation communications conservation and minimal impact camping conservation seamanship electrical bilge pumps solar panels light sources boat repairs leadership risk management basic safety and survival strategies as well as a brief overview about the history and various types of canoeing There is also a comprehensive glossary to assist the reader in understanding the terms and concepts discussed in the main text Woodhouse's work differs from most manuals about sea kayaking in that it is written from the perspective of someone who paddles the Southern Hemisphere As such the major differences between the two hemispheres weather patterns navigation laws and terminology are discussed as well as compared to their Northern Hemisphere counterparts In the end paddling skills are paddling skills hypothermia is hypothermia and twenty five knot winds are twenty five knot winds A three metre tidal range can still produce a long haul across mud flats when the tide is out and landing through two metre surf is still scary though a lot of fun no matter where you paddle

Against the Current Kim Trevathan, 2023-08-18 In August 1998 Kim Trevathan summoned his beloved 45 pound German shepherd mix Jasper and paddled a canoe down the Tennessee River an adventure chronicled in *Paddling the Tennessee River A Voyage on Easy Water* Twenty years later in *Against the Current Paddling Upstream on the Tennessee River* he invites readers on a voyage of light hearted rumination about time memory and change as he paddles the same river in the same boat but this time going upstream starting out in early spring instead of late summer In sparkling prose Trevathan describes the life of the river before and after the dams the sometimes daunting condition of its environment its banks host of evolving communities and also the joys and follies of having a new puppy 65 pound Maggie for a shipmate

Trevathan discusses the Tennessee River's varied contributions to the cultures that hug its waterway. Kentuckians refer to it as a lake but Tennesseans call it a river and the writer's intimate style proves a perfect lens for the passageway from Kentucky to Tennessee to Alabama and back to Tennessee. In choice observations and chance encounters along the route, Trevathan uncovers meaningful differences among the Tennessee Valley's people and not a few differences in himself now an older wiser adventurer. Whether he is struggling to calm his land-loving companion confronting his body's newfound aches and pains craving a hard to find cheeseburger or scouting for a safe place to camp for the night, Trevathan perseveres in his quest to reacquaint himself with the river and to discover new things about it. And owing to his masterful sense of detail, cadence and narrative craft, Trevathan keeps the reader at the heart of the journey. The Tennessee River is a remarkable landmark and this text exhibits its past and present qualities with a perspective only Trevathan can provide.
