universe or our subjective experience of it In this investigation into consciousness the universe and the nature of reality Richard Grossinger offers a wide ranging foundation for reimagining the universe as based in consciousness rather than matter He presents in depth analysis of the standard scientific description of the universe revealing the holes in its theories Exploring the interpenetration of matter and all reality by consciousness the author looks at reincarnation and past life memories examining famous and lesser known but verifiable accounts He then explores the nature and origin of consciousness with accompanying explorations of animal consciousness the brain as a computer multiple identities thoughtforms soul pictures and paranormal phenomena like UFOs faeries and poltergeists He also examines concepts from physics that combine elements of both consciousness and matter such as collapsing waveforms and the uncertainty principle of quantum mechanics Examining nonlocal and transpersonal modes of consciousness Grossinger looks at the difference between consciousness and personal identity He expands this discussion with reflections on Sethian cosmology using Seth s own words and Jane Roberts s and John Friedlander s interpretations He reveals that consciousness also encompasses what has yet to manifest and explains why the universe exists at all why there is something rather than nothing Skewering the materialist paradigm and placing consciousness alongside mass gravity and heat as an essential component of the universe Grossinger proposes that reality is a thoughtform where sentient beings collaborate to bring about a concrete realm vibrating at their own frequency

Hypnosis, Channeling and Raising Consciousness Peter Dennis,2019-04-15 Peter Dennis is a hypnotist and has done many past life regressions with his clients A few years ago some of Peter s clients while visiting past lives started reporting lives on other planets This prompted Peter to pursue this further and in so doing a number of clients began to channel After five women began Channeling Peter wrote this book detailing some of the concerns inhibitions and fears that these women

dealt with as they pursued this adventure After discovering that hypnosis could be a very effective route to Channeling Peter's hypnosis practice is now mainly focused on helping people to become Channelers Peter is not a Channeler but is referred to as a Channeling Facilitator as he helps people to make a Channeling connection strengthen that connection and if the client wishes take that talent to the public More about this can be seen on Peter's website at peterhdennis.com Channeling takes many forms When we get ideas or inspirations chances are that we are Channeling Intuitive flashes can be Channeling Authors songwriters composers inspired speakers all have moments of Channeling This book is not about these more subtle forms of Channeling but rather it's about what might be called Conscious Channeling or Overt Channeling and sometimes Trance Channeling What then is Channeling As you may know our scientists have been telling us that everything at the sub atomic level is composed of a vibrating energy and that everything and everyone has his/her its own unique rate of vibration So for Channeling to work the Channeler has to raise his or her vibration and the sender has to lower its vibration so that a match can be made and a connection established Once that connection is established the sender sends a message telepathically and the receiver or Channeler uses his or her brain voice box vocal cords and perhaps some other things to receive and vocalize that information Like a lot of things in our lives these days we don't have to fully understand how something works to benefit from using it and Channeling is much the same We don't have to understand the Physics of Channeling in order to figure out if the content of the channeled messages works for us or not This book is also an introduction to Spirituality and it offers many messages and explains many metaphysical concepts It is the Author's hope that you will find that these messages expand your thinking raise a number of new questions and bring you more peace

Watkins, 2006-04-20 In 1963 Jane Roberts met a man called Seth What made this liaison noteworthy was that he spoke through her and the lessons he taught proved timeless and crucial In this book Sue Watkins demonstrates how Roberts' ESP classes helped channel the knowledge gained from Seth as well as detailing how it enriched their lives ***Healing Myths, Healing Magic*** Donald M. Epstein, 2011-07-08 The myths we accept without question have a powerful magically suggestive effect on the way we interpret our symptoms the way we heal and the quality of life we experience In this breakthrough book Dr Epstein contends that unless we question the myths that control our lives we will continue to make the same healing choices we have been conditioned to make even if those choices are killing us Epstein examines the deeply ingrained stories or myths we commonly hold about how our bodies heal myths that can actually inhibit healing The healing myths are divided into four categories Social Biomedical Religious and New Age He exposes each myth individually then suggests an alternative statement or Healing Magic to help us reclaim our body's natural ability to heal ***The Dynamics of Gender and Life*** Stephen Pirie, 2023-03-03 The central concept within the ebook *The Dynamics of Gender and Life* is the universe as a self-organizing system SOS wherein everything and everyone is engaged in an ongoing dynamic cyclical interactive dance between unity and individuality feminine and masculine wave and particle togetherness and separateness Yin and Yang possibility and actuality The exploration of this interactive possibility actuality feminine masculine dance yields valuable and useful insights into creativity identity politics personality structure belief systems intuition gender spirituality neuroplasticity peak states health well-being and more Some reviews I liked Stephen's generalized summaries of what it all meant as I went along e.g. We and each part within creation are an active pivot point a doorway an active creative portal through which the creative potential and power of the quantum vacuum the implicate order the ground of being flows and creates We are the delivery vehicles and directors of where and how that energy is congealed into actuality Beautifully expressed These occasional boosts in his explication keep the reader in touch with the overall context of what he is saying and sustains an emotional connection with the content All in all a wonderful piece of work which I earnestly hope will reach a vast multitude of readers Professor

Emeritus Frank Juszczuk Western New Mexico University More reviews at <https://beliefinstitute.com/reviews> *Psychic Psychology* John Friedlander, Gloria Hemsher, 2011-08-09 Two of America's most experienced and respected psychic teachers present their system of the subtle energy of interpersonal relationships in a book that will appeal to anyone wishing to understand and improve their relationships within their families, partnerships, workplaces and wider communities. This useful guide from two of America's preeminent psychics is unique in its focus on individual psychology and interpersonal relationships. It begins with simple meditations during which practitioners learn how to recognize their own psychic energy and also determine if that energy is constrained. *Psychic Psychology* shows how to free energy through such tools as grounding, clearing psychic enmeshment and finding the space from which to respond most openly, resourcefully and generously to life. An entire chapter is devoted to exploring the specific energies men and women have based on their biological differences and helping them to deal with their own energy and that of the other sex. Friedlander and Hemsher present the everyday usefulness of clairvoyant skills within a big picture where they explain that we create our reality but do not control it and that the personality like the soul is eternal and always growing.
