Who Cares? Oliver Morgan, 1998 We are born into it it is there throughout our lives and we die in its care As the National Health Service passes its fiftieth birthday there is a growing fear that the foundations on which it was established are crumbling This book looks behind the headlines and explains in a simple straightforward way what has happened to our NHS and what future waits in store The most recent NHS reforms the internal market will be replaced But by what Can the system be made more accountable How can the balance of knowledge be shifted towards the patient Is the NHS underfunded Should some elements of NHS activity be charged to patients Will the British public agree on what is an illness Can this lead to rational rationing Can the relationship between public and private sectors be made to work The time for a fundamental debate on the future of the health system has come It is a debate of great importance and one we must face now before it is too late In this extensively researched work author and journalist Oliver Morgan traces the development of the NHS assesses its current state of health and opens the debate on its future Holding Back the Years Diana Leat, Perri 6, 1997 **The Politics of Health Policy Reform in the UK** Calum Paton, 2016-09-21 This book explains the politics of thirty years of market reform in the English NHS with the rest of the UK a counterfactual Paton shows how each subsequent reform has been shaped by the confusion left by the previous reform The long term ideology has been anti statist but policy making at each stage of reform has been driven by short term politics The outcome in England has been ever increasing complexity in

the NHS with significantly increased management costs and no commensurate benefit Learning from the NHS Internal Market Julian Le Grand, Nicholas Mays, Jo-Ann Mulligan, 1998 The 1990 NHS and Community Care Act was the most radical upheaval of the NHS since its foundation and attracted world wide attention A comprehensive review of the evidence is offered to assess the impact of the NHS reforms on health authority purchasing local commissioning GP fundholding total purchasing and NHS trusts NT Learning Curve ,1999 *Primary Care and Social Services* Kirstein

Rummery, 2023-05-31 Health policy emphasises the role of primary and community based services in achieving strategic change throughout the NHS However despite lead roles assigned to social service departments and residential and nursing home care services difficulties remain in achieving closer working relationships This book is a concise guide to the new initiatives in this area including models and practical examples It covers the recent developments encouraging partnerships between health and social care services and is essential reading for all those involved in primary care and the social services especially those with an interest in the care of older people The National Primary Care Research and Development Centre series provides policy makers commissioners managers primary care professionals and user organisations with up to date multi disciplinary research on important issues that inform future decision making for primary care development

Smith,2000 There has been an international move towards the creation of explicit markets in health care in which the purchase of care is separated from provision While the creation of such markets has undeniably led to improvements in certain aspects of health care it has also raised important issues that have yet to be resolved for example is an escalation of management costs an inevitable consequence of the introduction of a market in health care What sort of information is needed to make the market function efficiently Can a market based system be compatible with society s objectives relating to equity and solidarity The UK government is introducing reforms to the internal health care market in the UK National Health Service which seek to address concerns such as these and this book comprises a series of commentaries on their plans from a group of leading health economists Authors examine the contribution of economics to the debate on the reforms while seeking to make the analysis accessible to a general audience *Reforming Markets in Health Care* is recommended reading for students and researchers of health policy and health economics as well as health professionals and policy makers at all levels in the health services **BOOK JACKET Title** Summary field provided by Blackwell North America Inc All Rights Reserved Managing Health Nancy M.
