*The Simmelian Legacy* Olli Pyyhtinen, 2017-09-20 While Georg Simmel is widely known the impact of his work has been far from straightforward with the ways in which his ideas have been taken up by later thinkers as complex and diverse as the ideas themselves The Simmelian Legacy is a comprehensive study of the work of this influential sociologist and philosopher and its reception in the Anglophone German and French intellectual worlds By returning to Simmel and his legacy this text gives voice to a corpus of vast significance and great potential that has lived too much in the shadows It examines how his relational mode of thought transforms the landscape of sociological problems to subvert conventional

conceptions of Simmel's oeuvre as well as of sociology's history. It not only rediscovers key dimensions of Simmel's thought but also explores its gradual and uneven re-emergence within subsequent scholarship. This is an engaging and lucid intellectually illuminating and thoroughly accessible overview of the thought of one of sociology's key thinkers that will be essential reading for both scholars and students of sociology and social theory.

**Economy of Identities in Traditional Chinese Theatre** Ágota Révész, 2024-11-18. The book is intended to become a useful reference for theatre people who need China knowledge. Its central questions are: how is traditional Chinese theatre (Chinese opera, i.e. xiqu) embedded in contemporary Chinese society? What identities are created through theatre? And most importantly, how are these identities related to one another to form a complex economy of identities? An insight is offered into the traditional Chinese theatre system composed of over three hundred theatre types vying for recognition in a complex relational network. Understanding how this relationality works might also shed light on the functioning of other fields in the current socio-cultural complex of China.

**Restorative and Responsive Human Services** Gale Burford, John Braithwaite, Valerie Braithwaite, 2019-03-04. In *Restorative and Responsive Human Services*, Gale Burford, John Braithwaite, and Valerie Braithwaite bring together a distinguished collection providing rich lessons on how regulation in human services can proceed in empowering ways that heal and are respectful of human relationships and legal obligations. The human services are in trouble: combining restorative justice with responsive regulation might redeem them, renewing their well-intended principles. Families provide glue that connects complex systems. What are the challenges in scaling up relational practices that put families and primary groups at the core of health, education, and other social services? This collection has a distinctive focus on the relational complexity of restorative practices. How do they enable more responsive ways of grappling with complexity than hierarchical and prescriptive human services? Lessons from responsive business regulation inform a re-imagining of the human services to advance wellbeing and reduce domination. Readers are challenged to re-examine the perverse incentives and contradictions buried in policies and practices. How do they undermine the capacities of families and communities to solve problems on their own terms? This book will interest those who harbor concerns about the creep of domination into the lives of vulnerable citizens. It will help policymakers and researchers to re-focus human services to fundamental outcomes at the foundation of sustainable democracies. This book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com). ***Criminology as a Moral Science*** Anthony E. Bottoms, Jonathan Jacobs, 2023-09-07. This book proposes an explicit recognition of criminology as a moral science: a philosophically textured appreciation of the presence and role of values in people's reasoning and motivation set within an empirically rigorous social scientific account. This endeavour requires input from both criminologists and philosophers and careful dialogue between them. *Criminology as a Moral Science* provides such a dialogue, not least about the so-called fact-value distinction but also about substantive topics such as guilt and shame. The

book also provides philosophically informed accounts of morality in practice in several criminological contexts these include whistleblowing practices within a police service the dilemmas of mothers about who and what to tell about a partner's imprisonment and how persistent offenders begin to try to turn their lives around to desist from crime The issues raised go to the heart of some currently pressing topics within criminology notably the development of evidence based practice which requires some kind of stable bridge to be built between research evidence facts and proposals for policy evaluative recommendations
