Towing Icebergs Falling Dominos And Other Adventures In Applied Mathematics:

Towing Icebergs, Falling Dominoes, and Other Adventures in Applied Mathematics Robert Banks, 1998 Although we seldom think of it our lives are played out in a world of numbers Such common activities as throwing baseballs skipping rope growing flowers playing football measuring savings accounts and many others are inherently mathematical So are more speculative problems that are simply fun to ponder in themselves such as the best way to score Olympic events Here Robert Banks presents a wide range of musings both practical and entertaining that have intrigued him and others How tall can one grow Why do we get stuck in traffic Which football player would have a better chance of breaking away a small speedy wide receiver or a huge slow linebacker Can California water shortages be alleviated by towing icebergs from Antarctica What is the fastest the 100 meter dash will ever be run The book's twenty four concise chapters each centered on a real world phenomenon are presented in an informal and engaging manner Banks shows how math and simple reasoning together may produce elegant models that explain everything from the federal debt to the proper technique for ski jumping This book which requires of its readers only a basic understanding of high school or college math is for anyone fascinated by the workings of mathematics in our everyday lives as well as its applications to what may be imagined All will be rewarded with a myriad of interesting problems and the know how to solve them

Towing Icebergs, Falling Dominoes, and Other Adventures in Applied Mathematics Robert B. Banks, 2013-04-08 An engineering professor reveals how math and reasoning apply in the real world with a fascinating collection of problems and puzzles Library Journal A Choice Outstanding Academic Title of the Year Although we seldom think of it our lives are played out in a world of numbers Such common activities as throwing baseballs skipping rope growing flowers playing football measuring savings accounts and many others are inherently mathematical So are more speculative problems that are simply fun to ponder in themselves such as the best way to score Olympic events Here Robert Banks presents a wide range of musings both practical and entertaining that have intrigued him and others How tall can one grow Why do we get stuck in traffic Which football player would have a better chance of breaking away a small speedy wide receiver or a huge slow linebacker Can California water shortages be alleviated by towing icebergs from Antarctica What is the fastest the 100 meter dash will ever be run The book's twenty four concise chapters each centered on a real world phenomenon show how math and simple reasoning together may produce elegant models that explain everything from the federal debt to the proper technique for ski jumping Engaging New Scientist Infused with infectious enthusiasm Publishers Weekly Note Some images inside the book are unavailable due to digital copyright restrictions

Geometry Harold R. Jacobs, 2003-03-14 Harold Jacobs's Geometry created a revolution in the approach to teaching this subject one that gave rise to many ideas now seen in the NCTM Standards Since its publication nearly one million students have used this legendary text Suitable for either classroom use or self paced study it uses innovative discussions cartoons anecdotes examples and exercises that unfailingly capture and hold student interest This edition is the

Jacobs for a new generation It has all the features that have kept the text in class by itself for nearly 3 decades all in a thoroughly revised full color presentation that shows today s students how fun geometry can be The text remains proof based although the presentation is in the less formal paragraph format The approach focuses on guided discovery to help students develop geometric intuition Cumulated Index to the Books ,1999 **Towing Icebergs,Falling Dominoes** Robert B Banks,2001
