PACKAGE CONTENTS

- Floodlight
- Bulb
- Wire connectors

INSTALLATION INSTRUCTIONS

Estimated Installation Time: 30 minutes

Items needed for installation (not included):

- Phillips and flathead screwdrivers
- Pliers
- Safety glasses
- Ladder
- Wire strippers/cutters
- Silicone caulk
- Black tape

READ ALL INSTRUCTIONS CAREFULLY BEFORE BEGINNING INSTALLATION.

NOTE: All wiring must be run in accordance with the National Electrical Code (Canadian Electrical Code in Canada) through conduit or another acceptable means. Contact a qualified electrician if there is any question as to the suitability of the system.

Lamp in Fixture Contains Mercury. Dispose According to Local, State, or Federal Laws.

⚠ WARNING: Turn power off at the circuit breaker or fuse.

1. Install light fixture to an approved outdoor weatherproof junction box cover plate (not included).

2. Connect the fixture wires to the junction box wires (black to black, white to white, and the fixture ground wire to the junction box ground wire). Secure with the wire connectors provided.
3. Secure the cover plate (not included) to the outdoor weatherproof junction box (not included) with two screws (not included).
4. Apply weatherproof silicone caulking around cover plate to provide a watertight seal.
5. Adjust the fixture to aim in the general direction desired. If possible, turn the light fixture so the photocontrol* does not point at another light or reflective surface near the fixture.
6. When you have the floodlight aimed where you want it, tighten the lock nut on the mounting arm and the locking screw at the fixture joint.
7. Release the clasp that holds the lens closed.
Model 5675 - Install **ONLY** a 100 watt mercury vapor type H38 bulb (provided).
Model 5677 - Install **ONLY** a 70 watt high pressure sodium type S62 bulb (provided).
8. Close the lens and lock it shut with the clasp.

TESTING

To test operation during daylight, cover the photo control with black tape. Turn on the power. The light will take up to ten minutes to reach full brightness. Remove the tape from the photo control and your unit will operate automatically—on at dusk, off at dawn.

In Case of Difficulty

If your floodlight does not turn on automatically or cycles on and off, it could be affected by other nearby lights or is seeing its own light. In either case, loosen the plastic nut that secures the photocontrol. Slide the metal reflector under the nut so that the reflector causes the photocontrol to look away from nearby lights or reflective surfaces and retighten the plastic nut.

⚠ WARNING - Risk of fire. Do not aim the bulbs at a combustible surface within 3 ft. (1 m).
