King, 2014-03-03 This exuberant guide is special among the many books on relationships because of Serge King's seasoned perspective as a master Huna shaman and alternative healer The problem between two people is never a relationship that isn't working he says It is always that one or both of them don't know how to relate in a better way The real problem is behavioral and it's easier to change behavior than to change an abstraction called a relationship King teaches the best methods for creating healthier relationships of all kinds with family members friends lovers and spouses and the rest of the world as well as with our own body mind and spirit In a warm conversational style he shows us how to shift our behavior using holistic techniques based on his shamanistic understanding of consciousness He also gives the antidotes for specific relationship problems caused by such feelings as fear anger and alienation Many people spend their entire lives seeking to know the rules of the universe he says so I've decided to save them a lot of time by giving them out now for free The better we understand these rules the easier it will be for us to grow to heal and to have a good time **Routledge Handbook of**

Tauber,2015-08-27 For much of our history legal scholars focused predominantly on the law s implications for human beings while ignoring how the law influences animal welfare Since the 1970s however there has been a steep increase in animal advocates use of the courts Animal law has blossomed into a vibrant academic discipline with a rich literature that examines how the law affects animal welfare and the ability of humans to advocate on behalf of nonhuman animals But most animal law literature tends to be doctrinally based or normative There has been little empirical study of the outcomes of animal law cases and there has been very little attention paid to the political influences of these outcomes This book fills the gap in animal law literature This is the first empirically based analysis of animal law that emphasizes the political forces that shape animal law outcomes Children's Books in Print ,1980 **Parliamentary Debates (Hansard).** Great Britain.
