The Rhetoric of Credit Ceri Sullivan, 2002 Recent influential work on Jacobean city comedies by Jean Christophe Agnew and Douglas Bruster in particular is confined to the well worn topics of urban alienation and the avaricious merchant drawing on 1550s sermons and tracts against usury In this model where social credit is deemed to circulate without limit the city comedy's specific reference to contemporary ideas of trade cash and credit is lost The plays are reduced to moral satires against greed humoural comedies of the hollow self or self referencing literary artifacts which create and interact with a coterie audience Aging rants against avarice might account for earlier interludes which mock usurers and misers but not for the slick formal pleasures of the city comedy bringing together gull courtesan prodigal gallant virgin daughter and jealous citizen father or husband

Surviving the Future David Fleming, Shaun Chamberlin, 2016-08-04 *Surviving the Future* is a story drawn from the fertile ground of the late David Fleming's extraordinary *Lean Logic: A Dictionary for the Future* and *How to Survive It*. That hardback consists of four hundred and four interlinked dictionary entries inviting readers to choose their own path through its radical vision. Recognizing that *Lean Logic*'s sheer size and unusual structure can be daunting, Fleming's long time collaborator Shaun Chamberlin has selected and edited one of these potential narratives to create *Surviving the Future*. The content, rare insights and uniquely enjoyable writing style remain Fleming's but are presented here at a more accessible paperback length and in conventional read it front to back format. The subtitle *Culture, Carnival and Capital in the Aftermath of the Market Economy* hints at Fleming's vision. He believed that the market economy will not survive its inherent flaws beyond the early decades of this century and that its failure will bring great challenges but he did not dwell on this. We know what we need to do. We need to build the sequel to draw on inspiration which has lain dormant like the seed beneath the snow. *Surviving the Future* lays out a compelling and powerfully different new economics for a post growth world. One that relies not on taut competitiveness and eternally increasing productivity putting the grim into reality but on the play, humor, conversation and reciprocal obligations of a rich culture. Building on a remarkable breadth of intellectual and cultural heritage from Keynes to Kumar, Homer to Huxley, Mumford to MacIntyre, Scruton to Shiva, Shakespeare to Schumacher, Fleming describes a world in which, as he says, there will be time for music. This is the world that many of us want to live in yet we are told it is idealistic and unrealistic. With an evident mastery of both economic theory and historical precedent, Fleming shows that it is not only desirable but actually the only system with a realistic claim to longevity. With friendliness, humor and charm, *Surviving the Future* plucks this vision out of our daydreams and shows us how to make it real. Step into the world of David Fleming; you'll be so glad you did.
