The Soul In Love Classic Poems Of Ecstasy And Exaltation:

The Soul in Love Deepak Chopra, M.D.,2007-12-18 No love is more consuming and passionate than that one has for God And nothing is more beautiful than that love when it is expressed as poetry In *The Soul in Love* Deepak Chopra presents us with five great writers whose lives span seven centuries Rumi the sublime Persian poet who sang out his verses in ecstatic longing for God Mirabai an Indian princess who walked away from her life of privilege to be closer to her Dark Lord Kabir born to a lowly family of weavers in India only to rise to the heights of wisdom and song Hafiz an Islamic master who reveled in the joys of the flesh as a way to the soul And Tagore the celebrated modern Indian writer who first made the West aware of the richness of Eastern devotional poetry Returning to the theme that inspired *The Love Poems of Rumi* and *On the Shores of Eternity* Deepak Chopra gives us a rapturous experience of human passion inspired by the soul's yearning for the sacred source of love Immortal love doesn't need poetry However it is our good fortune that some of the God intoxicated have written words that permit access into their ecstatic world Particularly in the East in that exotically woven belt of lands that stretches from Arabia to the Indian subcontinent poets and saints are never far apart In this collection I have gathered a few of the most revered beginning in the medieval period and extending to this century The name of Rumi has gathered much luster recently but the others Kabir Hafiz Tagore and Mirabai deserve just as much recognition In their own cultures they stand as beacons of inspiration largely because the common people have taken them into their hearts and continue joyfully to sing their words to this very day From the Introduction

Daughter of the Yellow River Diana Lu,2006 When Diana Lu was three years old her world turned upside down China's Cultural Revolution was under way and Diana's family was forced to leave their comfortable educated middle class life in the city They relocated to an impoverished coal mining village at the edge of the Gobi Desert where they were to be re educated Life in that remote place was a constant struggle against hunger cold and fear

Limitless Possibilities Kathleen Walsh,2009-09-24 Each of us has felt the energy shift as the planet transitions into the fifth dimension We have felt time speed up and felt energies that are at times so chaotic and unpredictable that we have been thrown off our usual course Some of us have been rocked to our very core We are asking ourselves what is this and why is this happening We each have chosen to come to earth during this time of great transition We are all here sharing our lives with each other helping Mother Earth move into the Golden Age the spiritual Age of Aquarius This transition will complete on the date that the Mayan civilization predicted some 26 000 years ago December 21st 2012 There is much work to be done as we realize the need for the shift that must occur in our personal lives so that we can be in sync with the new fifth dimensional energy on this planet As our world resets itself so too must we reset ourselves What this means to each of us is that it is time to understand the meaning of how to live more fully in the fifth dimension Each of us must identify where we currently stand and where we need to go in order to experience the wonderment of fifth dimensional living Why Many of us may be existing as a two or a three dimensional person The energies that sustain those

dimensions no longer exist on this planet So the old ways of thinking or operating that produced success at one time no longer exist It is now necessary for us if we are to exist in harmony with our planet to transition as well If we choose not to transition then frustration and anger will become paramount in our lives The choice is up to us To live in the fifth dimension is not only to experience the energy of magic and miracles but to learn that we can create all the perfection we desire in our lives by simply shifting our thinking into fifth dimensional thinking We are able to see the perfection where formerly we saw the illusion of imperfection This new vantage point allows us to become the center of our own reality and easily navigate through difficult individuals and challenging events while maintaining a state of balance and harmony We are then able to turn possibilities into probabilities and probabilities into actualities This journey begins with describing and identifying all of the unseen but certainly not unfelt influences in our lives that have been given to each of us to help us live our life on earth in the best and easiest manner possible Each reader will be able to identify their birthright gift as well as the other gifts available to tap into and expand one's energy thereby allowing this innate knowledge to grow and develop All of the necessary techniques and tools are explained in detail in this book so that you can easily make the transition from your current dimension into the fifth dimension allowing you to create a new future You are able to learn and make friends with each of your bodies of consciousness and their respective inner child and together you begin a journey of healing You as parent of these inner children learn how to set the stage and the rules so that everyone is playing by the same playbook You learn that you may win as a team or you may lose as a team but you are all on the same team working together to achieve that balance that allows you to maintain your newly found center By removing fears one by one each of us can transition from a place of fear into a place of love learning to live from the heart As we work towards this goal we isolate and identify the negative emotions that have been growing and harvesting within These negative emotions equate disease This book is your guide to help acknowledge these fears recognize and release them one by one creating a new you a lighter you We then experience a new energy a more evolved energy a higher vibrating energy as we invite the energy of excellent health and balance into our bodies It is here that

The Quatrains of Rumi Jalāl al-Dīn Rūmī (Maulana), 2008 This is the first complete translation of the nearly 2 000 quatrains attributed to Jalaluddin Rumi the famous 13th century mystical poet It is the result of over 22 years of collaboration by an American Rumi scholar and an Afghan scholar of Persian literature It should appeal to a wide variety of lovers of Mawlana Rumi's poetry not just specialists general readers who seek a deeper understanding of his spiritual teachings than popularized books often interpretive versions claimed as translations can provide as well as those interested in religious mysticism in general and Islamic mysticism sufism in particular The quatrains are ordered according to stages and themes of the lover and beloved spiritual disciple and sufi master Most of the translations are followed by explanatory notes those intended for the general reader have asterisks and often refer to the Notes an appended glossary Readers who have access to previously published translations and versions of the quatrains can use the appended Concordance to make comparisons Quatrains in the earliest manuscripts that have been found to be composed by earlier poets have been identified and placed in another appendix Few of the quatrains have been previously translated by scholars the quatrains in popularized books are often distorted versions mostly rendered by authors who do not know Persian those who do often tend to omit change or add Here the poems are presented in the context of the Islamic sufi poetry in the Persian language 800 years ago wine and drunkenness do not involve alcoholic intoxication but are metaphors for the mystical taste of spiritual grace and ecstasy The lover's longing and self effacing love is not romantic but spiritual love of the seeker for his sufi guide This love is a means to the goal of pure worship of God Most High the only Beloved that necessitates self effacement and mystical drowning in the reality described in the Qur'an Everything perishes except His Face
