Davis,2005-04-13 *The Religion of the Spirit World Written by the Spirits Themselves* George Henslow,1920 **The Religion of the Spirit in Modern Life** Horatio Willis Dresser,1914 *Holy Spirit and Religious Experience in Christian Literature ca. AD 90-200* John Eifion Morgan-Wynne,2006-06-01 Holy Spirit and Religious Experience seeks to find out how far the centrality of the Holy Spirit in Christian experience during the earliest period of the church was maintained or diminished in the third to the fifth generations ca AD 90 200 Three themes are explored First the sense of encounter with the divine presence the numinous a sense of being caught up into the divine being or being overwhelmed by the One who is beyond us Secondly a sense of being illuminated in respect to the truth given deeper understanding of God s purpose whether for the individual or the congregation or guided in decision making Thirdly a sense of ethical empowerment an awareness of being helped by divine power assisted in a course of action or development of character in grappling with temptation or in the ultimate test of loyalty martyrdom This book is arranged geographically from Syria and Asia Minor in the East to Rome and Gaul in the West including North Africa and Egypt Christian authors within these areas are examined chronologically from the later New Testament writers through the second century to Clement of Alexandria and Tertullian of Carthage for the evidence they supply The variegated picture which emerges it is contended reflects second century Christianity **Reflections on the Spirit, &c. &c. of Religious Controversy. [By John Fletcher, D.D.]** ,1804

Democracy in America Alexis de Tocqueville,2000-08 Twenty five year old Alexis de Tocqueville s account of America s social and political characteristics which he observed in the early 1830s while visiting from France contains the complete two volumes based on the second revised and corrected text of the 1961 French edition **Montesquieu's Comparative Politics and the Spirit of American Constitutionalism** Anne M. Cohler,2021-10-08 American republicans notes Forrest McDonald regarded selected doctrines of Montesquieu s as being virtually on par with Holy Writ But exactly how the French jurist s labyrinthian work *The Spirit of the Laws* with was published in 1748 influenced the eighteenth century conception of the republic is not well understood by historians or theorists Anne M Cohler undertakes to show the importance of Montequieu s teaching for modern legislation and for modern political prudence generally with specific reference to his impact on the Federalist and Tocqueville In so doing she delineates Montequieu s contribution to political philosophy and suggests new ways to think about the formation of the American Constitution To analyze the comparative politics found in

the Spirit of the Laws Cohler focuses on four fundamental principles underlying Montesquieu's view of government spirit moderation liberty and legislation In this endeavor she is guided by the conviction that the philosopher hews to the spirit of the laws rather than to the laws themselves that is to internal rather than external principles Montesquieu in Cohler's argument addresses the problem posed by the tendency to see human beings in light of universal abstractions at the expense of particular relationships distinctions and forms To counter this tendency which can be fostered by religion Montesquieu develops a theory of prudence designed to support the world of politics an dpolitical life necessarily an intermediate world occupying a space between universal abstractions and individual particularities Cohler suggest that the Federalists and Tocqueville were most influenced by this preoccupation with spirit and moderation James Madison and other Federalists for example were not drawn to limited government as a principled notion but rather as a consequence of understanding the context within which a moderate government must act not to become despotic Similarly Tocqueville extols democracy as self government as an antidote to the dangers of democracy as a rule the character of the governed shapes the nature of the governors These and other conclusions will prove valuable to intellectual historians political theorists and students of religion

Faith as Life in the Spirit Aaron Gabriel Ross,2025-06-26 This incisive work shows that faith does not need to be understood as what one believes does or feels when faith is understood as being in Christ by being in the Spirit The way in which Christians and Christian theology at least in Western traditions including the family of Pentecostals and renewal movements engages with the idea of faith has a problem faith is often defined as what people must do whether that is to believe in a list of doctrines to do good works or to love properly in order for God to respond with forgiveness and salvation However this work takes a new approach with a pneumatological trajectory in constructing a theology of faith understood as life in the Spirit overcoming a stalemated discussion on faith as belief versus works As such faith is being in Christ by being in the Spirit is the theological recognition that faith is first relationality to the Spirit by which a person is invited into life with Christ and the triune God Faith is not what one does beliefs works affections but rather what one is in relationality with the Spirit Beliefs works and affections are best understood as those things that are the outward expressions of the relationality rather than that which brings one into relationality with God
