raised difficult issues nor offended a majority of the ticket buyers As a result Hollywood romanticized the south particularly the antebellum era in hundreds of films like Uncle Tom s Cabin Gone With the Wind Birth of a Nation and Jezebel During the 1920 s and especially the Depression the moonlight and magnolia romances increased to such an extent that Hollywood has been struggling since the late forties to rid films of the traditional images of the southern In his exploration of the southern Edward D C Campbell Jr examines the film plots and images their social literary and historical origins and their impact on the creation of a popular mythology of the south The unrealistic but seemingly harmless characterizations of a planter society and agricultural economy and especially slavery have hindered the region s self assessment and warped the nation s perspective on race Campbell looks beyond the productions themselves however to advertising techniques and the reactions of the viewers and reviewers in his examination of the southern its popularity and its decline and its influence of the public s conception of history contemporary conditions and black white relations The Celluloid South is not a study of film per se but of film as a reflection of society and the ramifications inherent in popular entertainment Readers interested in southern history popular culture or cinema studies as well as movie fans will find The Celluloid South a fascinating look at Hollywood s development of the southern myth Thirty one film stills illustrate the text *Industrial Engineering* George Worthington,1914
