Tomorrow on Cassette Benjamin Duester, 2025-05-15 Growing sales numbers for cassette tapes in the Global North since the early 2010s have led mass media outlets to repeatedly proclaim a tape revival Yet the grassroots projects of devotees in niche punk noise and hip hop DIY music scenes have continuously upheld the unique material benefits of cassettes while wider society considered them a relic of bygone times Contrasting the popular notion of current cassette use being a mere side effect of the blazing interest in the vinyl record this book argues that the lasting embrace of tapes is based on complex cultural economic and material factors that shape cassettes as hybrid artefacts of music in the new media age Drawing on interviews with 85 experts active in DIY music cultures as independent record shop operators musicians event promoters fans and collectors across Japan Australia and the United States Tomorrow on Cassette presents a seminal

exploration of how the cassette tape's significance as a tool for material expression, creativity and sociality perseveres in the 21st century

New Rules for Global Justice Jan Aart Scholte, Lorenzo Fioramonti, Alfred G. Nhema, 2016-04-12 Today's globalised world means offshore finance, airport boutiques and high speed Internet for some people against dollar a day wages, used t-shirts and illiteracy for others. How do these highly skewed global distributions happen and what can be done to counter them? *New Rules for Global Justice* engages with widespread public disquiet around global inequality. It explores mal-distributions in relation to country, class, gender and race with international examples drawn from Australia to Zimbabwe. The book is action oriented and empowering, presenting concrete proposals for new rules in regard to climate change, corruption, finance, food, investment, the Internet, migration and more.

Indian Diaspora Pravin Bhagwan Bhaskar, 2025-01-15 Borders give rise to the line of division, the suffering of homelessness and the loss of culture. The book masterfully ties together the stories of those who have been uprooted and have endured humiliating experiences abroad as well as the voyage of Indian writers who were dispersed, including Jhumpa Lahiri, Kiran Desai and Chitra Banerjee Divakaruni. Moreover, the book bears witness to the disadvantaged and disgraced migrants, refugees and exiles who have used their writing to highlight effectively the concerns related to migration.

Ecogames Laura op de Beke, Joost Raessens, Stefan Werning, Gerald Farca, 2025-10-24 With the climate crisis and its repercussions becoming more and more tangible, games are increasingly participating in the production, circulation and interrogation of environmental assumptions using both explicit and implicit ways of framing the crisis. Whether they are providing new spaces to imagine and practice alternative forms of living or reproducing ecomodernist fantasies, games as well as player cultures are increasingly tuned in to the most pressing environmental concerns. This book brings together chapters by a diverse group of established and emerging authors to develop a growing body of scholarship that explores the shape, impact and cultural context of ecogames. The book comprises four thematic sections: Today's Challenges, Games for Change, Future Worlds, New Imaginaries, The Nonhuman Turn and Critical Metagaming Practices. Each section explores different aspects of ecocritical engagement in and through games. As a result, the book's comprehensive scope covers a variety of angles, methodologies and case studies, significantly expanding the field of green media studies.
