The strangest secret Earl Nightingale, 2013-06 **Mind Training eBook** Naomi Turvey, 2019-12-11 I wrote this Mind Training eBook with the aim to help anyone wanting to understand become more aware and take control of their state of mind with the intent of finding peace feeling happiness and experiencing the life they want Since before I was a teen I have studied the mind the brain our dreams childhood conditioning how traumatic experiences effect us how our emotions control us abuse and how situations set wiring patterns in our brain and exactly what we do in order to not become a victim of these circumstances and instead to create the outcome we want **The Strangest Secret Collection** Dr. Robert C. Worstell, Earl Shoaff, Claude M. Bristol, Neville Goddard, Wallace D. Wattles, Earl Nightingale, James B. Jones, 2019-02-15 With complete certainty I can tell you now from my more than half century of existence Any and all successes as well as all my disappointments are directly traced to the principles in this book For any set back or failure I either didn t know these principles didn t understand their power or simply ignored them For every success I have tracked back to taking these exact steps laid out in this book to achieve acquire or attain whatever it was I wanted to be or have And that experience is why I m bringing out this short book you can have to carry with you and review regularly Inside Earl Nightingale s original Strangest Secret recording he mentions several books that support these ideas If you put them together the length is around 700 pages of text What you are reading here is around a hundred And this is designed to be slim and still contain the power of the best references that can educate and reinforce the key success principles Nightingale recorded in 1956 *YOU and Your Own Universe* Silviu Pristavu, 2022-04-22 What if you found out that you re not who you believe you are What if I told you that you re not who your family thinks you are What if you re not the person that people around you see and hear What if the human being is in reality the fusing element of two worlds physical and spiritual What if in the human body you can find both physical and spiritual where the spiritual manifests physically What if what we call the mind as we know it is actually the gate through which the two worlds meet cross and exchange information What You are as a spiritual being can t be described in any human language What You are can t be seen by any human eyes What You say can t be heard by any physical ears You are the awareness in you the consciousness You are the love the joy and the happiness that bursts out of you You are the creator of your body and the creator of Your Own Universe You are limitless You are wealth You are health You are all these things combined and more You are something that can only be felt through your physical body and you will feel You long before you finish reading this book This book is not religious It doesn t aim to favour one religion or discredit another If anything it s a tool for any religion that s been created from the beginning of humanity and helps explain phenomena that couldn t have been explained otherwise It supports science equally however it doesn t just support theories that are based purely on physical evidence though it may provide answers where these haven t been found yet if one is open to accepting a different point of view It was written to serve as a manual for life explaining how things become what they are and providing

confidence and strength to teens getting ready to face the world on their own and to adults who feel lost without a purpose and in need of guidance toward a happy life
