Middlemass,1877 **The New Masters of Capital** Timothy J. Sinclair,2014-04-08 In *The New Masters of Capital* Timothy J Sinclair examines a key aspect of the global economy the rating agencies In the global economy trust is formalized in the daily operations of such firms as Moody s and Standard Poor s which continuously monitor the financial health of bond issuers ranging from private corporations to local and national governments Their judgments affect unimaginably large sums approximately 30 trillion in outstanding debt issues according to a recent Moody s estimate The difference between an AA and a BB rating may cost millions of dollars in interest payments or determine if a corporation or government can even issue bonds Without bond rating agencies there would be no standard means to compare risks in the global economy and international investment would be problematic Most observers assume that the agencies are neutral and scientific and that they interpret their role in narrowly economic terms But these agencies by their nature wield extraordinary power and exert massive influence over public policy Sinclair offers a highly accessible account of these institutions their origins and the rating processes they use to judge creditworthiness Illustrated with a wide range of cases this book offers a fresh assessment of the role of an often overlooked institution in the dynamics of modern global capitalism *The Boss's Daughters* Carl Douglass,2016-07-09 *The Boss s Daughters* is the fifth novella of Carl Douglass s McGee series Cinnamon and Paprika Paxton daughters of a Harlem crime lord and their security guards are kidnapped The parents are forbidden by the kidnappers to involve the police so McGee and the real story begins and spirals toward an end that no one could have expected *Soufflé* Asli Perker,2013-04-01 *Three troubled lives one cookbook* a recipe for self discovery Lilia wakes up one morning to discover that her marriage is not what it seemed Marc cannot face his empty apartment after the loss of his beloved Ferda struggles with the demands of family life but all she wants is to follow her passion to cook with freedom for the people she truly loves In this sweeping story taking in the streets and markets of New York Paris and Istanbul courage and desire begin to stir through three very different people A modern Turkish writer with the subtle steady gaze of Balzac With quiet brilliance Asli Perker shows how couples and families from Paris to the Philippines cope with sudden catastrophic loss And at the heart of the book balancing loss there is always food warming adding flavour expressing love and celebration Maggie Gee OBE

The anthology *The Greatest of Dystopian Classics of All Time* navigates the shadowy realms of human imagination through a striking collection of dystopian literature. It traverses time from Mary Shelley's prescient forebodings to the philosophical quandaries posed by E. M. Forster and the allegorical dimensions woven by Jonathan Swift. This collection encompasses a myriad of styles from the prophetic to the satirical, each shedding light on societal structures and individual agency. Distinct narratives engage with prevailing anxieties about technological advancement, moral decay, and socio-political upheaval, offering readers a venue to ponder the complexities of humanity itself. Contributing authors span the literary landscape, united by their stark portrayals of potential futures that extend beyond the conventional confines of their periods. Writers such as H. G. Wells, Edgar Allan Poe, and Ayn Rand craft speculative narratives that question the repercussions of socio-economic disparities and the ethical dilemmas inherent in technological progress. The anthology pays homage to diverse literary traditions and movements, including Romanticism's probing of human nature and realism's dialogue with industrial society, enhancing the book's thematic richness. This anthology invites readers to explore a confluence of prophetic voices and diverse literary crafts. It is an essential compendium for those seeking to understand the cultural and philosophical underpinnings of dystopian narratives across history. A unique intellectual journey within these pages awaits, challenging assumptions while providing multifaceted perspectives on the enduring appeal and relevance of dystopian fiction. The work is not only an engaging literary expedition but also a profound educational tool facilitating dialogue between past contemplations and contemporary concerns.
