The Subversion Of Christianity:

The Subversion of Christianity Jacques Ellul, 2011-06-02 Pointing to the many contradictions between the Bible and the practice of the church Jacques Ellul asserts in this provocative and stimulating book that what we today call Christianity is actually far removed from the revelation of God Successive generations have reinterpreted Scripture and modeled it after their own cultures thus moving society further from the truth of the original gospel The church also perverted the gospel message for instead of simply doing away with pagan practice and belief it reconstituted the sacred set up its own religious forms and thus resacralized the world Ellul develops several areas in which this perversion is most obvious including the church's emphasis on moralism and its teaching in the political sphere The heart of the problem he says is that we have not accepted the fact that Christianity is a scandal we attempt to make it acceptable and easy and thus pervert its true message Ultimately however Ellul remains hopeful For in spite of all that has been done to subvert the message of God the Holy Spirit continues to move in the world Christianity writes Ellul never carries the day decisively against Christ

The Subversion of Christianity Jacques Ellul, 1986 Argues that the Christian church and culture of today is far removed from Biblical precepts and examines the possible causes

Babel Church Li Ma, 2021-03-16 Assisted by a diverse mass media industry American evangelicalism has been long plagued by consumerism entrepreneurship and social engineering Churches and movements that carry the name of Christ have become projects of ambition and scandals in the public eye Without fixing its dysfunctions these ministry models have expanded to other parts of the world reaping similar fruits of corruption prejudice and abuses The alarm call of MeToo and ChurchToo movements since 2017 made it more urgent for the global body of Christ to inspect its pathological patterns What kind of response does the MeToo movement require of our public theology and leadership ethics Sociologist Li Ma invites us to re-engage with biblical exegesis while being attentive to new mandates of God revealed from MeToo A creative Ellulian integration of sociological analysis and theology *Babel Church* incisively reveals why American evangelicalism and its global projects have succumbed to the temptations of worldly power at the expense of vulnerable members in the body of Christ

Sources and Trajectories Jacques Ellul, 1997 This is a print on demand book and is therefore non-returnable This book is composed of eight articles written by Ellul and not previously translated into English The eight were chosen not necessarily for their clarity or power to convince but because they are the earliest formulations of some of Ellul's key ideas

When Heaven and Earth Collide Alan Cross, 2014-02-05 *When Heaven and Earth Collide* is an investigation into what went wrong in the American South in regard to race and religion and how things can be and are being made right Why in a land filled with Christian churches was there such racial oppression and division Why didn't white evangelicals do more to bring racial reconciliation to the South during the 19th and 20th centuries These questions are asked and answered through an exploration of history politics economics philosophy and social and theological studies that uncovers the hidden impetus behind racism and demonstrates how we can still make many of the same errors

today just perhaps in different ways The investigation finally leads us in hopeful directions involving how to live out the better way of Jesus with an eye on heaven in a world still burdened and broken under the sins of the past A History of the Christian Church Charles Hase, 2023-11-23 Reprint of the original first published in 1856 *Street Signs* David P. Leong, 2012-07-01 *Street Signs* is an engaging missiological inquiry into the cultural and theological meaning of the city Through the lens of Seattle's Rainier Valley one of the most ethnically and socioeconomically diverse communities in the US this work constructs an urban missional and contextual theology that is shaped by the local realities of urban neighborhoods but relevant to cities everywhere Focused on the themes of incarnation confrontation and imagination *Street Signs* explores the contours of missional theology in urban contexts marked by physical density social diversity and economic disparity In addition to examining contextualization and cultural theory *Street Signs* also utilizes creative research methods like urban exegesis cultural semiotics and theology of the built environment For the urban ministry practitioner or the theologian in the city this work aims to engage thoughtful Christians with missiological and theological reflections on place neighbor and community Secular Nations under New Gods Willem H. Vanderburg, 2018-12-21 The ongoing political muscle flexing of diverse Christian communities in North America raises some deeply troubling questions regarding their roles among us Earlier analyses including Herberg's Protestant Catholic Jew showed that these three branches of the Judaeo-Christian tradition correspond to three forms of the American way of life while Kruse's One Nation Under God showed how Christian America was shaped by corporate America Willem H. Vanderburg's *Secular Nations under New Gods* proceeds based on a dialogue between Jacques Ellul's interpretation of the task of Christians in the world and Ellul's interpretation of the roles of technique and the nation-state in individual and collective human life He then adds new insight into our being a symbolic species dealing with our finitude by living through the myths of our society and building new secular forms of moralities and religions If everything is political and if everything is amenable to discipline-based scientific and technical approaches we are perhaps treating these human creations the way earlier societies did their gods as being omnipotent without limits Vanderburg argues that until organized Christianity becomes critically aware of sharing these commitments with their societies it will remain entrapped in the service of false gods and thereby will continue to turn a message of freedom and love into one of morality and religion A History of the Christian Church Karl von Hase, 1876 **Jesus and Marx** Jacques Ellul, 2012-03-01 At what point does a theology become an ideology How can a Christian distinguish the two Jacques Ellul has always taken pains to differentiate them but in this book he provides both a theoretical framework and important examples Some popular theologies particularly those that attempt to intertwine biblical theology with Marxist thought fall into the trap of reaching theological conclusions by other means Ellul believes so that we cannot consider them as true theologies From both a biblical theological and sociopolitical perspective Ellul examines the attempt to relate Christianity to Marxist thought By reviewing in detail several key Marxist Christian books Ellul exposes the weaknesses of so-called Marxist Christianity

which he says is neither Marxist nor Christian and argues that the biblical perspective takes exception to all political power leaving Christian anarchism as the realistic revolutionary option The preface by translator Joyce Main Hanks provides an excellent introduction to the book showing how it fits into Ellul's thought and how it relates to Ellul's previous work **The Law Reports of the Incorporated Council of Law Reporting** Great Britain. Parliament. House of Lords, 1917 **The Oxford Companion to Christian Thought** Adrian Hastings, Alistair Mason, Hugh S. Pyper, 2000-12-21 Embracing the viewpoints of Catholic Protestant or Orthodox thinkers of conservatives liberals radicals and agnostics Christianity today is anything but monolithic or univocal In The Oxford Companion to Christian Thought general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought Indeed the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible Here is a comprehensive and authoritative though not dogmatic overview of the full spectrum of Christian thinking Within its 600 alphabetically arranged entries readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian There is ample coverage of Eastern thought as well examining the Christian tradition in China Japan India and Africa The contributors examine major theological topics such as resurrection the Eucharist and grace as well as controversial issues such as homosexuality and abortion In addition short entries illuminate symbols such as water and wine and there are many profiles of leading theologians of non Christians who have deeply influenced Christian thinking including Aristotle and Plato and of literary figures such as Dante Milton and Tolstoy Most articles end with a list of suggested readings and the book features a large number of cross references The Oxford Companion to Christian Thought is an indispensable guide to one of the central strands of Western culture An essential volume for all Christians it is a thoughtful gift for the holidays **The English Review**, 1847 **The Hidden Teachings of Jesus** Lance deHaven-Smith, 2001-10-15 The author of Conspiracy Theory in America presents a radical new view of the person of Jesus and the message of social reform underlying his teachings Based on the premise that Jesus could not speak his thoughts openly without running afoul of the authorities political philosopher Lance deHaven Smith demonstrates how Jesus sought to dismantle worldly systems of command and status and replace them with a society governed by a spirit of holiness The Hidden Teachings of Jesus also explores how Jesus prophecies are being fulfilled in the modern era Huge systems of power privilege and acquisition have arisen but so too has a global public opinion which bristles at oppression and demands love and respect for every living thing In this work Lance deHaven Smith points to a spirit of holiness emerging worldwide to dismantle power and status in abusive families autocratic corporations tyrannical governments and many other areas of life This spirit he suggests can bring about the real kingdom of God the divine order Jesus urged his followers to establish here on earth **Bowing Toward Babylon** Craig Watts, 2017-03-08 What is being done in worship when national holidays are celebrated the American flag is displayed and honored and songs are sung that

extol the nation Are these benign gestures Or could they actually be idolatrous In this insightful and persuasively argued study Craig M Watts contends the inclusion of elements of American nationalism in worship is detrimental to the integrity of Christian worship He maintains that in faithful worship the story of Jesus must be re presented and performed in such a way that the only affections and loyalty that are fostered are those Christians everywhere rightfully share To do otherwise opens the door to idolatry and leaves the church doing what Watts calls bowing toward Babylon He reviews the development of the symbols songs and gestures that celebrate America and how they were introduced into worship Watts concludes that the spirituality of American Christian nationalism does not complement the faith of the church but distorts it hindering global Christian unity and the peaceable witness of the church in a divided world A history of the Christian Church, tr. by C.E. Blumenthal and C.P. Wing Karl August von Hase,1855 *The Christian Imagination* Willie James Jennings,2010-05-25 Why has Christianity a religion premised upon neighborly love failed in its attempts to heal social divisions In this ambitious and wide ranging work Willie James Jennings delves deep into the late medieval soil in which the modern Christian imagination grew to reveal how Christianity s highly refined process of socialization has inadvertently created and maintained segregated societies A probing study of the cultural fragmentation social spatial and racial that took root in the Western mind this book shows how Christianity has consistently forged Christian nations rather than encouraging genuine communion between disparate groups and individuals Weaving together the stories of Zurara the royal chronicler of Prince Henry the Jesuit theologian Jose de Acosta the famed Anglican Bishop John William Colenso and the former slave writer Olaudah Equiano Jennings narrates a tale of loss forgetfulness and missed opportunities for the transformation of Christian communities Touching on issues of slavery geography Native American history Jewish Christian relations literacy and translation he brilliantly exposes how the loss of land and the supersessionist ideas behind the Christian missionary movement are both deeply implicated in the invention of race Using his bold creative and courageous critique to imagine a truly cosmopolitan citizenship that transcends geopolitical nationalist ethnic and racial boundaries Jennings charts with great vision new ways of imagining ourselves our communities and the landscapes we inhabit *Can the West Be Converted?* Jean-Georges Gantenbein,2021-11-04 Rather than reconsidering contemporary culture in light of secularization much of the western church operates with a degree of nostalgia She has yet to fully embrace prospective innovative models for what form her task might take in some of Christianity s historic heartlands Amidst rapidly declining church membership contextualizing the Gospel for the contemporary West is an urgent task for churches and Christians living in this context This book seeks an interdisciplinary international and ecumenical response to this challenge uniting historical sociological theological and missiological perspectives Benefiting from recent studies in sociology of religion Dr Gantenbein offers several detailed contextual case studies before establishing correlations between western cultural religious characteristics and corresponding theological affirmations This study includes several unexpected dimensions including the development of a theological

aesthetic in tension with the typically Word alone tradition of Protestantism a constructive reading of the book of Revelation as a source for contemporary aesthetic missiology reflections on a soteriology for the postmodern era and a proposal for an anonymous ecclesiology within a European context where churches are viewed with growing suspicion With rare perspicacity Gantenbein's study creatively calls churches to apply renewed intellectual rigor in faithfulness to their common purpose

The Church of England and Divorce in the Twentieth Century Ann Sumner Holmes, 2016-10-04 Attitudes towards divorce have changed considerably over the past two centuries As society has moved away from a Biblical definition of marriage as an indissoluble union to that of an individual and personal relationship secular laws have evolved as well Using unpublished sources and previously inaccessible private collections Holmes explores the significant role the Church of England has played in these changes as well as the impact this has had on ecclesiastical policies This timely study will be relevant to ongoing debates about the meaning and nature of marriage including the theological doctrines and ecclesiastical policies underlying current debates on same sex marriage

The Cambridge History of Ancient Christianity Bruce W. Longenecker, David E. Wilhite, 2023-08-24 The first three hundred years of the common era witnessed critical developments that would become foundational for Christianity itself as well as for the societies and later history that emerged thereafter The concept of ancient Christianity however along with the content that the category represents has raised much debate This is in part because within this category lie multiple forms of devotion to Jesus Christ multiple phenomena and multiple permutations in the formative period of Christian history Within those multiples lie numerous contests as varieties of Christian identity laid claim to authority and authenticity in different ways The Cambridge History of Ancient Christianity addresses these contested areas with both nuance and clarity by reviewing synthesizing and critically engaging recent scholarly developments The 27 thematic chapters specially commissioned for this volume from an international team of scholars also offer constructive ways forward for future research
