The Sufi Path Of Knowledge Ibn Al Arabi S Metaphysics Of Imagination:

The Sufi Path of Knowledge William C. Chittick, 1989-06-01 Ibn al Arabi is still known as the Great Sheik among the surviving Sufi orders Born in Muslim Spain he has become famous in the West as the greatest mystical thinker of Islamic civilization He was a great philosopher theologian and poet William Chittick takes a major step toward exposing the breadth and depth of Ibn al Arabi s vision The book offers his view of spiritual perfection and explains his theology ontology epistemology hermeneutics and soteriology The clear language unencumbered by methodological jargon makes it accessible to those familiar with other spiritual traditions while its scholarly precision will appeal to specialists Beginning with a survey of Ibn al Arabi s major teachings the book gradually introduces the most important facets of his thought devoting attention to definitions of his basic terminology His teachings are illustrated with many translated passages introducing readers to fascinating byways of spiritual life that would not ordinarily be encountered in an account of a thinker s ideas Ibn al Arabi is allowed to describe in detail the visionary world from which his knowledge derives and to express his teachings in his own words More than 600 passages from his major work *al Futuhat al Makkiyya* are translated here practically for the first time These alone provide twice the text of the *Fusus al hikam* The exhaustive indexes make the work an invaluable reference tool for research in Sufism and Islamic thought in general Ibn Al- Arabi S Metaphysics Of Imagination The Sufi Path Of Knowledge

Prithivi Nath Kaul Bamzai, 2009-01-01 For the first time in the History of Orientalism a thorough study of ibn al Arabi s thought is now available William Chittick has given us a translation of numerous passages from the work of the Magister Magnus and placed them in their theological context thus removing many misunderstandings that have prevailed both among Muslim and in the West when interpreting Ibn al Arabi s mystical worldview Chittick has done this with admirable clarity and his book will always remain a most important milestone in the study of Islamic mystical theology *An Introduction to Islam* David Waines, 2003-11-06 This wide ranging account of the history and theology of one of the world s most dynamic religions tells the story of Islamic beliefs and practices as they developed from the earliest times down to the present day For this revised and updated second edition David Waines has added a long section tackling head on the issues arising from Islam s place in the changing world order at the turn of the new millennium The wars in Bosnia Afghanistan and Israel and the terrorist attacks on New York and Washington have raised global awareness of Islam at a superficial level but little has been written which considers Islamic political and military extremism in relation to mainstream Muslim history and theology Coming at the end of a book which has explored the ideas and traditions of Islam in depth this new section offers thought provoking reflections on the place of religion in the current conflicts *The Passions of the Soul in the Metamorphosis of Becoming* Anna-Teresa Tymieniecka, 2013-03-09 Over the millennia philosophy has sought the ultimate understanding of the full human horizon of existence as well as of human destiny and the ultimate sense of it All The innumerable attempts to grasp the answers to these questions each taking its own approach and having its own

preconceptions have engendered a range of different philosophical approaches one so broad that seemingly unbridgeable rifts impede possible cross fertilizing communication And yet the themes of all of them e g the immeasurable cosmos life the individual being bearing life the human person within his or her world and his or her longings to transcend that world the human mind its pragmatic cognitive tools creative speculative pursuits remain constants The logos they all share is one It is not that no vicarious sharing of intuitive glimpses by the proponents of the varied doctrines and methods in question occurs The history of philosophy is in fact marked by the juxtaposing of theories and approaches having different trajectories and by the mixing of insights the crossing of borders etc However what is greatly needed is in depth comparison of the various doctrines and a reflection on the contrasting opposing clashing perspectives that seeks foundations for all of them in the human creative condition in that microcosm that extends its tentacles toward the two great infinities the external infinity of the cosmos and the internal infinity of transcending destiny

A Christian-Muslim Comparative Theology of Saints

Hans A. Harmakaputra, 2022-09-19 In A Christian Muslim Comparative Theology of Saints The Community of God's Friends Hans A Harmakaputra focuses on a question that emerges from today's multi faith context Is it possible for Christians to recognize non Christians as saints To answer affirmatively he offers a Christian perspective on an inclusive theology of saints through the lens of comparative theology that is based on the thought of Catholic Protestant and Muslim theologians Karl Rahner Jean Luc Marion Elizabeth Johnson Dietrich Bonhoeffer Paul Tillich and Ibn Arab As a result of this interreligious comparison three theological constructs emerge 1 saints as manifestations and revealers of God's self communication 2 the hiddenness of saints and 3 saints as companions These theological constructs redefine and reconfigure Christian understanding of saints on one hand and on the other hand provide theological reasoning to include non Christians in the Christian notion of the communion of saints

Practical Mysticism in Islam and Christianity Saeed

Zarrabi-Zadeh, 2016-01-29 Practical Mysticism in Islam and Christianity offers a comparative study of the works of the Sufi poet Jalal al Din Rumi 1207-1273 and the practical teachings of the German Dominican Meister Eckhart c1260-1327/8 Rumi has remained an influential figure in Islamic mystical discourse since the thirteenth century while also extending his impact to the Western spiritual arena However his ideas have frequently been interpreted within the framework of other mystical philosophical or religious systems Through its novel approach this book aims to reformulate Rumi's practical mysticism by employing four methodological principles a mysticism is a coherent structure with mutual interconnection between its parts b the imposition of alien structures to interpret any particular mysticism damages its inward coherency c practical mysticism consists of two main parts namely practices and stages and d the proper use of comparative methodology enables a deeper understanding of each juxtaposed system Eckhart's speculative mysticism which differs from and enjoys similarities with the love based mysticism of Rumi provides a mirror that highlights the special features of Rumi's practical mysticism Such comparison also allows a deeper comprehension of Eckhart's practical thought Offering a critical examination of practical

mysticism this book is a valuable resource for students and scholars of Islamic studies comparative mysticism and the intellectual history of Islam **Encyclopedia of Asian Philosophy** Oliver Leaman,2006-10-19 Incorporating cultural and religious contexts this unique Encyclopedia provides a vital guide to the main concepts and thinkers in Asian philosophy starting with Abhidharma and ending with Zurvan The main philosophical trends and thinkers in each geographical area are featured with an emphasis on endtemporary developments and movements The A Z structured encyclopedia emphasizes that Asian philosophy is not merely an ancient form of thought but that it is a living philosophy with roots in the past and also a potent and animate presence today This translates into the reciprocal exchange of theories between Eastern and Western thinking for example of new schools of thought such as orientalism Requiring no prior knowledge of philosophy religion or Asian cultures this book is essential reading for students teachers and the interested individual who wishes to gain an understanding of the philosophical basis to Asian cultural systems The Music Road Reinhard Strohm,2019-08-29 The Music Road the western half of the famous Silk Road explores transmissions migrations and discourses of music dance and theatre in the area between the Mediterranean and India from the first to the 20th century This scholarly panorama explores this cultural world and considers its fascinating inner diversity The Timeless Relevance of Traditional Wisdom Ali M. Lakhani,2010-09-16 More than ever there is an urgent need to rediscover timeless and objective principles in order to confront the issues of our times In this collection of thirty remarkable essays Lakhani summons us to rediscover the sacred worldview of Tradition governed by truth virtue and beauty as he addresses some of the most pressing issues today including fundamentalism gender and sexuality religious diversity and pluralism faith and science and the problem of evil God and Logic in Islam John Walbridge,2010-11-15 This book investigates the central role of reason in Islamic intellectual life Despite widespread characterization of Islam as a system of belief based only on revelation John Walbridge argues that rational methods not fundamentalism have characterized Islamic law philosophy and education since the medieval period His research demonstrates that this medieval Islamic rational tradition was opposed by both modernists and fundamentalists resulting in a general collapse of traditional Islamic intellectual life and its replacement by more modern but far shallower forms of thought However the resources of this Islamic scholarly tradition remain an integral part of the Islamic intellectual tradition and will prove vital to its revival The future of Islam Walbridge argues will be marked by a return to rationalism

Mystical Languages of Unsayng Michael A. Sells,1994-05-02 The subject of Mystical Languages of Unsayng is an important but neglected mode of mystical discourse apophasis which literally means speaking away Sometimes translated as negative theology apophatic discourse embraces the impossibility of naming something that is ineffable by continually turning back upon its own propositions and names In this close study of apophasis in Greek Christian and Islamic texts Michael Sells offers a sustained critical account of how apophatic language works the conventions logic and paradoxes it employs and the dilemmas encountered in any attempt to analyze it This book includes readings of the most rigorously

apophatic texts of Plotinus John the Scot Eriugena Ibn Arabi Marguerite Porete and Meister Eckhart with comparative reference to important apophatic writers in the Jewish tradition such as Abraham Abulafia and Moses de Leon Sells reveals essential common features in the writings of these authors despite their wide ranging differences in era tradition and theology By showing how apophasis works as a mode of discourse rather than as a negative theology this work opens a rich heritage to reevaluation Sells demonstrates that the more radical claims of apophatic writers claims that critics have often dismissed as hyperbolic or condemned as pantheistic or nihilistic are vital to an adequate account of the mystical languages of unsaying This work also has important implications for the relationship of classical apophasis to contemporary languages of the unsayable Sells challenges many widely circulated characterizations of apophasis among deconstructionists as well as a number of common notions about medieval thought and gender relations in medieval mysticism

Cities and Metaphors
 Somaiyeh Falahat, 2018-04-19 Introducing a new concept of urban space Cities and Metaphors encourages a theoretical realignment of how the city is experienced thought and discussed In the context of Islamic city studies relying on reasoning and rational thinking has reduced descriptive vivid features of the urban space into a generic scientific framework Phenomenological characteristics have consequently been ignored rather than integrated into theoretical components The book argues that this results from a lack of appropriate conceptual vocabulary in our global body of scholarly literature It challenges existing theories introduces and applies the concept of Hezar tu a thousand insides to rethink the spaces in historic cores of Fez Isfahan and Tunis This tool constructs a staging post towards a different articulation of urban space based on spatial physical virtual symbolic and social edges and thresholds nodes of sociospatial relationships zones of containment state of intermediacy and thus a logic of ambiguity rather than determinacy Presenting alternative narrations of paths through sequential discovery of spaces this book brings the sensual features of urban space into the focus The book finally shows that concepts derived from local contexts enable us to tailor our methods and theoretical structures to the idiosyncrasies of each city while retaining the global commonalities of all Hence in broader terms it contributes to a growing awareness that urban studies should be more inclusive by bringing the diverse global contexts of cities into the body of our urban knowledge

The QUR'AN and the CROSS
 John O'Brien, 2020-01-01 Muslim reflection on the Cross is dominated by the notion of a substitute being crucified in Jesus place something never mentioned in the Qur'an Reliant on repetition of decontextualized lexicographical readings it does scant justice to the spiritual depth and hermeneutical finesse of the Qur'an Failing to note the ironic trope of the text it conceptualizes the supremacy of God in merely this worldly terms reducing divine mystery to the mythical and the banal Far

from explaining Qur'an 4:157 Substitutionism obscures and distorts it

Philosophy in the Islamic World Peter Adamson, 2016 Peter Adamson presents the first full history of philosophy in the Islamic world for a broad readership. Seyyed Hossein Nasr's Ecological Ethics Muzzamel Hussain Imran, 2023-12-02 The book explores the profound insights of Seyyed Hossein Nasr, an Islamic scholar, on the ecological crisis and its underlying causes. Nasr argues that the dominance of scientism, which prioritizes contemporary science as the sole source of knowledge, has led to a destructive relationship between humans and nature. He proposes that restoring the religious perspective is crucial for finding a lasting solution to the ecological problem. The book delves into Nasr's comprehensive body of work covering diverse subjects such as Islamic philosophy, Islamic art, Islamic science, Sufism, and the ecological crisis. Nasr's approach advocates for a holistic and inclusive philosophy that draws inspiration from the perennial philosophy and the principles of Islam. He emphasizes the importance of reconnecting with our spiritual heritage and rediscovering reverence for the natural world. The book also discusses the relevance and applicability of Nasr's ideas to non-Islamic cultures and societies. This is a unique study into the work of an important Islamic scholar and ecologist. The key audience includes scholars and researchers interested in Islamic philosophy, environmental ethics, and the intersection of religion and ecology.

In Search of the Lost Heart William C. Chittick, 2012-02-15 *In Search of the Lost Heart* brings together twenty-six essays by William C. Chittick, a renowned scholar of Sufism and Islamic philosophy. Written between 1975 and 2011, most of these essays are not readily available in Chittick's own books. Although this is a collection, its editors have crafted it to be a book sufficient unto itself, which when taken as a whole can be said to explore the underlying worldview of Islam. Chittick draws upon the writings of towering figures such as Ibn al-Arabi, Rumi, and Mulladr as well as other important but lesser-known thinkers as he engages with a wide variety of topics such as the nature of being and knowledge, the relationship between love and scriptural hermeneutics, the practical and theoretical dimensions of Islamic mysticism, the phenomenon of religious diversity, and the ecological crisis.

Intellectual Interactions in the Islamic World Orkhan Mir-Kasimov, 2019-11-14 I B Tauris in association with the Institute of Ismaili Studies. How has the Ismaili branch of Shi'i Islam interacted with other Islamic communities throughout history? The groups and movements that make up Islamic civilisation are diverse and varied, yet while scholarship has analysed many branches of Islam in isolation, the exchanges and mutual influences between them has not been sufficiently recognised. This book traces the interactions between Ismaili intellectual thought and the philosophies of other Islamic groups to shed light on the complex and interwoven nature of Islamic civilisation. Based on a broad range of primary sources from the early medieval to the late nineteenth century, the book brings together different disciplines within Islamic Studies to cover polemical and doctrinal literature, law, mysticism, rituals, and philosophy. The main Ismaili groups such as the Fatimids

Nizaris and Tayyibis are represented as well as lesser known traditions such as that associated with the mountain region of Badakhshan in Central Asia Religious syncretism particularly in the Indian subcontinent and in Yemen is considered alongside cultural interactions as reflected in the circulation of books in Fatimid markets and various literary and mythical traditions some still little explored The chapters include contributions from leading experts in the field shed new light on the close and complex relationships very different Islamic groups and movements have enjoyed throughout the centuries

Sharia and the Making of the Modern Egyptian Reem A. Meshal, 2014-01-01 In this book the author examines sijills the official documents of the Ottoman Islamic courts to understand how sharia law society and the early modern economy of sixteenth and seventeenth century Ottoman Cairo related to the practice of custom in determining rulings In the sixteenth century a new legal and cultural orthodoxy fostered the development of an early modern Islam that broke new ground giving rise to a new concept of the citizen and his role Contrary to the prevailing scholarly view this work adopts the position that local custom began to diminish and decline as a source of authority These issues resonate today several centuries later in the continuing discussions of individual rights in relation to Islamic law
