coal mining from mediaeval times to the demise of the industry in Britain in the 1990s and describes women's role in this history and how it affected their lives Through a combination of historical narrative fiction and biography the book gives a voice to these diminished others wives mothers and daughters whose persistence courage pride and sacrifice also contributed to the profits of wealthy mine owners Their stories are told through the prism of historical events the frightened little girl forced to work alone in subterranean darkness the poverty stricken young woman confronting an unwanted pregnancy those enduring the loss of sons and partners to a deadly occupation and women who through adversity took the opportunity to publicly reveal their collective strength Gentle and gruff warm hearted and implacable these battlers against grime beaters of carpets painters decorators and cooks activists and staunch supporters of strikes and lockouts underpinned the foundations of Britain's coal industry Woven through this book is the true story of the author's mother a miner's daughter Her life too was hard and closely entwined with coal mining to which she made over many years a considerable contribution not only to the industry but to the mining communities in which she worked *Cultivated* Christin Geall,2020-03-24
