The Swedish Country House:

The Swedish Country House Susanna Scherman, Åke E:son Lindman, 2010 Swedish country houses are among Europe's best kept secrets Little known to the outside world and rarely illustrated they survive in surprisingly large numbers often with their original furniture and decoration This book is the first to tell their story The twenty examples examined in detail range in type from royal palace to farmhouse and in date from 15th century Torpa to 19th century Stjernerund They all reflect the talents of many important architects and designers who together forged a distinctive national style **Swedish Country Interiors** Rhonda Eleish, Edie Van Breems, 2013-11-26 Swedish Country Interiors showcases homes that have a wide spectrum of interpretations of Swedish country style rustic rural urban comfortable family friendly elegant simple complex grand humble and eclectic Also found are numerous examples of Swedish country living that the homeowners have embraced and derived inspiration from including wall decorations functional furnishings natural upholstery materials light and indoor outdoor living As featured in Country Living Showcases fifteen beautiful homes that highlight the stylish interpretations of Swedish country **The Philadelphia Country House** Mark E. Reinberger, Elizabeth McLean, 2015-10-21 Cedar Grove The Cliffs Grumblethorpe Mount Airy Bartram's House and Garden Accommodation of the Vernacular **Comfortable Everyday Life at the Swedish Eighteenth-Century Näs Manor** Carolina Brown, 2025-10-01 During the eighteenth century comfortable everyday life becomes a new ideal The good life was no longer about grand representation or the manifestation of material opulence The new luxury was instead the comfortably arranged life at home This book is about the traces of this change its approach and consequences and its anchoring in the material and social life of the Swedish manor The comfort revolution of the eighteenth century was clearly associated with both new types of furniture and new ways of furnishing An important aspect of the development of comfort was the new mobility and flexibility in form and function that the home and its interior now showed Through the home of the Wadenstierna family on the country estate of Näs north of Stockholm the comfortable everyday life is set by their various tables at writing desks sewing tables dressing tables coffee tables and games tables *The Comforts of Home in Western Europe, 1700-1900* Jon Stobart, 2020-02-20 Comfort both physical and affective is a key aspect in our conceptualization of the home as a place of emotional attachment yet its study remains under developed in the context of the European house In this volume Jon Stobart has assembled an international cast of contributors to discuss the ways in which architectural and spatial innovations coupled with the emotional assemblage of objects to create comfortable homes in early modern Europe The book features a two section structure focusing on the historiography of architectural and spatial innovations and material culture in the early modern home It also includes 10 case studies which draw on specific examples from water closets in Georgian Dublin to wallpapers in 19th century Cambridge to illustrate how people made use of and responded to the technological improvements and the emotional assemblage of objects which made the home comfortable In addition it explores the role of memory and memorialisation in the domestic space and

the extent to which home comforts could be carried about by travellers or reproduced in places far removed from the home
The Comforts of Home in Western Europe 1700 1900 offers a fresh contribution to the study of comfort in the early modern home and will be vital reading for academics and students interested in early modern history material culture and the history of interior architecture

Comfort in the Eighteenth-Century Country House Jon Stobart,2021-09-21 Country houses were grand statements of power and status but they were also places where people lived This book traces the changes in layout the new technologies and the innovations in furniture that made them more convenient and comfortable It argues that these material changes were just one aspect of comfort in the country house feeling comfortable was just as important as being comfortable Achieving this involved the comfort and solace to be found in daily routines religious faith and above all relationships with family and friends Such emotional comforts and the attachment to things and places that embodied and memorialized them made country houses into homes

The Swedish God Jan C. Biro,2009-09 Sweden is regarded as the world s most successful country in distributing goods according to the Marxist model which says that

members of society should contribute to wealth with their full capacity and receive their share from the goods in accordance with their needs whatever that might mean This book is a personal analysis of the Swedish human phenotype and lifestyle and has the very clear intention of achieving a realistic judgment how great is the risk or chance that America will develop into a Swedish type social bureaucracy Professional insider guide to everybody who might consider working studying or marrying in Sweden *The History of Witchcraft and Demonology* Montague Summers,2014-04-04 Originally published between 1920 70 The History of Civilization was a landmark in early twentieth century publishing It was published at a formative time within the social sciences and during a period of decisive historical discovery The aim of the general editor C K Ogden was to summarize the most up to date findings and theories of historians anthropologists archaeologists and sociologists This reprinted material is available as a set or in the following groupings or as individual volumes Prehistory and Historical Ethnography Set of 12 0 415 15611 4 800 00 Greek Civilization Set of 7 0 415 15612 2 450 00 Roman Civilization Set of 6 0 415 15613 0 400 00 Eastern Civilizations Set of 10 0 415 15614 9 650 00 Judaeo Christian Civilization Set of 4 0 415 15615 7 250 00 European Civilization Set of 11 0 415 15616 5 700 00 **The History of Witchcraft and Demonology** Montague Summers,1926 This work about witchcraft sorcery black magic neuromancy damnation satanism and every kind of magic and occult is written by the undisputed scholar in the field and is a work of unprecedented authority of interest to all who are connected with the subject **Pictures of Swedish Life** Mrs. Woods Baker,1895 [The Swedish Atheist, the Scuba Diver and Other Apologetic Rabbit Trails](#) Randal Rauser,2012-07-31 We re invited to sit at the table with Randal Rauser as he and his atheist counterpoint Sheridan engage in a real world apologetic dialogue As we follow them down rabbit trails and through personal revelations we experience a paradigm shift in apologetics where a familiar quibble over terms becomes a mutual apprenticeship with the truth **Universities and Science in the Early Modern Period** Mordechai Feingold,Victor Navarro-Brotons,2006-10-03 This book includes most of the contributions presented at a conference on Universities and Science in the Early Modern Period held in 1999 in Valencia Spain The conference was part of the Five Centuries of the Life of the University of Valencia Cinc Segles celebrations and from the outset we had the generous support of the Patronato Foundation overseeing the events In recent decades as a result of a renewed attention to the institutional political social and cultural context of scientific activity we have witnessed a reappraisal of the role of the universities in the construction and development of early modern science In essence the following conclusions have been reached 1 the attitudes regarding scientific progress or novelty differed from country to country and follow different trajectories in the course of the early modern period 2 institutions of higher learning were the main centers of education for most scientists 3 although the universities were sometimes slow to assimilate new scientific knowledge when they did so it helped not only to remove the suspicion that the new science was intellectually subversive but also to make science a respectable and even prestigious activity 4 the universities gave the scientific movement

considerable material support in the form of research facilities such as anatomical theaters botanical gardens and expensive instruments 5 the universities provided professional employment and a means of support to many scientists and 6 although the relations among the universities and the academies or scientific societies were sometimes antagonistic the two types of institutions often worked together in harmony performing complementary rather than competing functions moreover individuals moved from one institution to another as did knowledge methods and scientific practices
