Tandem Bicycling America Paul Wittreich,2002-06-12 Come along on a bicycle built for two for this double tale of a KHS Tandemania Roma tandem bicycle to take you the length of the Mississippi River from the Canadian Border to the Gulf of Mexico then from Coast to Coast from the Atlantic to the Pacific The seat belts couldn't be fastened because there aren't any The only proper precaution is to look out for cars and have bike helmets on The country is out there for you to see But you have to slow down from 70 mph to 10 to 15 mph if you want to see it all That is if you want to smell the flowers plus the pig manure scent wafting through the air America is out there it is just a case of knowing how to find it I think we have found it

It Takes Two to Tandem Louise R. George,Levi T. George,2013-11 It Takes Two to Tandem Louise and Nev have been linked for 32 years through their wedding vows Now Louise is going to be linked to Nev through the steel of a tandem bike frame as they ride for sixteen days travelling 880 miles through the United Kingdom from John O Groats to Lands End Nev with a history of success in mountain bike racing is determined to do this trip Louise concerned about keeping up with his superior prowess isn't so sure The tandem bike will

force them to ride together and face a new challenge of working completely in unison As if muscle fatigue wasn't enough to contend with the summer of the ride was to be one of the wettest in the United Kingdom since records began Louise in the subordinate rear position blocks out the long miles of tedious leg rotations with recollections of travel in these regions embarked on in their early years of married life Train journeys link the British cycling epic with loops of tandem riding in Tuscany and Provence While at a more relaxed cycling pace the hauling of luggage and the inability to meet train schedules while travelling with an oversized tandem in tow presents further obstacles and tribulations that threaten the very core of their relationship Coast to Coast on a Tandem Tracy Flucke, Peter Flucke, 2017-11-02 In many respects Tracy and Peter Flucke are like many other active couples They work a business together they enjoy long distance bicycling for exercise and fun and their shared interests play a key role in building a strong and loving family What sets them apart is the length to which they will go in the name of scratching their adventuresome itch 4 362 miles to be exact Climb aboard and join the Fluckes on their tandem bicycle for their 2014 unsupported trip across the Northern Tier of the United States Somehow these determined personalities were able to endure the better part of seventy two days within six inches of each other surviving physical logistical and interpersonal challenges that made this an adventure of a lifetime **The Tandem**, 2017

Take a Seat Dominic Gill, 2010-10-26 During the summer of 2010 Dominic and his tandem bike are crossing the country with a colorful bunch of elderly disabled or infirm people who for the most part would find the journey difficult or impossible to do alone The core values of this new journey remain the same To travel To share To inspire **On Tandems** Frank Cameron, Cycling Home to Home Robert Snyder, 2018-03-27 Bob's mind is conflicted The left side always wants adventure while the right side develops sheer terror of what is about to happen Karen is a non athlete that is normally calm but this adventure at age 65 has unsettled Karen They could quit but Bob has been planning this trip for over 30 years

Two If by Tandem! Julian Serles, 2016-08-17 The first time I sat on a bicycle I was six years old and starting the first grade of elementary school Even though I did not receive the best or not to put too fine a point on it any instruction and my first minute on my first bike ride was mostly spent picking myself off the ground after T boning a neighbor's parked car it was very clear what mastering the bicycle meant It meant freedom Once I started driving I never stopped riding but most of my friends did After many years many schools and many moves I had lost connections to other people that liked to ride bikes I started to dream of having a tandem and someone to ride it with **The Touring Tandem** Clayton Nebeker Pratt, 2016-09-16 The Touring Tandem describes the year long 10 000 kilometer 28 country bicycle ride that Clayton Pratt and his wife Katy took together on a tandem bicycle After taking a leave from medical school and work they flew to London and began cycling east towards Asia They were determined that a love for cycling would carry them over mountains through headwinds and across strange borders However with punishing hills in England rain in the Swiss Alps a bike breakdown in Istanbul and becoming violently ill in India their adventure wasn't quite what they expected
