The Tea Party Manifesto A Vision For An American Rebirth:

The Tea Party Manifesto Joseph Farah, 2010 In this book Farah fleshes out the origins and evolution of the Tea Party Movement that intensifies daily in speed and spirit Defining the terms of the debate the true meaning of independence the danger in waiting for political messiahs and the vital need for a spiritual core Farah provides an inspired road map for this country s citizens to extricate themselves from the overreaching grip of government and reclaim the beliefs of the Founding Fathers Something is happening to the United States something unprecedented in the last 150 years Now more than ever is the time for a complete renewal of liberty justice and morality It s time for a vision as bold as the one that launched this country Only one question remains What part will you play in taking America back **The Bibles of the Far Right** Hannah M. Strømmen, 2024 The Bibles of the Far Right is about a far right worldview that has taken hold in contemporary Europe It focuses on the role Bibles have come to play in this worldview Starting with the case of far right terrorism in Norway in 2011 the study argues that particular perceptions of the Bible and particular uses of biblical texts have been significant in calls to protect Europe against Islam This study proposes new ways to understand political Bible use today in order to respond to violence inspired by biblical texts **Leadership and Uncertainty Management in Politics** François Vergniolle De Chantal, 2015-08-11 Through a range of international case studies from the USA UK France Germany and Italy this text assesses the conditions necessary for effective leadership and emphasizes the part played by uncertainty and division amongst followers **Ayn Rand Nation** Gary Weiss, 2024-05-01 Thirty years after her death in March 1982 Ayn Rand s ideas have never been more important Unfettered capitalism unregulated business bare bones government providing no social services glorification of selfishness disdain for Judeo Christian morality these are the tenets of Rand s harsh philosophy In Ayn Rand Nation Gary Weiss explores the people and institutions that remain under the spell of the Russian born novelist He provides new insights into Rand s inner circle in the last years of her life with revelations of never before publicized predictions by Rand that still resonate today Weiss charts Rand s infiltration of the Tea Party and Libertarian movements and provides an inside look at the radical belief system that has exerted a powerful influence on the Republican Party and its presidential candidates It s a fascinating cast of characters that ranges from Glenn Beck to Oliver Stone and includes Rand s most influential disciple Alan Greenspan Weiss describes in penetrating detail how Greenspan became a stalking horse for Rand slashing and burning regulations with ideological zeal and then seeking to conceal her influence on his life and thinking Lastly Weiss provides a strategy for a renewed national dialogue an embrace of the nation s core values that is needed to deal with Rand s pervasive grip on society From The Fountainhead and Atlas Shrugged to Rand s lesser known and misunderstood nonfiction books Gary Weiss examines the impact of Rand s thinking across our society **Necroculture** Charles Thorpe, 2016-06-24 In this book the author draws on Karl Marx s writings on alienation and Erich Fromm s conception of necrophilia in order to understand these aspects of contemporary culture as expressions of the domination of

the living by the dead under capitalism Necroculture is the ideological reflection and material manifestation of this basic feature of capitalism the rule of dead capital over living labor The author argues that necroculture represents the subsumption of the world by vampire capital

I the People Paul Elliott Johnson,2022-01-25 A rhetorical examination of the rise of populist conservatism

A Murder of Crows Charles E. Crockett,2012-07-18 BACK COVER Detailing the far right s attempts to alter the American political and economic landscape to satisfy its national ambitions A MURDER OF CROWS identifies over 100 people and organizations who would seek to turn back America to a time of little governmental participation lower tax rates for the wealthy and a closely held corporate and personal control of society s functions and finances It exposes the real desires and naked zeal of those who would place property rights over the rights and the needs of the average American citizen The text is well documented and provides a scathing indictment of those on the right who would wish to alter America s future to serve only a very prosperous few
