The Special Data Dissemination Standard Plus International Monetary Fund. Statistics Dept.,2013-10-30 The International Monetary Fund IMF launched the Data Standards Initiatives to enhance member countries data transparency and to promote their development of sound statistical systems The need for data standards was highlighted by the financial crises of the mid 1990s in which information deficiencies were seen to play a role Under the Data Standards Initiatives the IMF established the Special Data Dissemination Standard SDDS in 1996 to provide guidance to countries that have or seek access to capital markets to disseminate key data so that users in general and financial market participants in particular have adequate information to assess the economic situations of individual countries In 1997 the IMF introduced under the initiatives the General Data Dissemination System GDDS to provide a framework for countries that aim to develop their statistical systems within which they can work toward disseminating comprehensive and reliable data and eventually meet SDDS requirements In February 2012 the IMF Executive Board approved the establishment of the SDDS Plus as a third tier of the Fund's Data Standards Initiatives to address data gaps revealed during the global crisis The SDDS Plus is open to all SDDS subscribers those with systemically important financial sectors are encouraged to adhere early to the initiative

The Special Data Dissemination Standard International Monetary Fund,2007-07-25 The Special Data Dissemination Standard SDDS was established by the IMF in 1996 to guide members that already had or that might seek access to international capital markets in providing key economic and financial data to the public In the following year the IMF established the General Data Dissemination Standard GDDS which seeks to prepare countries for meeting the requirements of the SDDS Data supplied by countries subscribing to the SDDS as well as information provided by countries participating in the GDDS are posted on the Dissemination Standards Bulletin Board DSBB on the IMF's public website <http://dsbb.imf.org> This Guide is intended to assist subscribers of the SDDS GDDS participants moving toward subscription to the SDDS and users of the DSBB in becoming aware of the features and scope of the SDDS and the DSBB It is intended to further the IMF's initiatives in data transparency and standards to enhance the public availability of timely and comprehensive international statistics and therefore to contribute to countries pursuit of sound macroeconomic policies and to the improved functioning of global financial markets

Revisions to the Special Data Dissemination Standard and Establishment of the Special Data Dissemination Standard Plus-Proposed Decisions Internationaler Währungsfonds,2012 The purpose of the Special Data Dissemination Standard SDDS is to guide member countries in the dissemination of comprehensive timely accessible and reliable economic and financial statistical data in the context of increasing economic and financial integration The SDDS not only prescribes that subscribers disseminate certain data categories but also prescribes that subscribers disseminate the relevant metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories The purpose of the Special Data Dissemination Standard Plus SDDS Plus is to reinforce and

supplement the Fund's Data Standards Initiatives and assist Fund members who decide to adhere to the SDDS Plus with regard to the publication of comprehensive timely accessible and reliable economic and financial statistical data in a world of continuing economic and financial integration. The SDDS Plus also requires adherents to disseminate metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories. The Fund decided that the existing rules governing the SDDS are superseded by the new SDDS legal text. The Fund established the SDDS Plus which is governed by the rules in the SDDS Plus legal text.

Revisions to the Special Data Dissemination Standard and Establishment of the Special Data Dissemination Standard Plus—Proposed Decisions International Monetary Fund, 2012-04-10. The purpose of the Special Data Dissemination Standard (SDDS) is to guide member countries in the dissemination of comprehensive timely accessible and reliable economic and financial statistical data in the context of increasing economic and financial integration. The SDDS not only prescribes that subscribers disseminate certain data categories but also prescribes that subscribers disseminate the relevant metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories. The purpose of the Special Data Dissemination Standard Plus (SDDS Plus) is to reinforce and supplement the Fund's Data Standards Initiatives and assist Fund members who decide to adhere to the SDDS Plus with regard to the publication of comprehensive timely accessible and reliable economic and financial statistical data in a world of continuing economic and financial integration. The SDDS Plus also requires adherents to disseminate metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories. The Fund decided that the existing rules governing the SDDS are superseded by the new SDDS legal text. The Fund established the SDDS Plus which is governed by the rules in the SDDS Plus legal text.

Modifications to the Special Data Dissemination Standard Plus International Monetary Fund, 2014-03-19. The Special Data Dissemination Standard Plus (SDDS Plus) was established in October 2012 to reinforce and supplement the Fund's Data Standards Initiatives and assist Fund members who decide to adhere to the SDDS Plus with regard to the publication of comprehensive timely accessible and reliable economic and financial statistical data in a world of continuing economic and financial integration. The SDDS Plus also requires adherents to disseminate metadata to promote public knowledge and understanding of their compilation practices with respect to the required data categories. Following consultations conducted between Fund staff and members' authorities of potential adherents to the SDDS Plus, it appeared necessary to introduce certain modifications to the SDDS Plus legal framework to facilitate adherence. These modifications are consistent with views expressed by Executive Directors in informal discussions with staff and entail: i) extending the timeliness of three data categories and ii) maintaining consistency with the principle underlying the SDDS Plus framework under which subscribers may choose to adopt new methodologies or continue to follow older ones. The Executive Board approved on a lapse of time basis the proposed decision in the paper. The existing rules governing the SDDS Plus are

International Monetary Fund,2015-08-04 The International Monetary Fund's Executive Board regularly reviews progress and developments under the Data Standards Initiatives The last review Eighth Review undertaken in February 2012 introduced the Special Data Dissemination Standard SDDS Plus In light of the long experience under the Data Standards Initiatives established in the mid 1990s this review takes a longer term retrospective on what has been achieved so far and highlights some of the lessons learned What is evident is the contrast between the progress of countries with more advanced dissemination practices SDDS and SDDS Plus and the slow pace of improvement under the General Data Dissemination System GDDS **Sixth Review of the Fund's Data Standards Initiatives** International Monetary Fund. Statistics Dept.,2005-01-07 The Data Standards Initiatives the SDDS and the GDDS have achieved the goals the Executive Board set in its Fifth Review of July 2003 The staff sees the next three years as a period of consolidating these gains by maintaining the credibility of the SDDS through improved monitoring of countries observance of its requirements and further integrating

both the SDDS and GDDS under the Fund's Data Quality Program DQP by aligning their structure with the Fund's Data Quality Assessment Framework DQAF. The staff proposes to include no new data categories in the SDDS and GDDS. Instead, the staff proposes to deepen descriptive information on how countries cover oil and gas activities and products in selected existing data categories.

[Fifth Review of the Fund's Data Standards Initiatives](#) International Monetary Fund, Statistics Dept., 2003-06-18. This paper reviews developments under the Fund's Data Standards Initiative: the Special Data Dissemination Standard SDDS and the General Data Dissemination System GDDS and their integration under the Data Quality Program. The paper discusses proposals for updating the SDDS and the GDDS to maintain their relevance and reflect evolving international best practice and for follow up on the data module of the Report on the Observance of Standards and Codes ROSC. The paper also proposes the development of a Compendium on Good Statistical Practices.

Pakistan International Monetary Fund, 2004-12-07. This Report on the Observance of Standards and Codes ROSC provides a review of Pakistan's data dissemination practices against the IMF's General Data Dissemination System GDDS complemented by an in-depth assessment of the quality of the national accounts, consumer and wholesale price indices and government finance, monetary and balance of payments statistics. Pakistani authorities are strongly committed to adhering to internationally accepted standards and good practices as demonstrated by their recent participation in the GDDS. Nevertheless, the mission identified shortcomings in some statistical practices and databases.

[The General Data Dissemination System](#) International Monetary Fund, 2007-07-25. The IMF's work on data dissemination standards consists of two tiers: the General Data Dissemination System GDDS which applies to all IMF member countries and the Special Data Dissemination Standard SDDS for those members having or seeking access to international capital markets. The GDDS framework provides governments with guidance on the overall development of the macroeconomic, financial and sociodemographic data that are essential for policymaking and analysis in an environment that increasingly requires relevant, comprehensive and accurate statistical data. This Guide explains the nature, objectives and operation of the GDDS, the data dimensions it covers and how countries participate. It provides national statistical authorities with a management tool and a framework to foster sound statistical methodology, professional data compilation and data dissemination. The Guide supersedes the version updated in March 2002 and incorporates the UN Millennium Development Goals MDGs as specific elements of the GDDS sociodemographic component which was articulated with the collaboration of the World Bank.
