Three in One Michael Novak, 2001-04-11 Throughout his many writings Michael Novak one of the leading Catholic social theorists of our times has urged us to adopt a tripartite system of democratic capitalism including a market economy a democratic polity and a moral cultural system that would nourish the values and virtues on which free societies depend *Three in One* introduces the reader to Novak s portrait of democratic capitalism *The Spirit of Democratic Capitalism* Shu-chiu Tsai, 1987 **Social Ethics in the Making** Gary Dorrien, 2011-04-06 In the early 1880s proponents of what came to be called the social gospel founded what is now known as social ethics This ambitious and magisterial book describes the tradition of social ethics one that began with the distinctly modern idea that Christianity has a social ethical mission to transform the structures of society in the direction of social justice Charts the story of social ethics the idea that Christianity has a social ethical mission to transform society from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy church and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self styled public intellectuals through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award **Tensions in Christian Ethics** Malcolm Brown, 2011-01-01 The book draws on the author s teaching of ethics at undergraduate and postgraduate level for the Cambridge Theological Federation since 2000 Its purpose is to introduce the reader to questions in Christian ethics through a careful examination of the fundamental meta ethical questions posed by the state we re in whether understood as a new phase of modernity or as postmodernity Brown draws on sources and authors from a variety of Christian traditions and from Britain the U S A and Europe The book will be of use not only to university departments and denominational and ecumenical

teaching institutions but also as a more general exposition of the current state of ethical thinking in the Christian churches

After the Market Malcolm Brown, 2004 The market economy is dominant in people's lives today and undermines much Christian comment and church practice This book critiques much of the churches recent work on economic issues and proposes a renewed theological seriousness for mission in the economy

In the World, But Not of the World Andrew L. Fitz-Gibbon, 2000-01-01 In the World But Not of the World explores the threefold tension among Alasdair MacIntyre's prognosis for Western society the desires of some for a social transformation with a Christian moral vision at the sacred centre and a baptist understanding of Christianity as essentially voluntary non sacralist discipleship Andrew Fitz Gibbon uses five contemporary Christian social thinkers from different traditions as conversation partners Through his examination of these thinkers Fitz Gibbon explores how the church may continue to truthfully narrate the Christian story in the midst of the moral tensions of late capitalist Western society His creative conclusion is that the church at the beginning of the twenty first century can move toward a resolution of the central tension of being in the world but not of the world through a synthesis of the believers church tradition and an affirmation of communitarian liberal democracy

Soul in Society Gary J. Dorrien, 1995 Gary Dorrien's major work addresses the roots of and remedy to the current crisis in American Christian social ethics Focusing on the story of American liberal Protestantism the book examines in fascinating depth the three major movements in this century the Social Gospel Christian Realism and Liberation Theology in a way that also brings African American feminist environmentalist Catholic and other voices into the increasingly multicultural quest Dorrien then carefully assesses the crisis of social Christian thought in a culture that is increasingly secular materialistic and dominated by capitalism He shows how the progressive Christian vision of social and economic democracy can be redeemed in the face of its apparent defeat He argues strongly for a social Christianity faithful to the spiritual reality and kingdom oriented ethic of the way of Christ Dorrien's engaging narrative knowledgeable and fair analysis and thoughtful proposal bring desperately needed clarity and commitment to the Christian social conscience

The Egalitarian Spirit of Christianity Stephen Strehle, 2017-09-08 Religion no longer plays a dominant role in the everyday consciousness of modern Western society Few people recognize the underlying role of religious beliefs and practices in their life choices Stephen Strehle shows the significance and ongoing influence of religion in contemporary life by revealing the sacred roots of modern political ideas in the sixteenth and seventeenth centuries He discusses the role of the church in government probing into the sources of democratic federal and egalitarian ideas on the continent of Europe during the Reformation The separation of church and state in America and the diminished power of the Church of England were the culmination of secular forces evolving since the Enlightenment This secular view of life represents the basic mentality of the culture and the government in general yet there is much to contradict it The last half of the twentieth century witnessed a surge of grassroots movements from all sides of the political religious spectrum These included the civil rights movement of the 1960s and the Moral Majority of the 1980s

both of which provided an effective challenge to a simple separation of the two realms Strehle explores some of the most cherished political ideals of modern society including equality and democracy liberty and natural rights progress and capitalism federalism and mixed government He does not dismiss the vital contribution of other possible sources of inspiration from the world of religion or undermine the well established place of secular sources But he does show that certain ideas associated with the religious community have left an indelible mark upon significant aspects of the emerging American landscape

Catholic Discordance Massimo Borghesi, 2021-12-20 2022 Catholic Media Association honorable mention Pope Francis 2022 Catholic Media Association honorable mention in English translation edition One element of the church that Pope Francis was elected to lead in 2013 was an ideology that might be called the American model of Catholicism the troubling result of efforts by intellectuals like Michael Novak George Weigel and Richard John Neuhaus to remake Catholicism into both a culture war colossus and a prop for ascendant capitalism After laying the groundwork during the 1980s and armed with a selective and manipulative reading of Pope John Paul II's 1991 encyclical *Centesimus Annus* these neoconservative commentators established themselves as authoritative Catholic voices throughout the 1990s viewing every question through a liberal conservative ecclesial political lens The movement morphed further after the 9/11 terror attacks into a startling amalgamation of theocratic convictions which led to the troubling theopoliticism we see today The election of the Latin American pope represented a mortal threat to all of this and a poisonous backlash was inevitable bringing us to the brink of a true American schism This is the drama of today's Catholic Church In *Catholic Discordance* Neoconservatism vs the Field Hospital Church of Pope Francis Massimo Borghesi who masterfully unveiled the pope's own intellectual development in his *The Mind of Pope Francis* analyzes the origins of today's Catholic neoconservative movement and its clash with the church that Francis understands as a field hospital for a fragmented world

The Denigration of Capitalism Michael Novak, David B. Burrell, 1979 *Created Freedom under the Sign of the Cross* David E. DeCosse, 2022-06-08 The United States is in a crisis of freedom Influenced by neoliberal economics the concept of freedom has become identified with an abstract radical individualism disdainful of responsibility to others and to the past Signs of this crisis crop up everywhere Some invoke freedom as justification for refusing to wear a mask in a pandemic Others argue that freedom is an empty word if it's celebrated apart from an honest engagement with the country's history of racism *Created Freedom under the Sign of the Cross* offers a Catholic theological response to this crisis of freedom Catholic social ethics may be better known for its emphasis on social principles like the common good and solidarity But developments in Catholic theologies of freedom in the last decades provide fertile ground from which to develop a bold creative response to this American crisis of freedom In this book theologian David DeCosse draws on thinkers ranging from philosopher Amartya Sen to Black Catholic theologian Shawn Copeland to twentieth century theological giant Karl Rahner in order to reimagine American freedom in light of classic Catholic emphases on embodiment relationship history the good and God The result is a

Catholic public theology that provides a redemptive path forward in an age of crisis *Reclaiming the Radical Economic Message of Luke* David D. M. King, 2022-05-13 No canonical Gospel is more concerned with wealth and poverty than Luke A centuries long debate rages over just how revolutionary Luke's message is This book seeks to recover Luke's radical economic message to place it in its ancient context and to tease out its prophetic implications for today Luke has a radical message of good news for the poor and resistance to wealth God is shown to favor the poor championing their struggle for justice while condemning the rich and recommending a sweeping disposal of wealth for the benefit of the poor This represents a distinct break from the ethics of the Roman Empire and a profound challenge to modern economic systems Generations of interpreters have worked to file down Luke's sharp edges from scribes copying ancient manuscripts to early Christian authors to contemporary scholars Such domestication disfigures the gospel silencing its critique of an economic system whose unremitting drive for profit and economic growth continues to widen the gap between rich and poor while threatening life altering environmental change It is time to reclaim the bracing prophetic call of Luke's economic message that warns against the destructive power of wealth and insists on justice for the poor and marginalized **Heart of the World, Center of the Church** David L. Schindler, 2001-09 **Divine Economy** D. Stephen Long, 2002-09-11 What has theology to do with economics This first book to address the question directly will be welcomed by all those with an interest in exploring how theology can inform economic debate **The Cross and Reaganomics** Eric R. Crouse, 2013-05-16 The Cross and Reaganomics Conservative Christians Defending Ronald Reagan by Eric R Crouse offers important insights on why Reaganomics was a major reason conservative Christians supported Reagan at the polls On election night in November 1980 Americans witnessed the victory of a conservative to the presidency With the United States experiencing economic stagnation and high inflation many were hopeful of Ronald Reagan's deeds matching his optimistic rhetoric of America's potential What followed was a decade of economic transformation military buildup and a political awakening of conservatism One story that has not received much attention is the relationship between conservative Christians and Ronald Reagan's economic policies Crouse argues that conservative Christians were among the strongest champions of limited government free enterprise particularly small business and anticommunism A surprising number of conservative Christian leaders discussed the works of major free market economists Conservative Christians embraced and tapped into the traditional American values of individual opportunity personal responsibility and human freedom all themes they believed were front and center in Reaganomics Although American pluralism prevented any plan to Christianize the nation by politics in the sphere of economics conservative Christians did witness political and cultural gains **Eclipse of Justice** George E. McCarthy, Royal W. Rhodes, 2008-12-21 A sociologist and a church historian provide a probing scholarly critique of Economic Justice for All the American bishops pastoral letter on Catholicism and the U S economy McCarthy and Rhodes examine the letter's focus on poverty inequality and powerlessness in American society They review classical concepts of social ethics and

economic justice as applied by the bishops to analyze the social political and economic institutions of American By examining reactions to the letter from both the political left and right *Eclipse of Justice* opens up the full range of debate about the nature of social ethics The first part of *Eclipse of Justice* presents the moral dilemma created by the bishops critique of liberalism they pronounced it a social and moral scandal and explores the antecedents papal episcopal and lay that provided the ideas and vocabulary for the bishops letter The second part analyzes the pastoral letter and locates it within the larger context of debates about economic structures in modern liberalism The third part examines attempts of the bishops to relate Christian social doctrine to international political and economic issues and probes the contributions of liberation theology and dependency theory
