The Strong Breed Summary:

The Summary, 1908 *Summary of Publications* Alma LaVoy Wilson, Byron Alder, Ezra Grover Carter, George F. Knowlton, Reuben Lorenzo Hill, William Peterson, 1926 [Black Theater, City Life](#) Macelle Mahala, 2022-08-15 Macelle Mahala's rich study of contemporary African American theater institutions reveals how they reflect and shape the histories and cultural realities of their cities. Arguing that the community in which a play is staged is as important to the work's meaning as the script or set, Mahala focuses on four cities' arts ecologies to shed new light on the unique relationship between performance and place. Cleveland home to the oldest continuously operating Black theater in the country, Pittsburgh birthplace of the legendary playwright August Wilson, San Francisco a metropolis currently experiencing displacement of its Black population, and Atlanta a city with forty years of progressive Black leadership and reverse migration, Black Theater City Life looks at Karamu House Theatre, the August Wilson African American Cultural Center, Pittsburgh Playwrights Theatre Company, the Lorraine Hansberry Theatre, the African American Shakespeare Company, the Atlanta Black Theatre Festival, and Kenny Leon's True Colors Theatre Company to demonstrate how each organization articulates the cultural specificities, sociopolitical realities, and histories of African Americans. These companies have faced challenges that mirror the larger racial and economic disparities in arts funding and social practice in America, while their achievements exemplify such institutions' vital role in enacting an artistic practice that reflects the cultural backgrounds of their local communities. Timely, significant, and deeply researched, this book spotlights the artistic and civic import of Black theaters in American cities. **The Journal of Commonwealth Literature**, 1982 One number each year includes Annual bibliography of Commonwealth literature.

Ibeagha-Awemu,Sunday O. Peters,Appolinaire Djikeng,John E. O. Rege,2025-12-02 This open access book is a rich resource that chronicles the abundant livestock genetic resources in Africa Organized in five sections the chapters trace special productive and adaptive attributes of African livestock breeds past breed improvement efforts capacity building and strategies to effective utilization of available genetic resources in the era of modern technologies The authors cover major farm animal groups as well as dromedaries rabbits and grasscutters In view of the UN Sustainable Development Goals in particular SDG 2 Zero Hunger and SDG 15 Life on Land the purpose of this volume is to catalogue opportunities that can be

leveraged with available technologies and technical knowhow for achieving rapid genetic gain and improved livestock productivity in Africa. It fosters the utilization of genetic resources and the protection of indigenous livestock biodiversity. Natural selection and humans have generated genetically diverse breeds of domesticated farm animals which can significantly contribute to the livelihoods of millions of Africans today. Africa's indigenous livestock are particularly hardy and well adapted to local production contexts having evolved adaptations to the continent's diverse climatic conditions and environmental pressures. In spite of the wealth of desirable genetic traits, however, some of Africa's iconic and lesser known livestock are disappearing at an alarming rate. Moreover, despite increasing recognition of what this diversity portends, little has been done to understand and optimally harness the full potential of these genetic resources. By combining scientific basis and practical instructions, this work is a valuable manual for a diverse readership including students, researchers, livestock farmers, livestock and non-governmental organizations, policy makers and business professionals who want to understand the uniqueness of African livestock genetic resources, production systems and strategies for sustainable improvement for the African environment.

Portrayals of Masculinity in Nigerian Plays Beatrice Nwawuloke Onuoha, 2023-10-16. Portrayals of Masculinity in Nigerian Plays explores Nigerian people's notions of masculinity as portrayed in twelve Nigerian plays written by three generations of Nigerian playwrights. She argues that hegemonic masculinity and other forms which are referred to as alternative masculinities exist in traditional Nigerian society. By analyzing plays written by first, second and third generation Nigerian playwrights, Onuoha tracks how notions about masculinity have evolved over the years. Further, she discusses the malleability of masculinity by exploring how women manifest qualities associated with masculinity within Nigerian plays. Through a review of critical studies on gender constructions, Onuoha examines not only the negative experiences of women within an African patriarchal system but also the negative experiences of the men who are also direct or indirect victims of such a system.
