Making Indian Law Christian W. McMillen, 2008-10-01 In 1941 a groundbreaking U S Supreme Court decision changed the field of Indian law setting off an intellectual and legal revolution that continues to reverberate around the world This book tells for the first time the story of that case United States as Guardian of the Hualapai Indians of Arizona v Santa Fe Pacific Railroad Co which ushered in a new way of writing Indian history to serve the law of land claims Since 1941 the Hualapai case has travelled the globe Wherever and whenever indigenous land claims are litigated the shadow of the Hualapai case falls over the proceedings

Threatened by railroad claims and by an unsympathetic government in the post World War I years Hualapai activists launched a campaign to save their reservation a campaign which had at its centre documenting the history of Hualapai land use The book recounts how key individuals brought the case to the Supreme Court against great odds and highlights the central role of the Indians in formulating new understandings of native people their property and their past Trapped by History Darryl Cronin, 2021-04-15 The Australian nation has reached an impasse in Indigenous policy and practice and fresh strategies and perspectives are required Trapped by History highlights a fundamental issue that the Australian nation must confront to develop a genuine relationship with Indigenous Australians The existing relationship between Indigenous people and the Australian state was constructed on the myth of an empty land terra nullius Interactions with Indigenous people have been constrained by eighteenth century assumptions and beliefs that Indigenous people did not have organised societies had neither land ownership nor a recognisable form of sovereignty and that they were savage but could be civilized through the erasure of their culture These incorrect assumptions and beliefs are the foundation of the legal constitutional and political treatment of Indigenous Australians over the course of the country's history They remain ingrained in governmental institutions Indigenous policy making judicial decision making and contemporary public attitudes about Indigenous people Trapped by History shines new light upon historical and contemporary examples where Indigenous people have attempted to engage and dialogue with state and federal governments These governments have responded by trying to suppress and discredit Indigenous rights culture and identities and impose assimilationist policies In doing so they have rejected or ignored Indigenous attempts at dialogue and partnership Other settler countries such as New Zealand Canada and the United States of America have all negotiated treaties with Indigenous people and have developed constitutional ways of engaging cross culturally In Australia the limited recognition that Indigenous people have achieved to date shows that the state is unable to resolve long standing issues with Indigenous people Movement beyond the current colonial relationship with Indigenous Australians requires a genuine dialogue to not only examine the legal and intellectual framework that constrains Indigenous recognition but to create new foundations for a renewed relationship based on intercultural negotiation mutual respect sharing and mutual responsibility This must involve building a shared understanding around addressing past injustices and creating a shared vision for how Indigenous people and other Australians will associate politically in the future **Does History Matter?** Klaus Neumann, Gwenda Tavan, 2009-09-01 This volume of essays represents the first systematic attempt to explore the use of the past in the making of citizenship and immigration policy in Australia and New Zealand Focussing on immigration and citizenship policy in Australia and New Zealand the contributions to this volume explore how history and memory are implicated in policy making and political debate and what processes of remembering and forgetting are utilised by political leaders when formulating and defending policy decisions They remind us that a nuanced understanding of the past is fundamental to managing the politics and practicalities of immigration and
