The Passage to Cosmos Laura Dassow Walls, 2009-09-15 Explorer scientist writer and humanist Alexander von Humboldt was the most famous intellectual of the age that began with Napoleon and ended with Darwin With *Cosmos* the book that crowned his career Humboldt offered to the world his vision of humans and nature as integrated halves of a single whole In it Humboldt espoused the idea that while the universe of nature exists apart from human purpose its beauty and order the very idea of the whole it composes are human achievements *cosmos* comes into being in the dance of world and mind subject and object science and poetry Humboldt's science laid the foundations for ecology and inspired the theories of his most important scientific disciple Charles Darwin In the United States his ideas shaped the work of Emerson Thoreau Poe and Whitman They helped spark the American environmental movement through followers like John Muir and George Perkins Marsh And they even bolstered efforts to free the slaves and honor the rights of Indians Laura Dassow Walls here traces Humboldt's ideas for *Cosmos* to his 1799 journey to the Americas where he first experienced the diversity of nature and of the world's peoples and envisioned a new cosmopolitanism that would link ideas disciplines and nations into a global web of knowledge and cultures In reclaiming Humboldt's transcultural and transdisciplinary project Walls situates America in a lively and contested field of ideas actions and interests and reaches beyond to a new worldview that integrates the natural and social sciences the arts and the humanities To the end of his life Humboldt called himself half an American but ironically his legacy has largely faded in the United States *The Passage to Cosmos* will reintroduce this seminal thinker to a new audience and return America to its rightful place in the story of his life work and enduring legacy *Henry David Thoreau* Michael Berger, 2025-08-01 Thoreau is well known as a lyrical nature writer environmental prophet rebel against stifling convention and theorist of strategic intervention to protest injustice He was also a part time surveyor and pencil maker student of Native America abolitionist philosopher and shrewd Transcendentalist Whether living at Walden Pond or comfortably on Main Street in central Concord Thoreau made deep inquiries into life and gave all to his craft Drawing on the work of outstanding scholars and critics this companion provides information on the full body of Thoreau's work his life and his world connecting the factors that affected Thoreau's thought and writing and highlighting his impact in his own time and since This study brings these various aspects

of Thoreau's life and writings into focus in over one hundred interconnected essays A New Introduction to American Constitutionalism Mark A. Graber, 2015 A New Introduction to American Constitutionalism is the first truly interdisciplinary study of the American constitutional regime Mark A Graber explores the fundamental elements of the American constitutional order with particular emphasis on how constitutionalism in the United States is a form of politics and not a means of subordinating politics to law **The Teachers & Writers Guide to Classic American Literature** Christopher Edgar, Gary Lenhart, 2001 Published by Teachers Writers Collaborative in association with The Library of America The T W Guide to Classic American Literature is an anthology of essays that provides rich and diverse approaches and insights to writers and teachers of writing at all levels These include introducing third graders to Gertrude Stein teaching Emily Dickinson's poetry to prisoners and using the model of Henry David Thoreau's journals in the college classroom The other authors discussed in this book are James Baldwin Elizabeth Bishop Raymond Chandler Stephen Crane Frederick Douglass Nathaniel Hawthorne Zora Neale Hurston Henry James Herman Melville Eugene O'Neill Lorine Niedecker Edgar Allan Poe Anne Porter Wallace Stevens Jean Toomer Mark Twain Walt Whitman and William Carlos Williams The T W Guide to Classic American Literature also includes a useful bibliography and essay on using World War II journalism to inspire imaginative writing The distinguished contributors to this volume are veteran teachers of imaginative writing from across the country The T W Guide to Classic American Literature is an inspiring collection for teachers American literature and imaginative writing It is also a fascinating read for anyone passionate about teaching literature or creative writing *The Demon of the Continent* Joshua David Bellin, 2012-06-30 In recent years the study and teaching of Native American oral and written art have flourished During the same period there has been a growing recognition among historians anthropologists and ethnohistorians that Indians must be seen not as the voiceless nameless faceless Other but as people who had a powerful impact on the historical development of the United States Literary critics however have continued to overlook Indians as determinants of American rather than specifically Native American literature The notion that the presence of Indian peoples shaped American literature as a whole remains unexplored In *The Demon of the Continent* Joshua David Bellin probes the complex interrelationships among Native American and Euro American cultures and literatures from the mid seventeenth to the mid nineteenth centuries He asserts that cultural contact is at the heart of American literature For Bellin previous studies of Indians in American literature have focused largely on the images Euro American writers constructed of indigenous peoples and have thereby only perpetuated those images Unlike authors of those earlier studies Bellin refuses to reduce Indians to static antagonists or fodder for a Euro American imagination Drawing on works such as Henry David Thoreau's *Walden* William A. Starna's *A Son of the Forest* and little known works such as colonial Indian conversion narratives he explores the ways in which these texts reflect and shape the intercultural world from which they arose In doing so Bellin reaches surprising conclusions that *Walden* addresses economic clashes and partnerships between Indians and whites that William

Bartram's Travels encodes competing and interpenetrating systems of Indian and white landholding that Catherine Sedgwick's Hope Leslie enacts the antebellum drama of Indian conversion that James Fenimore Cooper and Henry Wadsworth Longfellow struggled with Indian authors such as George Copway and David Cusick for physical ideological and literary control of the nation The Demon of the Continent proves Indians to be actors in the dynamic processes in which America and its literature are inescapably embedded Shifting the focus from textual images to the sites of material ideological linguistic and aesthetic interaction between peoples Bellin reenvision American literature as the product of contact conflict accommodation and interchange
