Twentyfive Years Of International Trade Unionism:

Twenty-five Years of International Trade Unionism J. Sassenbach,1926 *Twenty-five Years of International Trade Unionism* Corneille Mertens,Walter Citrine,1925 **Twenty-five Years of International Trade Unionism** Johann Sassenbach,1926 *The International Trade-Union Movement* ,1925 **The Founding of the Red Trade Union International** Mike Taber,2024-09-16 The 1921 founding congress in Moscow of the Red International of Labour Unions was a historic event That gathering set out to create an international revolutionary trade union organisation embracing millions of workers and it brought together a wide variety of forces within the world labour movement Lively and at times acrimonious debates occurred at the congress with syndicalist and other currents over the purpose and tasks of trade unions the nature of class struggle unionism and union strategy and tactics The congress proceedings published here in a richly annotated edition are part of a multi volume series on the Communist International in Lenin s time *The Shape of Transnational Unionism* John P. Windmuller,1979 Monograph on international trade unionism and its implications for USA trade unions gives historical background of the movement discusses membership financing leadership publications aims activities and relationship to the ICFTU and includes a directory of international trade secretariats One page bibliography and references **History General Federation Trade Unions, 1899-1980** Alice Prochaska,2022-12-30 When this book was originally published in 1982 the General Federation of Trade Unions GFTU was an organisation which catered for some 40 unions with an aggregate membership of 490 000 The GFTU in the late 20th Century was a very different organisation from what its founders in 1899 hope it might become but in both its early and later form it holds a significant place in the history of British trade unionism Its history outlined in this book sheds much light on the history of labour relations and working class organisation in this country as a whole The book provides a framework within which the GFTU s contribution to the history of British labour in the 20th Century may be understood **Annual Report on Labour Organization in Canada** ,1915 **Labour Organization in Canada** ,1926 **Globalization and Labor** Dimitris Stevis,Terry Boswell,2008 Unions have long been a central force in the democratization of national and global governance and this timely book examines the role of labor in fighting for a more democratic and equitable world In a clear and compelling narrative Dimitris Stevis and Terry Boswell explore the past accomplishments and the formidable challenges still facing global union politics Outlining the contradictions of globalization and global governance they assess the implications for global union politics since its inception in the nineteenth century The authors place this key social movement in a political economy framework as they argue that social movements can be fruitfully compared based on their emphases on egalitarianism and internationalism Applying these concepts to global union politics across time the authors consider whether global union politics has become more active and more influential or has failed to rise to the challenge of global capitalism All readers interested in global organizations governance and social movements will find this deeply informed work an essential resource
