Two Ears Of Corn A Guide To People Centered Agricultural Improvement:

Two Ears of Corn Roland Bunch,1982 Two Ears of Corn: a Guide to People-centered Agricultural Improvement,1988 **Innovation for development** Devaux, A.,Ordinola, M.,Horton, D.,2011-11-30 **A.I.D. Research and Development Abstracts** ,1984 A.I.D. Research and Development Abstracts United States. Agency for International Development,1982 Rainfed Farming Systems Philip Tow,Ian Cooper,Ian Partridge,Colin Birch,2011-09-16 While a good grasp of the many separate aspects of agriculture is important it is equally essential for all those involved in agriculture to understand the functioning of the farming system as a whole and how it can be best managed It is necessary to re assess and understand rain fed farming systems around the world and to find ways to improve the selection design and operation of such systems for long term productivity profitability and sustainability The components of the system must operate together efficiently yet many of the relationships and interactions are not clearly understood Appreciation of these matters and how they are affected by external influences or inputs are important for decision making and for achieving desirable outcomes for the farm as a whole This book analyses common rain fed farming systems and defines the principles and practices important to their effective functioning and management *Toward an Environmental Strategy for Latin America and the Caribbean* ,1990 **Can We Feed the World Without Destroying It?** Eric Holt-Gimenez,2019-02-25 Nearly a third of the world s population suffers from hunger or malnutrition Feeding them and the projected population of 10 billion people by 2050 has become a high profile challenge for states philanthropists and even the Fortune 500 This has unleashed a steady march of initiatives to double food production within a generation But will doing so tax the resources of our planet beyond its capacity In this sobering essay scholar practitioner Eric Holt Gim nez argues that the ecological impact of doubling food production would be socially and environmentally catastrophic and would not feed the poor We have the technology resources and expertise to feed everyone What is needed is a thorough transformation of the global food regime one that increases equity while producing food and reversing agriculture s environmental impacts **When Helping Hurts** Steve Corbett,Brian Fikkert,2014-01-24 With more than 300 000 copies in print When Helping Hurts is a paradigm forming contemporary classic on the subject of poverty alleviation and ministry to those in need Emphasizing the poverty of both heart and society this book exposes the need that every person has and how it can be filled The reader is brought to understand that poverty is much more than simply a lack of financial or material resources and that it takes much more than donations and handouts to solve the problem of poverty While this book exposes past and current development efforts that churches have engaged in which unintentionally undermine the people they re trying to help its central point is to provide proven strategies that challenge Christians to help the poor empower themselves Focusing on both North American and Majority World contexts When Helping Hurts catalyzes the idea that sustainable change for people living in poverty comes not from the outside in but from the inside out **Rural Development** Paola de Salvo,Manuel Vaquero Pineiro,2022-02-02 The book brings together a

series of contributions with a common goal of reflecting the links between economic development and rural development The scenario is dotted not only with old and new wounds but also with innovative strategies in an attempt to overcome existing delays The chapters of the book are composed of scenarios full of case studies The plans to be adopted to help the countries that have lagged behind fueled an intense debate since the obstacles to development as evidenced by the extensive scientific literature available now appeared to be the realities present in the socio economic structures of a large number of villages Although the data available are still few it is assumed that the Covid 19 pandemic will make a landscape already full of criticalities even more fragile
