Two Is Enough Laura Scott, 2009-09-22 Fall in love Get married Have children For most couples marriage and children go hand in hand And yet the number of people choosing childlessness is on the rise These are the childless by choice people who have actively decided not to have children rather than the childless by circumstance In **Two Is Enough** Laura S Scott explores the assumptions surrounding childrearing and explores the reasons many people are choosing to forgo this experience Scott founder of the Childless by Choice Project examines the personal stories of people who have faced this decision and explores the growing trend of childlessness Scott s expert knowledge and analysis offer a picture of the childless by choice who they are why they ve chosen to remain childless and how they ve had these conversations with loved ones Honest and unapologetic **Two Is Enough** recognizes the challenges of being childless in today s society and offers suggestions on how that same society can change to make room for the childless and the childfree

Childfree by Choice Dr. Amy Blackstone, 2019-06-11 From Dr Amy Blackstone childfree woman co creator of the blog we re not having a baby and nationally recognized expert on the childfree choice comes a definitive investigation into the history and current growing movement of adults choosing to forgo parenthood what it means for our society economy environment perceived gender roles and legacies and how understanding and supporting all types of families can lead to positive outcomes for parents non parents and children alike As a childfree woman Dr Amy Blackstone is no stranger to a wide range of negative responses when she informs people she doesn t have nor does she want kids confused looks patronizing quips thinly veiled pity even outright scorn and condemnation But she is not alone in opting out when it comes to children More people than ever are choosing to forgo parenthood and openly discussing a choice that s still often perceived as taboo Yet this choice and its effects personally and culturally are still often misunderstood Amy Blackstone a professor of sociology has been studying the childfree choice since 2008 a choice she and her husband had already confidently and happily made Using her own and others research as well as her personal experience Blackstone delves into the childfree movement from its conception to today exploring gender race sexual orientation politics environmentalism and feminism as she strips away the misconceptions surrounding non parents and reveals the still radical notion that support of the childfree can lead to better lives and societies for all

Childless Living Lisette Schuitemaker, 2019-02-19 An exploration of the self fulfilling lives of people who by chance or choice have no children of their own Investigates the life choices people make around having children and alternate ways of finding purpose in life Based on a global survey and more than 50 in depth interviews with childless and childfree women and men aged 19 to 91 from different cultures and walks of life Enables readers to place their own circumstances in a larger context as they gain insight in the worldwide trend of people who lead a self fulfilling childless life Not having children is on the rise in many countries across the globe August 1st has been named International Childfree Day with a Childfree Woman and Man of the Year Award Yet being childless is a subject not much talked about the focus

tends to be on having families and raising children in rural town or city life Let s talk about not having children about what people like us do with our time about how we spend our money and most of all how we find purpose and fulfilment in our lives Never attracted to family life herself Lisette Schuitemaker began openly discussing why people didn t have children and how that was for them resulting in intimate conversations with childless women and men and surprising insights Inspired to delve further she interviewed non parenting people aged 19 to 91 across the globe She found that no story was like the other and that many had been waiting to be listened to with sensitivity She heard stories across the spectrum from exhilarating to painful from people still on the fence to the childfree who have always known starting a family was not for them

Complementing her interview findings with a worldwide survey and recent research the author paints a rich picture of the individual lives of childless and childfree women and men This book is for everyone who has not gone the way of parenthood who has close family or friends who lead self directed lives without offspring and for all those who are still contemplating this essential life choice The stories in this book also testify that not having children of your own in no way means the joys and trials of children pass you by altogether This book shows that it is ok to celebrate not only the parenting way of life and the children who come to those who love them but also those who are brave enough to follow the lesser known path of non parenting

Childfree across the Disciplines Davinia Thornley, 2022-04-15 Recently childfree people have been foregrounded in mainstream media More than seven percent of Western women choose to remain childfree and this figure is increasing Being childfree challenges the procreation imperative residing at the center of our hetero normative understandings occupying an uneasy position in relation to simultaneously traditional academic ideologies and prevalent social norms After all as Adi Avivi recognizes if a woman is not a mother the patriarchal social order is in danger This collection engages with these mis perceptions about childfree people in media representations demographics historical documents and both psychological and philosophical models Foundational pieces from established experts on the childfree choice Rhonny Dam Laurie Lisle Christopher Clausen and Berenice Fisher appear alongside both activist manifestos and original scholarly work comprehensively brought together Academics and activists in various disciplines and movements also riff on the childfree life its implications its challenges its conversations and its agency all in relation to its inevitability in the 21st century *Childfree across the Disciplines* unequivocally takes a stance supporting the subversive potential of the childfree choice allowing readers to understand childfreedom as a sense of continuing potential in who or what a person can become

Marriage and the Family Julie Xuemei Hu, Shondrah Tarrezz Nash, 2019-04-23 *Marriage and the Family Mirror of a Diverse Global Society* is a comprehensive text about marriage and the family in sociology family science and diversity studies The book is divided into four parts studying marriage patterns and understanding family diversity developing and maintaining intimate relationships tackling family issues and managing household crises and appreciating contemporary living arrangements in a diverse American society and across the global community *Marriage and the Family* is unique in its

focus on diversity as well as its global perspective Diversity Overview boxes feature vignettes of family diversity in America Global Overview boxes invite students to experience family life in different areas of the world Indeed families become a mirror that helps students see a diversifying American society and a globalizing world *Voluntary and Involuntary Childlessness* Natalie Sappleton, 2018-08-23 While interest in the drivers consequences nature and manifestations of voluntary and involuntary childlessness increases knowledge progress is hampered by poor linkages across disjointed research fields The book brings together theoretical insights and empirical investigations into the phenomenon united within a feminist conceptual framework *Diversity in Family Life* Elisabetta Ruspini, 2014-12-03 As the variety and number of nontraditional families grow so does the need for new models of family and parenthood Diversity in Family Life discusses the relationship between shifting gender identities and the processes of family formation examining non traditional family structures including asexual couples child free couples living apart together couples single parents and homosexual and transsexual parents Calling for bold reformulations it argues that it is possible to live love and form a family in an astounding variety of ways **The New I Do** Susan Pease Gadoua, Vicki Larson, 2014-09-23 If half of all cars bought in America each year broke down there would be a national uproar But when people suggest that maybe every single marriage doesn't look like the next and isn't meant to last until death there's nothing but a rash of proposed laws trying to force it to do just that In *The New I Do* therapist Susan Pease Gadoua and journalist Vicki Larson take a groundbreaking look at the modern shape of marriage to help readers open their minds to marrying more consciously and creatively Offering actual models of less traditional marriages including everything from a parenting marriage intended for the sake of raising and nurturing children to a comfort or safety marriage where people marry for financial security or companionship the book covers unique options for couples interested in forging their own paths With advice to help listeners decide what works for them *The New I Do* acts as a guide to thinking outside the marital box and the framework for a new debate on marriage in the 21st century What to Expect When No One's Expecting Jonathan V. Last, 2014-06-10 Look around you and think for a minute Is America too crowded For years we have been warned about the looming danger of overpopulation people jostling for space on a planet that's bursting at the seams and running out of oil and food and land and everything else It's all bunk The population bomb never exploded Instead statistics from around the world make clear that since the 1970s we've been facing exactly the opposite problem people are having too few babies Population growth has been slowing for two generations The world's population will peak and then begin shrinking within the next fifty years In some countries it's already started Japan for instance will be half its current size by the end of the century In Italy there are already more deaths than births every year China's One Child Policy has left that country without enough women to marry its men not enough young people to support the country's elderly and an impending population contraction that has the ruling class terrified And all of this is coming to America too In fact it's already here Middle class Americans have their own informal one child policy these days And an

alarming number of upscale professionals don't even go that far they have dogs not kids In fact if it weren't for the wave of immigration we experienced over the last thirty years the United States would be on the verge of shrinking too What happened Everything about modern life from Bugaboo strollers to insane college tuition to government regulations has pushed Americans in a single direction making it harder to have children And making the people who do still want to have children feel like second class citizens What to Expect When No One's Expecting explains why the population implosion happened and how it is remaking culture the economy and politics both at home and around the world Because if America wants to continue to lead the world we need to have more babies

Motherhood and Choice Amrita Nandy, 2017-10-02

How can women live fully If autonomy is critical for humans why do women have little or no choice vis vis motherhood Do women know they have a choice if they do How free are these choices in a context where the self is socially mired and deeply enmeshed into the familial What are implications of motherhood on how human relatedness and belonging are defined These questions underlie Amrita Nandy's remarkable research on motherhood as an institution one that conflates woman with mother and personal with political As the bedrock of human survival and an unchallenged norm of normal female lives motherhood expects and even compels women to be mothers symbolic and corporeal Even though the ideology of pronatalism and motherhood reinforce reproductive technology and vice versa the care work of mothering suffers political neglect and economic devaluation However motherhood and non motherhood is not just physiological As the pivot to a web of heteronormative institutions such as marriage and the family motherhood bears an overwhelming and decisive influence on women's lives Against the weight of traditional and contemporary histories socio political discourse and policies this study explores how women as embodiments of multiple identities could live stigma free authentic lives without having to abandon reproductive self determination Published by Zubaan
